

Stanislas d'Herbemont

REScoop

Belgium

Stanislas holds two Master's degree from the Technical University of Mainz and the Ecole Supérieur du Commerce Extérieur (International Management and Audit & Finance). Before joining REScoop.eu, he served as coordinator of the Tournesol MicroGrids association that worked on the problematics of grid decentralization and citizens participation. He joined REScoop.eu in 2016, as a project manager for the REScoop PLUS project. He is also in charge for the INTERREG ECCO project, looking to enhance the development of energy cooperatives bringing together rural and urban citizens.
