Treasury Board Secretariat of Canada’s Strategic Review: The Role of Public Policy Evaluation

OECD MENA Conference, Rabat, Morocco
Session 2: Strategic Planning and Evaluation, Building a Successful Policy Cycle

Roger Scott-Douglas
Executive Director, Treasury Board Secretariat
Government of Canada
March 23, 2010
Overview of Canada’s Public Service

• **Country Profile**
  - 35 million people; second largest country in the world
  - 15th largest economy; $38,400 GDP/capita ($USD, PPP)
  - Highly decentralized federation: 10 provinces, 3 territories
  - Total public sector $590 billion, makes up approximately 40% of GDP (2008-09)

• **Federal Public Sector Profile**
  - Over 520,000 total employees in federal public sector
    - 275,000 employees in the federal public service
  - About 170 main federal organizations:
    - 20 major departments; 15 special operating agencies; 67 statutory & other agencies; 19 departmental corporations; and 49 parent Crown Corporations
  - Total federal government spending of $238.8 billion (2008-09)
    - program spending of $207.9 billion (approximately 13% of GDP)
      - Major transfers to provinces and individuals of $108.1 billion (45%)
      - Direct program spending of $99.8 billion (42%) (of which 62%, operating and capital expenses; 30%, grants and contributions; 8%, crown corporation expenses)
    - public debt charges of $30.9 billion (14%)
Renewing the Expenditure Management System
Enhancing Public Policy Evaluation

• From the late-90s, increased program spending coupled with a lack of performance data undermined fiscal discipline, effective allocation of resources and efficient program delivery
  – From 2001-2006 direct program spending grew by 8.2% per year on average
  – From 1999-2005 the number of employees in the federal public service grew by 12%
  – Program evaluations covered only about 10% of program spending, often targeted at smaller programs; approximately 70% of evaluations were hampered by inadequate data (Auditor General)

• Since the mid-2000s, a number of reforms to better manage overall government spending with an important focus on public policy evaluation:
  – Improved Reporting to Parliament 2005 – moving to streamlined, whole-of-government reports on departmental planning and program performance
  – Management, Resources and Results Structures 2005– regaining detailed program level knowledge of objectives and performance
  – Federal Accountability Act 2006 - included cyclical evaluation of all grants and contribution programs
  – Renewal of Expenditure Management System 2007 – initiating strategic review cycle, up-front fiscal discipline on Cabinet memorandums and improving results-based management
  – Enhanced Evaluation Policy 2009 – quality, capacity, credibility, and expansion of coverage
Overview of Strategic Reviews and Public Policy Evaluation

- Treasury Board is presented with a “strategic review” of each department’s direct spending and performance on a four-year cycle as part of Budget planning:
  - **Comprehensiveness of the Reviews** – assessment of overall mandate, departmental objectives, program effectiveness, efficiency and alignment to government priorities
  - **Reallocation proposals** – identification of options for program reductions or eliminations to reallocate lowest performing/priority 5% of programs to other government priorities in support of overall spending control
  - **Reinvestment proposals** – identification of reinvestment options in support of government priorities (eliminated in 2010)

- **Treasury Board’s Policy on Evaluation**
  - Create a comprehensive and reliable base of evaluation evidence that is used to support policy and program improvement, expenditure management, Cabinet decision making, and public reporting. Each department must evaluate:
    - all direct program spending, excluding grants and contributions, every five years;
    - all ongoing programs of grants and contributions every five years, as required by section 42.1 of the *Financial Administration Act*;
    - the administrative aspect of major statutory spending every five years;
    - programs that are set to terminate automatically over a specified period of time or specific programs, if requested by the Secretary of the Treasury Board following consultation with the affected deputy head
  - Supports the renewal of the Expenditure Management System, by improving the information base for strategic reviews
Case Study: Treasury Board Secretariat’s Strategic Review

Government is well managed and accountable, and resources are allocated to achieve results

Treasury Board Secretariat’s total budget: $4.9B (includes Gov wide funds and Public Service Employer Payments)
$271M in Program Expenditures (includes Internal Services)

The Treasury Board Secretariat has 1987 FTEs (includes Internal Services)

The Secretariat has six Program Activities
1. Management Frameworks - $64.1M
2. People Management - $56.7M
3. Expenditure Management - $30.5M
4. Financial Management - $29.6M
5. Government-wide Funds and Public Service Employer Payments - $4,680.2M
6. Internal Services - $90.5M

(28 Program Sub-Activities)
Treasury Board Secretariat’s Strategic Review: The role of evaluation

• Setting the requirement of “multiple lines of evidence” for program performance
  – The challenge of identifying solid performance indicators with a clear link to expected results

• Establishing a “rating guide” to assess programs’ performance
  – The challenge of determining what to take credit for (TBS performance versus Departments/Agencies performance)

• Addressing “gaps” in program performance data
  – The challenge of measuring performance when a program changes
  – The challenge of evaluating “policy advice”
The challenge of using evaluations of past performance to shape decisions on future resource allocation
- Managing “Heraclitus’ river”

The challenge of comparing various programs’ performance to determine “highest performers”
- Sorting “apples and oranges”

The challenge of striking the right balance between “performance” and “priorities” in selecting programs for the future
- Ranking “what you do” and “how you do it”

Strategic Reviews and Public Policy Evaluation: Challenges and Lessons Learned
