
OECD Workshop on *Homelessness and Affordable Housing*

Paris, 27th November 2019

Professor Eoin O'Sullivan
School of Social Work and Social Policy, Trinity College Dublin
• The *Pathway Accommodation and Support System* (PASS) contains information on users of emergency and temporary beds funded by the Department of Housing and the Local Authorities.

• Since April 2014, data on the number and profile of households in the first three categories of ETHOS only, are included in the ‘official’ monthly figure, published by the Department of Housing.

• This administrative stock data provides a timely *minimum estimate* of the extent, and more significantly, trends in households in emergency accommodation.

• Data is compiled on a quarterly basis since Q1 2014 on the number of new adult entries to homeless services, the number of housing and non-housing exits, their duration of stay in emergency accommodation and other data.

• Detailed data on the expenditure on both emergency accommodation services and other interventions by service providers are also published on a quarterly basis.

• These data are available on the Department of Housing website (environ.ie).
## Department of Housing, Planning & Local Government
### Homelessness Report September 2019

*Details of households accessing local authority managed emergency accommodation during the week of 23 – 29 September 2019*
