

## TABLE OF CONTENTS

<b>Highlights</b> .....	13
<b>Chapter 1. Recent Developments and Outlook</b> .....	23
Introduction .....	24
The ICT supply sector.....	25
ICT markets.....	44
Trade.....	46
ICTs and economic performance.....	56
Conclusions.....	61
Notes .....	63
References .....	64
<b>Chapter 2. Globalisation of the ICT Sector and International Sourcing of ICT-enabled Services</b> .....	65
Introduction .....	66
Globalisation and trade .....	66
Foreign direct investment.....	73
Mergers and acquisitions.....	76
China and globalisation: trade, FDI and M&As.....	81
Activities of affiliates .....	84
International sourcing of IT and ICT-enabled business services.....	89
Conclusion .....	98
Notes .....	100
References .....	102
<b>Chapter 3. E-business Developments</b> .....	105
Introduction .....	106
Adoption of ICTs for business processes.....	110
Early use of e-business .....	112
More mature e-business applications: internal and external ICT-enabled process integration.....	121
The impact of e-business.....	131
Conclusion .....	134
Notes .....	135
References .....	136
<b>Chapter 4. Use of ICTs by Individuals and Households</b> .....	141
Introduction .....	142
Speed of diffusion.....	142
Connection via broadband and wireless .....	145
Determinants of ICT diffusion .....	148
Patterns of Internet use.....	156
Revisiting the digital divide .....	167
Conclusion .....	170
Notes .....	172
References .....	173
<b>Chapter 5. Digital Delivery</b> .....	177
Introduction .....	178
Digital delivery over the Internet: Internet usage patterns .....	179
Peer-to-peer digital delivery.....	187

Digital delivery of business services.....	196
Digital delivery of healthcare .....	204
Conclusion .....	211
Notes .....	213
References .....	214
<b>Chapter 6. ICT Skills and Employment</b> .....	217
Introduction .....	218
ICT skills: where in the economy are they found?.....	218
ICT skills: how to get them and put them to work .....	233
Conclusion .....	253
Notes .....	255
References .....	257
<b>Chapter 7. Emerging Technology Applications</b> .....	261
Introduction .....	262
Nanotechnology .....	263
Grid computing .....	267
New tracking applications: Radio Frequency Identification .....	272
Wireless fidelity (WiFi) .....	275
Anti-spam technologies .....	279
Conclusion .....	283
References .....	284
<b>Chapter 8. ICT Policy Developments</b> .....	285
Developments since 2001 .....	286
ICT policy environment.....	288
Specific policies and programmes .....	289
Special topics .....	297
Policy assessment and evaluation.....	299
Conclusion .....	299
<b>Annex A. ICT and Internet firms</b> .....	301
<b>Annex B. Methodology and definitions</b> .....	329
<b>Annex C. Tables</b> .....	333
<b>List of boxes</b>	
<b>Chapter 2</b>	
2.1. Non-trade modes of industrial globalisation .....	74
<b>Chapter 3</b>	
3.1. Defining and measuring electronic business at the OECD.....	110
3.2. OECD business usage of ICTs in the Networked Readiness Index .....	122
3.3. Operational ICT-based co-ordination between Japanese companies .....	127
3.4. E-business software solutions .....	130
<b>Chapter 4</b>	
4.1. Ageing populations and ICTs.....	153
4.2. France: a specific diffusion pattern of ICT compared to other technologies.....	169
<b>Chapter 5</b>	
5.1. Data on Internet usage .....	180
5.2. Forms of P2P file sharing .....	188
<b>Chapter 6</b>	
6.1. Defining ICT skills.....	219
6.2. Women, minorities and older workers in the IT workforce .....	231
6.3. Shortages: what are they/how can they be measured? .....	234
6.4. Survey of returning IT workers to Bangalore, India.....	243
6.5. Detailed profiles of UK users of on-line recruitment site.....	252

**Chapter 8**

8.1. Open source software .....	293
8.2. Recommendation of the OECD Council on Broadband Development .....	295
8.3. ICTs, e-business and SMEs: Key policy recommendations.....	297

**Annex boxes**

A.1. Identifying the top ICT firms .....	301
A.2. The transition to services .....	311
A.3. Communications, content and convergence.....	315
A.4. Methodology used to identify Internet firms .....	317
C.3.1. Business ICT diffusion in selected OECD countries, 1994-2003 survey methodology .....	350

**List of tables****Chapter 1**

1.1. Trade in ICT services, 1996-2002 .....	55
---	----

**Chapter 2**

2.1. Annual growth in electronics goods trade and production, 1992-2001 .....	67
2.2. US intra-firm trade in ICT goods, 2002 .....	72
2.3. FDI inflows into China and Hong Kong, China, 1991-2002 .....	83
2.4. Mergers and acquisitions involving China and Hong Kong, China, 1990-2002.....	83
2.5. ICT sector foreign affiliates operating in the United States, 2001 .....	85
2.6. US foreign affiliates operating overseas, 2000.....	86
2.7. Foreign-owned enterprises in Sweden's ICT sector, 2001 .....	87
2.8. Country of origin of foreign-owned enterprises in Sweden's ICT sector, 2001 .....	88
2.9. IT and business process services involved in offshoring.....	90
2.10. Difference in exports reported by India and imports reported by various importers.....	94
2.11. The dynamics of offshoring in the offshore location .....	95
2.12. India's offshore IT and business process outsourcing services players.....	97

**Chapter 3**

3.1. Use of the Internet to search for or provide information, 2002 or latest available year .....	112
3.2. Percentage of firms using Internet for banking and financial services, 2003 or latest available year .....	113
3.3. Percentage of enterprises with more than ten employees having received on-line payments for Internet sales, 2002.....	115
3.4. Type and geographical destination of e-commerce, 2002 or latest available year .....	116
3.5. Placing and receiving orders over the Internet in Australia and Canada, 1999-2002 .....	117
3.6. Integration of orders with backend system by sector, EU5, 2003 .....	124
3.7. Business use of ICT technology in production (2003) and of on-line technology in R&D (2002).....	126
3.8. Percentage of firms carrying out certain functional inter-firm ICT integration .....	129
3.9. Internal and external integration in the German automotive and distribution sector, 2002-03 .....	129

**Chapter 4**

4.1. Pace of diffusion for selected goods in selected OECD countries.....	144
4.2. Workforce participation and future Internet use in the United States, March-May 2002.....	156
4.3. Influence of levels of income and education on Internet access in the United States, 2001 .....	157
4.4. Locations used by adults to access the Internet for personal use in the United Kingdom, 2000-03 .....	158
4.5. Adults' Internet use by site in Australia, 1998-2002 .....	158
4.6. Household Internet use, by location of use in Canada, 1997-2002.....	159
4.7. Frequency of Internet use by location in the Netherlands, 2002.....	159
4.8. Frequency of Internet use in Finland, 1996-2003 .....	159
4.9. Influence of Internet use on leisure time use of media in the United States, 2001-02.....	166
4.10. Reason why Australian households were without a PC or Internet access, 1998-2002.....	166
4.11. PC and Internet differences in penetration rates, top vs. bottom income quartiles and deciles .....	168
4.12. Gini coefficients according to product diffusion rate for selected goods in France.....	169

**Chapter 5**

5.1. Examples of digital delivery .....	178
5.2. Rankings of Internet activity for the United Kingdom, the United States and Australia .....	181

5.3.	Top five computer and Internet sites in the United Kingdom and the United States, January 2004.....	181
5.4.	Use of the Internet in selected EU countries, April 2002 .....	183
5.5.	Categories gaining in importance in England, Denmark and France, April 2001-April 2002 .....	184
5.6.	Top ten UK and US shopping and classifieds sites, January 2004 .....	184
5.7.	Local competitiveness index (LCI), yearly averages, 2003 .....	185
5.8.	Distribution of P2P users in OECD countries, 2003.....	190
5.9.	Change in share of global P2P user base, January 2003 to January 2004 .....	191
5.10.	Size of traded files, 2003 .....	193
5.11.	French Internet users having downloaded free music, movie or software files over P2P networks, June 2003 ..	195
5.12.	Digital delivery of business services .....	203
5.13.	Digital delivery of goods and services by domain: current status and potential.....	207
5.14.	Digital delivery routes and infrastructure requirements .....	208
<i>Chapter 6</i>		
6.1.	Europe: classification of industries according to their intensity of broad ICT skilled employment, 2002 ..	222
6.2.	Top 70 high intensity industries in the US classification under the broad and narrow definitions of ICT skilled employment, 2002.....	226
6.3.	ICT equipment in upper secondary schools, 2001.....	236
6.4.	Use of ICT equipment in upper secondary schools, 2001 .....	237
6.5.	Average number of students per computer by type of school in Japan, FY 2001 and 2002 .....	238
6.6.	Migration flows in and out of Australia, IT managers and computing professionals, 1997-98, 1999-2000....	244
6.7.	Foreign workers entering Canada under the software programme by country of last permanent residence, 1997-2002 (flows) .....	244
6.8.	Number of work permits issued to permanent and temporary IT managers and engineers in France, 1996-2002.....	245
6.9.	Regional shares of total work permits granted to IT specialists in France, 1999-2002 .....	245
6.10.	Recommendations for IT CARDS by the Korean Ministry of Information and Communication, 2000-October 2003.....	248
6.11.	Number of specialist permits issued in Norway, 1995-2002 .....	248
6.12.	Top ten Internet recruitment sites in the United States and the United Kingdom, January 2004 .....	251
6.13.	NORAS results by sector of employer and type of activity .....	253
<i>Chapter 7</i>		
7.1.	Main functions of grid computing.....	268
<i>Chapter 8</i>		
8.1.	Summary of OECD country ICT policy responses, 2003 .....	286
8.2.	Summary of OECD country ICT policy responses, 2001 .....	287
<i>List of annex tables</i>		
A.1.	Country representations in top 250 ICT firms.....	303
A.2.	Top 250 ICT firms by sector.....	305
A.3.	Top 50 ICT firms.....	308
A.4.	Top 10 communications equipment and systems firms .....	309
A.5.	Top 10 electronics and components firms .....	310
A.6.	Top 10 IT equipment and systems firms.....	312
A.7.	Top 10 IT services firms .....	312
A.8.	Top 10 software firms.....	313
A.9.	Top 10 telecommunication services firms.....	314
A.10.	Top 50 Internet firms.....	316
A.11.	Top 50 Internet firms by sector .....	318
A.12.	Top 50 Internet firms by activity .....	322
A.13.	Primary SIC and activity of top 10 ICT firms by sector.....	324
C.1.1.	OECD trade in ICT goods, 1996-2002.....	334
C.1.2.	OECD trade in ICT goods, 1996-2002.....	334
C.1.3.	OECD trade in communication equipment, 1996-2002 .....	335
C.1.4.	OECD trade in computer and related equipment, 1996-2002.....	336
C.1.5.	OECD trade in electronic components, 1996-2002 .....	337
C.1.6.	OECD trade in audio and video equipment, 1996-2002 .....	338

C.1.7. OECD trade in other ICT-related goods, 1996-2002.....	339
C.1.8. OECD trade in software goods, 1996-2002 .....	340
C.2.1. ICT goods trade as a share of total trade, 1996-2002 .....	341
C.2.2. ICT goods export/import ratio, 1996-2002 .....	342
C.2.3. Revealed comparative advantage in ICT goods, 1996-2002 .....	343
C.2.4. Grubel Lloyd Index for ICT goods trade, 1996-2002 .....	344
C.2.5. Worldwide FDI, cross-border M&As and activities of affiliates, 1990-2002.....	345
C.2.6. ICT-sector cross-border M&As, 1995-2003.....	345
C.2.7. Completed ICT-sector cross-border M&As by industry, 1995-2003 .....	345
C.2.8. Completed ICT-sector cross-border M&As by industry, 1995-2003 .....	346
C.2.9. Completed ICT-sector cross-border M&As by country of target, 1995-2003.....	346
C.2.10. Completed ICT-sector cross-border M&As by country of bidder, 1995-2003.....	347
C.2.11. China's trade in ICT goods, 1996-2002 .....	347
C.2.12. Foreign-owned enterprises in Sweden's ICT sector, 2001 .....	348
C.2.13. Swedish-owned ICT sector enterprises operating overseas, 2001.....	349
C.2.14. IMF balance of payments categories .....	349
C.3.1. Use of ICTs to improve the efficiency of internal business processes.....	351
C.3.2. E-business processes, EU5, 2003 .....	352
C.3.3. E-business software solutions, EU5, 2003 .....	352
C.3.4. E-business impact on operations, by size class and sector, EU4, 7 sectors, 2002-03.....	353
C.4.1. Households and individuals with access to a home computer in selected OECD countries, 1986-2003 ....	356
C.4.2. Households with access to the Internet1 in selected OECD countries, 1996-2003 .....	357
C.5.1. Top 10 computer and Internet sites in the United Kingdom and the United States, January 2004 .....	358
C.5.2. Top 10 business and finance sites in the United Kingdom and the United States, January 2004.....	358
C.5.3. Top 10 business information sites (sub category of business and finance) in the United Kingdom and the United States, January 2004.....	359
C.5.4. Top 10 health and medical sites in the United Kingdom and the United States, January 2004.....	359
C.5.5. Percentage of enterprises using Internet-based business solutions in the service provider and telecommunications sector, late 2001.....	360
C.6.1. Europe: Occupations included in the narrow and broad definitions of ICT skilled employment.....	361
C.6.2. United States: Occupations included in the narrow and broad definitions of ICT skilled employment.....	362
C.6.3. United States: Classification of industries according to the intensity of broad ICT skilled employment...	363
C.6.4. Japan: Classification of industries according to the intensity of ICT skilled employment.....	366
C.6.5. Korea: Occupations included in the narrow and broad definitions of ICT skilled employment .....	368
C.6.6. Korea: Classification of industries according to the intensity of broad ICT skilled employment .....	369
C.6.7. Australia: Occupations included in the narrow and broad definitions of ICT skilled employment .....	370
C.6.8. Australia: Classification of industries according to the intensity of broad ICT skilled employment.....	371
C.6.9. List of IT occupations based on Census Canada, 2001 .....	372
C.6.10. Summary results from simple productivity regressions.....	372
C.6.11. Relative importance of computer training by country and by industry, 1999 .....	373
C.6.12. Australia: Relative importance of computer training, by industry, 2001 .....	375
C.6.13. Australia: Relative importance of computer training, by occupation, 2001 .....	375
C.6.14. Information technology professionals on the Priority Occupations List in New Zealand, February 2004 ...	376
C.6.15. IT skills covered by New Zealand's Occupational Shortage List, December 2003 .....	377
C.6.16. Internet recruitment, detailed NORAS results .....	378
C.6.17. ICT occupations in the United Kingdom, based on Standard Occupational Classification, 1990.....	380
C.6.18. ICT occupations in the United States, based on the Occupational Classification from the 1980 Census.....	380
C.6.19. IT-related occupations: US Department of Commerce .....	381
C.6.20. Definition of ITEC (information technology, electronics, and communication technology) occupations....	381
C.6.21. Classification of IT occupations .....	382

## List of figures

### Chapter 1

1.1. Revised estimates of GDP growth.....	24
1.2. Quarterly shipments of ICT goods by segment in the United States, Q1 1999-Q1 2004.....	26
1.3. Monthly inventories-to-shipments ratio for computer and electronic products in the United States, January 1999 to April 2004 .....	26

1.4.	Monthly layoffs in the US computer and electronic products industry, April 1995-May 2004 .....	27
1.5.	Contributions to percentage change in quarterly real private fixed investment by type in the United States, Q1 1995-Q1 2004 .....	27
1.6.	Recent trends in output in the Canadian ICT sector .....	28
1.7.	Monthly output in the electronic and electrical products manufacturing sector in Finland, January 2001-February 2004 .....	28
1.8.	Monthly exports of ICT goods (NACE 30 + 32) in Ireland, January 1995-February 2004 .....	29
1.9.	Growth of monthly production of computer processors in Japan, October 2000-March 2004 .....	29
1.10.	Growth of monthly sales by IT services industries in Japan, July 2000-April 2004 .....	30
1.11.	Worldwide semiconductor market by region, 1990-2003 .....	32
1.12.	Worldwide semiconductor market by product group, 1990-2003 .....	33
1.13.	Worldwide semiconductor market by application (end use) 1990-2003 .....	34
1.14.a.	Share of ICT value added in business sector value added, 1995 and 2001 .....	35
1.14.b.	Share of ICT manufacturing in total manufacturing value added, 2001 .....	35
1.14.c.	Share of ICT services in total business services value added, 2001 .....	35
1.15.a.	Share of ICT employment in business sector employment, 2001 .....	36
1.15.b.	Share of ICT manufacturing in total manufacturing employment, 2001 .....	37
1.15.c.	Share of ICT services in market services employment, 2001 .....	37
1.16.	Share of ICT specialists and ICT users in total employment United States and EU15, 1995-2002 .....	38
1.17.	Share of world ICT production accounted for by EU15, Japan and the United States, in 1990, 2000 and 2002 .....	39
1.18.	Business R&D expenditure in selected ICT industries, 2001 or latest available year .....	41
1.19.	Average R&D intensity in top 250 ICT firms by sector, 2000 and 2002 .....	42
1.20.	Venture capital investments in ICT as a percentage of GDP, 1999-2002 .....	42
1.21.	Venture capital investments in ICT as a percentage of all venture capital investment, 1999-2002 .....	43
1.22.	Quarterly venture capital investments in the ICT sector in the United States, 1995-2003 .....	43
1.23.	Worldwide ICT market, 2003 .....	44
1.24.	ICT intensity <sup>1</sup> in OECD countries, 2003 .....	45
1.25.	Annual growth of ICT spending by segment, selected countries, 1996-2003 .....	45
1.26.	OECD trade in ICT goods, 1996-2002 .....	47
1.27.	Recent trends in ICT goods trade .....	47
1.28.	OECD area ICT goods trade, 2002 .....	48
1.29.	Composition of OECD trade in ICT goods, 1996-2002 .....	49
1.30.	OECD communication equipment trade, 2002 .....	49
1.31.	OECD trade in computer and related equipment, 2002 .....	50
1.32.	OECD trade in electronic components, 2002 .....	51
1.33.	OECD trade in audio and video equipment, 2002 .....	52
1.34.	OECD trade in software goods, 2002 .....	53
1.35.	Share of ICT investment in total non-residential gross fixed capital formation, 1980-2001 .....	56
1.36.	The contribution of ICT manufacturing to aggregate labour productivity growth .....	57
1.37.	The contribution of ICT-using services to aggregate labour productivity growth .....	58
1.38.	GDP per hour worked in the OECD area, 1950, 1990 and 2002 .....	61
 <i>Chapter 2</i>		
2.1.	OECD trade: ICT goods and total merchandise trade, 1996-2002 .....	67
2.2.	Share of ICT goods in total merchandise exports, 1996-2002 .....	68
2.3.	ICT goods exports as a share of GDP, 1999-2002 .....	69
2.4.	ICT goods trade as a share of total merchandise trade, 1996-2002 .....	69
2.5.	Export/import ratio for ICT goods, 1996-2002 .....	70
2.6.	Revealed comparative advantage in ICT goods, 1996-2002 .....	71
2.7.	US cross-border and intra-firm services sales, 1990-2001 .....	73
2.8.	Inward and outward FDI flows: OECD total, 1988-2002 .....	75
2.9.	ICT sector worldwide cross-border M&As, 1995-2003 .....	76
2.10.	Completed ICT sector cross-border M&As by industry, 1995-2003 .....	78
2.11.	Completed ICT sector cross-border M&As deal values, 1995-2003 .....	79
2.12.	Completed cross-border M&A values in ICT and non-ICT industries, 1995-2003 .....	81
2.13.	China's trade in ICT goods, 1996-2002 .....	82

2.14. Offshoring, outsourcing and insourcing IT and business process services.....	89
2.15. Share of the value of reported total exports of other business services and computer and information services, selected countries, 1995 and 2002 .....	92
2.16. Growth of the value of exports of other business services and computer and information services for selected countries, 1995-2002.....	93

### Chapter 3

3.1. Changing focus of policy attention and increased complexity of measurement over time .....	107
3.2. The use of ICTs in the Porter value chain.....	108
3.3. Linear vs. network production model.....	109
3.4. High levels of business connectivity but low rates of e-commerce adoption in selected EC countries, Norway, Iceland and Canada, 2003 or latest available year.....	111
3.5. Different phases of e-business in the Netherlands, 2001 .....	112
3.6. Businesses that provide information on line, 2002-03 .....	113
3.7. Businesses using the Internet for purchasing and selling, 2001 or latest available year.....	114
3.8. Official estimates of Internet and electronic commerce transactions, 2001 or latest available year .....	117
3.9. Estimated quarterly US retail e-commerce sales, Q4 1999 to Q1 2004 .....	118
3.10. Businesses placing orders on line, 2001-03 .....	119
3.11. Businesses that allow customers to place order on line, 2001-03.....	120
3.12. Businesses that accept orders on line with an ordering system linked to other internal systems, 2003 ....	124
3.13. ICTs in supply-chain-related deployment, 2003 .....	125
3.14. Selected EU countries, Iceland and Norway, internal vs. external integration, 2003 .....	127
3.15. External integration: integration with consumers vs. with suppliers.....	128
3.16. Businesses that use e-business solutions, 2002 and 2003.....	131

### Chapter 4

4.1. Evolution of PCs, Internet access (including broadband) and consumer goods after reaching 5% of households.....	143
4.2. Access to a home computer in selected OECD countries, 1994-2002 .....	144
4.3. Households with access to a home computer, 2000-02.....	145
4.4. Household access to InternetI in selected OECD countries, 1996-2003 .....	146
4.5. Households with access to the Internet, 2000-02.....	146
4.6. Broadband access per 100 inhabitants, December 2003 .....	147
4.7. Internet access line type at home in Japan, 2001-03 .....	148
4.8. ICT access or use by educational attainment in selected OECD countries.....	149
4.9. PC uptake among individuals with or without children in Australia, France and Netherlands.....	150
4.10. Internet uptake in Canadian households with or without children, 1997-2002 .....	151
4.11. Household Internet access by household size and dependent children, 2002.....	151
4.12. ICT access by age in selected OECD countries .....	152
4.13. Individuals using the Internet from any location by gender, 2002 .....	155
4.14. Evolution of Internet gender gap in selected countries, 1998-2002 .....	155
4.15. PC and Internet diffusion and use in the United States and Japan, by employment status.....	157
4.16. Internet use by type of activity, 2002 or latest available year.....	161
4.17. Purpose of Internet use from PCs and mobile phone/PHS1 in Japan, 2002.....	162
4.18. On-line activities: narrow and broadband access in United States, 2002.....	162
4.19. Narrow and broadband Internet users by purpose in Japan, 2002 .....	163
4.20. Narrow and broadband Internet users by purpose in France, 2003.....	163
4.21. Broadband diffusion and use of the Internet in Canadian households, 1997-2002.....	164
4.22. Use of the Internet by households in the Netherlands, 1998-2002 .....	164
4.23. Monthly hours for using the PC at home to access the Internet in Japan, 1999-2003 .....	165
4.24. PC uptake in households by income brackets in France and Japan, 1995-2003 .....	171

### Chapter 5

5.1. Searches by US Web surfers, market share of search engines, November 2003 .....	182
5.2. EU sites by category, 2001 and 2002.....	183
5.3. Indigenous national and localised sites in Europe.....	186

5.4.	Growth in global FastTrack and other P2P networks, simultaneous audience, August 2002-April 2004.....	190
5.5.	Breakdown of file sharing for OECD countries, 2002 and 2003.....	192
5.6.	File breakdown for OECD countries based on peak simultaneous KaZaA users, September-October 2003 ....	193
5.7.	Relationship between broadband access and P2P use in selected OECD countries, 2003.....	194
5.8.	Outsourcing and digital delivery in Europe by function (demand side), 2000.....	199
5.9.	Supply of ICT-enabled services in Europe, 2000.....	200
5.10.	European ICT services enterprises selling on line, mid-2002.....	201
5.11.	Digital delivery domains in the healthcare sector.....	204
<i>Chapter 6</i>		
6.1.	Europe: Share of ICT-skilled employment in total employment, narrow definition, by sector, 2002.....	220
6.2.	Europe: Share of ICT-skilled employment in total employment, broad definition, by sector, 2002.....	221
6.3.	United States: Share of ICT-skilled employment in total employment, narrow definition, by sector, 2002.....	224
6.4.	United States: Share of ICT-skilled employment in total employment, broad definition, by sector, 2002.....	225
6.5.	Japan: Share of ICT-skilled employment in total employment, narrow and broad definition, by sector, 2002..	228
6.6.	Korea: Share of ICT-skilled employment, narrow and broad definition, by sector, 2002.....	229
6.7.	Australia: Share of ICT-skilled employment, narrow and broad definition, by sector, November 2003 ....	230
6.8.	Gross value added per employee and the share of ICT-skilled employment, broad definition, in total employment, selected EU countries.....	232
6.9.	Relative importance of various means of acquiring computing skills in the United Kingdom, by complexity of computing skills, 2001.....	233
6.10.	The Danish ICT labour market in 2002.....	238
6.11.	Total work permits granted to IT specialists in France by region and country of origin, 1999-2002.....	246
6.12.	Permits for IT specialists (green cards) delivered in Germany, August 2000-June 2003.....	246
6.13.	Visas issued for working in Japanese firms as technology specialists by sector of activity, 2002.....	247
6.14.	Number of IT work permits approved in the United Kingdom, by occupation, April 2002-September 2003 ....	249
6.15.	Geographical distribution of Monster users registered in Europe, September 2003.....	251
<i>Chapter 7</i>		
7.1.	Projected contribution of nanotechnology to the US economy, 2015.....	264
7.2.	Estimated government nanotechnology R&D expenditure.....	265
7.3.	US nanotechnology spending by government agency.....	267
7.4.	Architecture of a typical computational grid.....	269
7.5.	Worldwide RFID products and integration services sales.....	273
7.6.	Worldwide WiFi revenue.....	276
7.7.	Korea Telecom WLAN subscriptions.....	278
7.8.	Spam as a share of all e-mail messages.....	280
7.9.	Categories of spam messages, February 2004.....	280
<i>Liste of annex figures</i>		
A.1.	Top ICT firms' revenue.....	302
A.2.	Top 250 ICT firms revenue by country of registration.....	304
A.3.	Top 250 ICT firms revenue shares by sector, 2003.....	305
A.4.	Top 250 ICT firms revenue by sector.....	306
A.5.	Top 250 ICT net income by sector.....	306
A.6.	IBM's revenues by market segment, 1992-2002.....	311
A.7.	Relative size of ICT top 10 by revenue, 2003.....	314
A.8.	Revenue growth of ICT top 10, 2000-03.....	315
A.9.	Top 50 Internet firm revenues, 1998-2003.....	317
A.10.	Top 50 Internet firm incomes, 1998-2003.....	318
A.11.	Top 50 Internet firm revenues by sector.....	319
A.12.	Top 50 Internet firms, average annual revenue growth by sector, 1998-2003.....	319
A.13.	Top 50 Internet firms: net income by sector, 1998-2003.....	320
C.3.1.	Business ICT diffusion in selected OECD countries, 1994-2002/2003.....	351
C.4.1.	Historical diffusion of selected goods, Canada.....	353
C.4.2.	Historical diffusion of selected goods, Finland.....	354
C.4.3.	Historical diffusion of selected goods, Japan.....	354
C.4.4.	Historical diffusion of selected goods, Netherlands.....	355
C.5.1.	Change in share of global P2P user base on fast-track networks, 2002-03.....	360
