

Building Resilience in Vulnerable Children

Save the Date
20 November 2019

Please save the date for a one-day event on building resilience in vulnerable children, hosted at the OECD in Paris on World Children's Day. The programme includes the report launch of *Breaking the Vicious Cycle: Building Resilience in Vulnerable Children*, keynote speakers and panel sessions.

Experts, policy makers, practitioners and civil society will discuss the drivers of unequal outcomes for vulnerable children and the policy responses needed to help these children do better, in particular those living in poverty, in out-of-home care, with mental health difficulties, and in developing countries.

Please contact Ana Fueyo (ana.fueyo@oecd.org) to pre-register, or for any further information.
