

REGIONAL SEMINAR

Making investment promotion work for
sustainable development:

Trends and practices in the Mediterranean

22 - 23 October 2018

OECD Conference Centre
2 Rue André Pascal, 75016 Paris

**EU-OECD PROGRAMME ON
PROMOTING INVESTMENT**
in the Mediterranean

Background

The EU-OECD Programme on Promoting Investment in the Mediterranean, launched in October 2016 in Tunis, is aimed at implementing sound and attractive investment policies and establishing effective institutions in the Southern Mediterranean region, with a view to attract quality investments, supporting job creation opportunities, local development, economic diversification and stability.

The Programme, implemented by the OECD (the MENA-OECD Competitiveness Programme and the Investment Division of the Directorate of Financial and Enterprise Affairs), is governed by an Advisory Group, co-chaired by the European Commission and the OECD, with the participation of representatives of beneficiary countries, the Secretariat of the Union for the Mediterranean and other regional partners.

Context and objective

The purpose of this seminar is to showcase and discuss in an interactive setting the results of the draft report "**OECD Mapping of Investment Promotion Agencies (IPAs) in the Mediterranean**". Launched in January 2018 in Rabat, the Mapping is the most comprehensive tool providing comparative evidence on similarities and differences across Mediterranean agencies. The objective of the Mapping is ultimately to support heads of IPAs and investment policymakers to take informed decisions and undertake strategic reforms accordingly. The seminar will provide also a platform to exchange good practices in setting effective investment promotion strategies to attract quality investment and to improve IPAs' policy advocacy role in business climate reforms.

This seminar will be held back-to-back with the **OECD Investment Committee** and will include joint sessions with the **3rd Meeting of the OECD IPA Network**. The purpose of this third OECD Meeting on investment promotion and facilitation is to strengthen the IPA network, discuss topics of common interest and launch the Mapping of Investment Promotion Agencies in OECD countries as well as preview the forthcoming Mapping of Investment Promotion Agencies in Latin America and the Caribbean (LAC). The active participation of Southern Mediterranean governments in the workshop will be an opportunity for networking among IPAs and for increasing the attractiveness and visibility of their regions.

Participants

Workshop participants will include senior IPA representatives and investment policymakers from the Mediterranean, the OECD and LAC countries. Such format will allow participants to benefit from a focused exchange of perspectives among specialists and conduct an evidence-based and forward-looking discussion.

SESSION 1: High-level launch of the “Mapping of Investment Promotion Agencies in OECD countries” & preview of the “Mapping of Investment Promotion Agencies in LAC”

The launch will present highlights from the report “Mapping of IPAs in OECD countries” and a preview of the forthcoming “Mapping of IPAs in Latin America and the Caribbean”.

The OECD mapping report has been prepared in close consultation with IPAs from OECD economies and is based on an extensive survey designed and conducted in partnership with the IDB in 2017. It follows up on a request made by IPAs at the first meeting of the OECD IPA Network. The report covers a wide range of areas pertaining to investment promotion and facilitation; it provides an inventory of existing practices among IPAs in OECD countries and presents different profiles of agencies. It is meant to allow practitioners and policymakers to benchmark their IPAs against those from other countries as well as to help them better grasp similarities and differences across agencies, allowing a basis for future work.

SESSION 2 : Maximising the benefits of FDI: the role of IPAs and other stakeholders

Under the right conditions, FDI can raise overall productivity and ultimately lead to an increase in a country’s standard of living. It can contribute to job creation and the development of human capital, while supporting technology development and the transfer of knowledge and skills. Governments are responsible for the implementation of policies that are geared towards achieving national socio-economic objectives. The role of IPAs in influencing firms’ location decisions to attract FDI that can meet public policy objectives is key. In this context, there is a role for policymakers, businesses, civil society and IPAs. What is the role of each of these stakeholders to maximise the impact of FDI? What are the relevant policies to put in place?

SESSION 3: Policy Advocacy - the role of MED IPAs in investment climate reforms

The objective of this session is to share experiences about the role of IPAs in policymaking. Policy advocacy can be a powerful instrument to bolster reforms and enhance the business environment by leveraging the private sector's feedback. It is a key function of many IPAs, which, through their interactions with investors, are well placed to identify bottlenecks in the investment climate and provide recommendations to address them. Suitable institutional co-ordinating mechanisms and communication channels are needed to ensure optimal government responses.
