TERRITORIAL DEVELOPMENT POLICY COMMITTEE
12TH SESSION, 9 – 10 DECEMBER 2004

SUMMARY RECORD

Item 1: Adoption of the Agenda

1. The Committee approved the Agenda of its 12th Session.

Item 2: Summary Record of the 11th Session of the TDPC

2. The Committee approved the Summary Record of its 11th Session.

Item 3: Election of the Bureau

3. The Committee elected the Bureau and welcomed 3 new members: Mr. Bernard MOREL, (France), Director, DATAR; Ms. Marilyn KAPITANY (Canada), Assistant Deputy Minister at the Western Economic Diversification Agency for the Region of Manitoba; and Mr. Roberto VILLARREAL GONDA (Mexico), Office of the Mexican Presidency. These nominations followed the resignation of Mr. Francis AMPE (France), Mr. Jacobo PÉREZ LIZAUR (Mexico) and Mrs. Cristabel MYERS (United Kingdom).

Item 4: Reports by the TDPC and Working Party Chairs

4. The Chair reported on the latest developments since the 11th Session of the TDPC and highlighted the results of recent key events, notably: the OECD World Forum on Key Indicators, held in Palermo, Italy from 10-13 November 2004, where he made a keynote presentation on the soft and hard use of indicators in regional development policies; and the International Conference on Knowledge-based Regional Development and Innovation, which took place in Florence, Italy on 25-26 November 2004.

5. Mr. Takayuki Hara, Chair of the Working Party on Territorial Policy in Urban Areas, briefed delegates on recent and ongoing activities. In particular, he mentioned two important events to which all delegates are invited: the International Conference on City Competitiveness, hosted by the Regional Government of the Canary Island in the City of Santa Cruz de Tenerife, Spain, to be held on 3-4 March 2005; and the International Symposium on Enhancing Cities’ Attractiveness for the Future, which will take place in Nagoya, Aichi, Japan, 2-3 June 2005, kindly hosted by the Government of Japan. The Symposium will be preceded by the 7th Session of the Working Party on Territorial Policy in Urban Areas on 1 June.

6. Mrs. Margaret Clark, Chair of the Working Party on Territorial Policy in Rural Areas reported on past and ongoing activities, in particular on the outcome of the conference on the Future of Rural Policy held in March 2004 in Warrenton, Virginia, near Washington (USA), and on the preparation of the rural policy conference in Oaxaca, Mexico, 7-8 April 2005. She also reported on the outcome of the Working Party’s 6th Session which took place on 7 December.

7. Mr. Ray Bollman, Chair of the Working Party on Territorial Indicators, reported on the latest developments of the Working Party and briefed the Committee on its 9th Session held the day before, in
particular on the discussion on the group’s contribution to the preparation of the forthcoming Symposium on Diagnosing Regional Competitive Advantage in June 2005.

**Item 5: Introductory Remarks and Presentations by the Director of GOV and TDPC Chair**

8. Fabrizio Barca, Chair, made introductory remarks on the agenda items of the two-day meeting. Odile Sallard, Director of GOV, then reported on the latest developments in the Directorate and in particular on two documents prepared by the Secretariat further to the Committee’s discussion of the programme of work 2005-6, [GOV/TDPC(2004)3/REV2] at its 11th Session, which concern: a Communications Plan [GOV/TDPC(2004)5] and a Draft Strategy for Defining the Role and Participation of Non-Members in the TDPC’s Work

9. The Communications Plan emphasises, on the one hand, dissemination of TDPC’s main messages and products to senior-level policy makers and, on the other, wider diffusion of outputs to interested stakeholders (for example, regional governments, research institutes, etc.). An important aspect of this Plan is how delegates can work more closely with the Secretariat on communications-related activities. The Committee expressed its satisfaction with the quality of the publications produced by the Secretariat and agreed that optimizing the use of existing OECD tools, in particular the Web site, is of great importance. The development of a newsletter and an extended contact database of target audiences were also evoked as useful communication tools, though this plan would not be implemented in the foreseeable future due to the lack of resources.

10. Delegates discussed the Draft Strategy for Defining the Role and Participation of Non-Members in the TDPC’s Work. The Committee was very supportive of the proposed strategy for Outreach, which combines bilateral engagement with countries such as China, India and Brazil (work with China was particularly endorsed by delegates); multi-country regional programmes; and cross-border regional development initiatives. The Committee was particularly in favour of the ongoing work on economic development of the cross-national Mesoamerica region (the 9 south eastern states of Mexico and the 7 nations of Central America). The Committee also approved the creation of an Outreach Steering Group. This group, comprised of the TDPC Chair plus interested member countries, will be established in the first quarter of 2005 to guide future Outreach activities.

**Item 6: OECD Regions at a Glance**

11. The Secretariat presented the manuscript of the forthcoming publication OECD Regions at a Glance, the first in a series of biennial publications. The publication illustrates, analyses and compares major territorial patterns and regional trends across OECD member countries. On the one hand it shows how territorial indicators are used to design and assess territorial development policies within the TDPC’s policy framework. On the other it aims to disseminate the statistical tools elaborated by the Working Party on Territorial Indicators for the analysis of regional economies. The Committee commended the content and timeliness of the report, which it considers an excellent communications tool to increase the visibility of the Committee’s work and complementary to the forthcoming publication on Building the Competitiveness of Regions. The Secretariat noted the comments made following its presentation, which will be taken into account in the final version of the publication due to be released in spring 2005.

**Item 7: National Territorial Review of Japan**

12. The National Territorial Review of Japan, introduced by Ambassador Mr. Seiichiro Noboru, was discussed and approved by the Committee. The report and its assessment and recommendations focus on the contribution of regional policies to the general reform process in Japan, including issues of administrative and fiscal decentralisation, enterprise policy, urban policy, rural development and aging. The Japanese Government is undertaking a broad review of the range of policies that constitute its overall
regional policy in an effort to combine the traditional objectives of these policies (notably balanced regional development) with objectives of more recent origin linked to the socio-economic challenges that the country is currently facing (e.g., enterprise restructuring and unemployment, urban land market decline, and constraints on public expenditure). A key issue in all of these policy fields is how to devolve more autonomy to regions in terms of policy formulation and implementation, while maintaining coherence at the national level. In the discussion following the intervention of the Japanese authorities, the two peer review countries, represented by Mr. Paul LeBlanc (Canada) and Ms. Maike Richter (Germany), and delegates stressed the relevance of the analysis for their own countries. The report was approved for publication with minor modifications resulting from the discussion of the Committee.

Item 8: Building Competitive Regions: Strategies and Governance

13. The draft manuscript of the forthcoming publication Building Competitive Regions: Strategies and Governance analyses the strategies pursued by member countries to address the competitiveness of regional economies and the accompanying governance mechanisms on which the implementation of these strategies rests. In particular, it assesses efforts to find cost-effective alternatives to traditional industry-focused regional policies and initiatives to improve co-ordination of regional policies across levels of government. It incorporates the findings from the territorial reviews at regional level and peer reviews and a survey of the economic literature. This includes analyses on both urban and rural areas as well as the conclusions of the TDPC Symposium on Innovative Institutional Mechanisms for Territorial Development, held in June 2004. Delegates commended the content and timeliness of the report, which it considers an excellent communications tool to increase the visibility of the Committee's work and complementary to the forthcoming publication OECD Regions at a Glance. The Secretariat will take into account the suggested comments in the final version of the publication, to be released in spring 2005.

Item 9: Metropolitan Review: The Case of Busan, Korea

14. As part of the ongoing series of metropolitan reviews, the case of Busan, Korea was discussed and approved. Ambassador Kwon O-Kyu, Permanent Delegation of Korea to the OECD introduced the report, which examines how Busan is adapting to new economic challenges in the East Asia region and how it is coping with governance issues raised by the Korean government’s recent reform towards decentralisation. In the subsequent discussion, delegates from the Netherlands, Greece and Sweden drew parallels with similar experiences in their respective countries in building competitive regions, while Spain suggested useful examples of intergovernmental collaboration. The Japanese delegate stressed the links between this report and the National Review of Japan, and how at both national and regional level, cooperation between Northeast Asia countries is rapidly increasing. Forthcoming case studies in the metropolitan review series include Seoul (Korea), Stockholm (Sweden), Milan (Italy), Newcastle (UK) and Istanbul (Turkey). A synthesis report will be available in June 2006.

Item 10: Draft Agenda of the Symposium: Diagnosing the Capacity of Regions to be Competitive

15. Following the suggestion of the United States, the next symposium-style meeting of TDPC 13th session will focus on Diagnosing the Capacity of Regions to be Competitive. The Committee considers this event as a milestone in providing directions to the Committee’s future activities. Following discussions on the draft outline of the agenda, delegates agreed that it would cover three main themes: detecting trends in regional competitiveness; the use of models in selecting policies; and measuring objectives and targeting. The Secretariat will be circulating a revised agenda to delegates early 2005.

Item 11: Enhancing the Contribution of Higher Education Institutions to Regional Development: Issues paper

16. The Committee discussed an issues paper prepared by the Secretariat on Enhancing the Contribution of Higher Education Institutions to Regional Development: Issues paper (a joint activity
undertaken by GOV and the Education Directorate (EDU). Analyses will focus on the new functions of universities, particularly with respect to regional development. Findings will contribute to an analytical report to be presented to the Committee for discussion in 2006. Mr. Richard Yelland, Head of the Education Management and Infrastructure Division in the Education Directorate, made a brief presentation on the contribution of the Directorate to this activity. Delegates supported the activity and welcomed the collaboration between the two directorates.

**Item 12: Other Business**

17. The Session ended with a presentation on the Draft Agenda of the International Symposium on *Enhancing Cities’ Attractiveness for the Future*, which will take place in Nagoya, Aichi, Japan, 2/3 June 2005, kindly hosted by the Government of Japan. The Symposium will be preceded by the 7th Session of the Working Party on Territorial Policy in Urban Areas on 1 June. The 13th Session of the TDPC will be held on 22-23 June 2005, the 1st day of the meeting being devoted to the special session on *Diagnosing the Capacity of Regions to be Competitive*. This meeting will be preceded by the 10th Session of the Working Party on Territorial Indicators, 21 June.
## Participants List for 12th Session of the Territorial Development Policy Committee

**Liste des participants pour 12ème session du comité de développement territorial**

9 December 2004 - 10 December 2004

### Chair / President

Mr. Fabrizio BARCA  
Head of Department  
Ministry of Economy and Finance  
Department for Development Policies  
Via XX Settembre, 97  
I-00187 Roma  
Italy
