Working Party on Aid Effectiveness and Donor Practices

DRAFT SUMMARY OF THE SIXTH MEETING OF THE WORKING PARTY ON AID EFFECTIVENESS

Held on 7-8 July 2005

This document is submitted FOR APPROVAL at the seventh meeting of the Working Party on Aid Effectiveness to be held on 19-20 October 2005.

Contact: Simon Mizrahi (Tel. +33-1 45 24 78 41, simon.mizrahi@oecd.org)
Agenda item 1: Adoption of the agenda and summary of last meeting

1. The agenda was adopted and members approved the summary of the last meeting held on 30-31 May 2005 [DCD/DAC/EFF/M(2005)4/PROV].

Agenda item 2: Review of baselines, targets and indicators for adoption in the Paris Declaration

2. The main conclusions reached at the meeting on the indicators and targets have been issued in document DAC/CHAIR(2005)12. The meeting made good progress, agreeing unanimously on the targets for nine indicators, with a couple of others ad referendum. Only one donor was not able to join the consensus on three of the targets relating to use of country procurement and financial management systems. As indicated at the end of the meeting the DAC will be holding further consultations directly with the member. A description of the agreed targets, assessment criteria and definitions for each of the indicators was provided in the above-mentioned document. It was agreed that a more comprehensive report describing the methodology for establishing baselines and targets will be updated in the light of discussions [DCD/DAC/EFF(2005)9/REV2].

3. The chair reminded members that the targets, in accordance with the Paris Declaration, are: “designed to track and encourage progress at the global level among the countries and agencies that have agreed to this Declaration. They are not intended to prejudge or substitute for any targets that individual partner countries may wish to set.” (Paris Declaration para. 9)

4. It was agreed that a distinction would be made between, on one hand the universe of countries for which the targets will be set for 2010 (universe for targeting), and on the other hand, the universe of countries for which progress will be monitored (universe for monitoring). The universe for targeting is limited to ODA eligible countries that have already endorsed the Paris Declaration (and listed under Appendix B of the Declaration) or endorse it by the 31 December 2005. The universe for monitoring is open to all ODA eligible countries that have already endorsed, or will endorse in the future, the Paris Declaration.

5. It was noted that in accordance with the Paris Declaration (para.12) two rounds of monitoring would be undertaken before the third High Level Forum on Aid Effectiveness planned in 2008. The first round is to be undertaken in the course of 2006 in order to establish the 2005 baselines for the twelve indicators. The comprehensive baseline in 2005 will provide the basis for converting the relative targets into numerical values (e.g. halve the proportion of aid flows etc will be converted into a target expressed as a % of aid flows).

6. It was recognised that additional work would have to be undertaken by the Working Party in order to develop a monitoring plan before the end of the year and design a questionnaire to collect data for the ten indicators that do not rely on qualitative assessment. It was agreed that, in designing the questionnaire, particular attention would be given to minimising the transaction costs of collecting the information.
Agenda item 3: Discussion of the WP-EFF work programme, organisation and budget

7. Given the primary objective of the meeting which was to achieve final agreement on the indicators and targets for the Paris Declaration, it was decided during the meeting to delay the work programme discussion until the October meeting. The Secretariat, however, was asked to introduce the draft programme overview [DCD/DAC/EFF(2005)13] and the floor was open for a quick round of comments. On this occasion, Members stressed the need to: (1) develop a work programme which is output-oriented and goes beyond 2006 to cover 2007-2008; (2) clarify the specific tasks of WP-EFF as compared to its Joint Ventures particularly with regard to peer reviews, regional workshops, facilitation and monitoring; and (3) establish clear proposals for activities and products expected from each of the three Joint Ventures (Public Financial Management, Procurement and Managing for Development Results). This would lay the basis for reviewing the future of each WP-EFF subgroup and budget implications at the next meeting.
