

Sofia Björnsson
Swedish Federation of Farmers,
Sweden

I am working at the Federation of Swedish Farmers, LRF, with the Common Agriculture Policy. Since 2015 I am the Chairperson of Copa and Cogeca's working party on Rural Development. I am also a member of the European Economic and Social Committee. I have been engaged in Rural Development during my whole professional life, first for the government and now as a lobbyist. In my work I meet rural entrepreneurs on a regular basis and as LRF's representative in the National Rural Network I am highly engaged in promoting innovation and sustainable development of rural areas.
