| 3 | 12:00–13:00 | Special Roundtable: Capacity and institutional challenges of the public administration in promoting green growth |  

Many EECCA countries signal the capacity of public administration as a major obstacle to reform for green growth. This relates to the capacity of environmental ministries to draft effective green policies and regulations, their capacity to oversee the implementation at the sub-national level and also the capacity to co-ordinate green initiatives with sectoral ministries.  

This session will provide an opportunity to share a relevant experience from EECCA and OECD countries, brainstorm about ways forward, and the possible role of the GREEN Action Task Force. |
