I. Introduction

2. In 2009, decisions for substantive changes to the Arrangement were made in relation to country classifications for maximum repayment terms (Article 11 a) of the Arrangement), to the Sector Understandings on Export Credits for Nuclear Power Plants (Annex II), for Civil Aircraft (Annex III) and for Renewable Energies and Water Projects (Annex IV) and also to the terms and conditions applicable to Project Finance Transactions (Annex X). As a consequence of these decisions, additional amendments to the Arrangement were necessary, i.e. to Articles 7 and 13 and to Annex V (Information to be Provided for Notifications) and Annex XI (List of Definitions). Additionally, this document records changes made to Article 33 relating to tied aid eligibility as a result of World Bank data provided to the Secretariat, to Annex VI to correct an error in the Horizon of Risk formula for non-standard repayment profiles, and to Articles 5 and 25 of the French version of the Arrangement as a result of typographical errors.

3. The other Sections of this document comprise:
   - Section II: Changes recorded in the February 2009 Revision of the Arrangement
   - Section III: Changes recorded in the July 2009 Revision of the Arrangement
   - Section IV: Correction of Errors
   - Section V: Implementation of the Decisions and Corrections

---

1 In English; the French version was issued on 9 March 2009.
2 In English; the French version was issued on 18 March 2009.
3 In English; the French version will follow.

4. At their 105th Meeting in January 2009, the Participants to the Arrangement (“the Participants”) discussed proposals to amend the Sector Understanding on Export Credits, Renewable Energies and Water Projects (RE/WSU), annexed to the Arrangement: this followed from discussions concerning Common Line ECH4/2008. The following proposals were agreed ad referendum 23 January 2009 and, in the absence of any objections, were considered adopted from that date; additionally, the Common Line was subsequently withdrawn:

- Article 3 d) and e) of Annex IV: new provisions to incorporate the flexibilities in repayment profile available under Article 14 d) of the Arrangement were added to Annex IV.
- Item g) in Chapter II of Annex V: changes were made to the information to be provided for notifications of Annex IV projects benefitting from the newly-agreed provisions on flexibilities in repayment profile in the RE/WSU.

5. Also at their 105th Meeting in January 2009, in the context of discussion about the impact of the global financial crisis on export credits, the Participants agreed ad referendum 30 January 2009 a permanent change to the country classification categories and a temporary change (i.e. until 31 January 2010) to the terms and conditions for a project finance transaction. In the absence of any objections, these proposals were considered adopted, as follows:

- Article 11a) of the Arrangement: the definition of Category I countries was narrowed, allowing more countries to benefit from the longer maximum repayment terms and maximum weighted average life provisions of Category II countries.
- Article 2 and 3 d) of Annex X: the rules for Project Finance transactions were adjusted to remove the restrictions in repayment term and weighted average life for projects in High Income OECD Countries in which a participant’s interest comprises between 35% and 50% of the syndication.

6. Based on World Bank data of per capita Gross National Income (“GNI”), between 2007 and 2009, Bulgaria, Romania and the Russian Federation become ineligible for tied aid4: as a result, the following change was made to the Arrangement:

- Article 33 b) 5) of the Arrangement: the reference to Bulgaria, Romania and the Russian Federation was removed.

---

7. In 2008, the World Bank streamlined its operational lending categories and the category of 17-year loans, to which Article 33 of the Arrangement referred as the threshold for tied aid eligibility, was eliminated and, in accordance with information received from the World Bank, in order to maintain consistency, the upper limit per capita GNI for lower-middle income countries was adopted as the new threshold for the purpose of determining countries’ eligibility for tied aid. Accordingly, the following change was made to the Arrangement:

- Article 33 a) and b) 5) of the Arrangement: the threshold for tied aid eligibility was amended to the upper limit of per capita GNI for lower middle income countries.

8. At their 39th Meeting in April 2009, the Participants to the Sector Understanding on Export Credits for Civil Aircraft (ASU) agreed the following changes to the text of the ASU:

- Section 3 of Appendix III of Annex III of the Arrangement: Tables 2a) and 2b) regarding minimum premium rates for Category 2 and Category 3 aircraft were revised with effect from 1 April 2009.

- Article 6 b) of Appendix IV of Annex III of the Arrangement: new provisions for selecting the appropriate LIBOR as a minimum floating interest rate depending on the repayment profile were inserted.

9. At their 108th Meeting in June 2009, the Participants agreed a new text of revised terms and conditions for the RE/WSU and agreed that the RE/WSU should become a permanent part of the Arrangement. In parallel, at the 28th Meeting of the Group on the Sector Understanding on Export Credits for Nuclear Power Plants (NSU) the Participants agreed a new text of revised terms and conditions for the NSU. These two revised Sector Understandings came into effect on 1 July 2009 and, as a result, the following changes were made to Arrangement:

- Article 7 b) and 7 c) of the Arrangement: Article 7 b) was introduced to allow a project under the NSU and the RE/WSU to adopt the terms and conditions for Project Finance projects in Annex X of the Arrangement and Article 7 c) was amended to prevent projects under the Sector Understanding on Export Credits for Ships (SSU) or the ASU from adopting the terms and conditions for Project Finance projects in Annex X of the Arrangement.

- Article 13 b) of the Arrangement: the description of a non-nuclear power plant was amended to align it with the description of a nuclear power plant.

- Annex II of the Arrangement: the existing NSU was replaced with the new text in TAD/PG(2009)19, except that Article 4 of Annex II was renamed “Construction of CIRRs”, as a corresponding provision to Article 20 of the Arrangement, and amended accordingly.

- Annex IV of the Arrangement: the existing RE/WSU was replaced with the new text in TAD/PG(2009)18, except that Article 4 of Annex IV was renamed “Construction of the CIRRs”, as a corresponding provision to Article 20 of the Arrangement, and amended accordingly.

- Items f) and g) of Chapter II of Annex V of the Arrangement: the information requirements for notifications under the revised NSU and RE/WSU were adjusted.

- Annex XI of the Arrangement: a definition of “Initial Fuel Load” was added.

---

5 As noted in Country Classification 2008 [TAD/PG(2008)14].
IV. Correction of Errors

10. At the 67th Meeting of the Working Group of Experts on Premium in April 2009, it was noted that there was an error in the Horizon of Risk (HOR) formula for non-standard repayment profiles in Annex VI, which was corrected in the July 2009 Revision of the Arrangement:

- \[ \text{HOR, the length of the repayment period} = \frac{\text{weighted average life of the repayment period} - 0.25}{0.5}. \]

11. In addition, the following errors were identified in the French version, which were corrected in the July 2009 Revision of the Arrangement:

- Article 5 d) of the Arrangement: « Il n’est pas accordé de soutien public s’il apparaît clairement que le contrat a été conclu avec une condition de remboursement plus favorables un acheteur d’un pays qui n’est pas la destination finale des biens dans le but premier d’obtenir des délais de remboursement plus favorables. »

- Article 25 (first line) of the Arrangement: « …la probabilité avec selon laquelle… »

V. Implementation of the Decisions and Corrections

12. The decisions recorded in this document came into effect upon the dates agreed by the Participants, the NSU Participants and the ASU Participants.
