Item 3: Tour d’Horizon

The procedures agreed by the CMF request to the Secretariat to table questions that are likely to result in a discussion of structural policy issues. Background notes on structural issues circulated by the Secretariat are not meant for discussion unless specific items are explicitly raised in the points-for-discussion document [DAFFE/CMF(2000)23]. Delegates are invited to communicate factual comments on the background notes directly to the Secretariat before or after the meeting.

Speaking time for each intervention is limited to a maximum of 5 minutes per Delegation. Delegates are requested to refrain from reading out interventions concerning new policy proposals, conjunctural information etc. Instead, written submissions prior to the meeting are encouraged that will be circulated by the Secretariat. Delegates may wish to note that, as at the April session, a Russian delegation has been invited to participate in the Tour d’Horizon discussion [see paragraphs 11-13 of DAFE/CMF(2000)23].

Item 4. Corporate Governance and Collective Investment Instruments

At its April session, the Committee considered an outline of a report on "Corporate governance and collective investment instruments" [DAFFE/CMF(2000)5] and broadly endorsed the proposals set out therein. The background report presented in DAFE/CMF(2000)26 has been prepared on the basis of the agreed outline. To provide guidance for the Committee’s deliberations, the Secretariat has circulated a note [DAFFE/CMF(2000)25] with suggested points for discussion.

The CMF session will be preceded, on the afternoon of Monday 9 October, by an informal meeting with representatives of the financial services industry on "Prospects for the Collective Investment Industry" [see DAFE/CMF(2000)27]. A summary of the discussion at that meeting will be provided by the Secretariat.

Item 5. Moral Hazard, Contagion and International Financial Crisis

Following on its April discussion on the issue of financial contagion, the Committee instructed the Secretariat to prepare a paper on "The role of moral hazard in financial crises". Document DAFE/CMF(2000)28 has been prepared in response to that request. Delegates are invited to address the questions raised therein (see pg. 3-5).

Following on an informal meeting with representatives of the financial services industry, the Committee discussed last April an outline of the project on “Future prospects for national financial markets and trading centres” [see DAFE/CMF(2000)3] and agreed that work should proceed on the basis of that outline. The report DAFE/CMF(2000)29 has been circulated for consideration by the Committee under this item of the agenda. Delegates may wish to comment on the findings of the study and decide whether any follow-up work is warranted. Note DAFE/CMF(2000)40 has been prepared to guide the discussion.

Item 7. Slovakia: Financial Sector

At its April meeting, the Committee held a discussion on structural developments, financial reforms and supervision in the Slovak Republic. A detailed summary of the discussion is to be found in document DAFE/CMF(2000)21. The Committee also agreed to invite the Slovak delegation to make a progress report on the upgrading and strengthening of financial sector supervision at the October session. In response to that request, the Slovak authorities have prepared a “Progress Report on the Upgrading and
Strengthening of Financial Sector Supervision” [DAFFE/CMF(2000)30], which will serve as a basis for discussion.

**Item 8. Observership**

Under the rules established by the Council, each Committee is required to make a recommendation to the Council concerning the renewal of observerships. The Committee is invited to consider the renewal of the observership for Hong Kong, China and Singapore [DAFFE/CMF(2000)32]. With regard to the Russian Federation, the Council agreed that Russian officials should be invited in 2000 to participate in the discussion of the CMF’s Tour d’Horizon on developments in financial markets on an ad hoc basis [see C(99)192]. At the time of its deliberations on Russia’s request for observership in October 1999, the Committee decided to revert to the question of Russian participation in the Tour d’Horizon, and the issue of observership more generally, at the end of this year. Delegates may wish to note that the Russian authorities have recently reiterated their interest in obtaining observer status in the Committee on Financial Markets [see DAFFE/CMF(2000)31].

**Item 9. Work Planning for 2001**

### III. DOCUMENTS CIRCULATED FOR INFORMATION

2. Aide-memoire of the meeting between CMF Delegates and representatives of the financial services industry (3 April 2000) DAFFE/CMF/M(2000)5
