Complete document available on OLIS in its original format

This document, as well as any data and map included herein, are without prejudice to the status of or sovereignty over any territory, to the delimitation of international frontiers and boundaries and to the name of any territory, city or area.
The draft is compiled by Miho Taguma and Lars Barteit (OECD) with contributions made by William SCHMIDT (Michigan State University) on "progress report", including the revised timeline of the in-depth analysis on mathematics, and the role Mathematics Plays (PISA 2012). The draft also includes "future-oriented discussions on mathematics curriculum", including contributions from Mr. Conrad WOLFRAM, Mr. Kévin KOK HANG, Ms. Jennifer GROFF, Mr. Lianghuo FAN, and Mr. Kaoru NASUNO.

The IWG members are invited to:

- NOTE the progress made on the in-depth analysis on mathematics
- NOTE different views on the future-oriented curriculum on mathematics and SUGGEST areas of interest for further-oriented discussion on mathematics curriculum at the next meeting

Please note that this document does not exist electronically on OLIS. The document is available only on the OECD Education 2030 Clearspace or upon request to education2030@oecd.org.
