

Name of collection: Survey on ICT Infrastructure in the Czech Cultural Sector

<p>Nature of collection If possible, use the classification of collection types shown above e.g. <i>ICT use collection – business</i>. For “other” collections, provide details e.g. <i>Other ICT collection – ISPs</i>.</p>	ICT use collection – Cultural sector
<p>Collection agency</p>	National Information and Consulting Centre for Culture (NIPOS); http://www.nipos-mk.cz/
<p>General references to collection material Metadata, questionnaires etc</p>	The survey (set of basic questions) is focused on indicators related to the basic ICT infrastructure available in all cultural institutions and number of institutions offering the Internet Access to public (number of PIAP “Public Internet Access Points”).
<p>Survey basis or vehicle E.g. Labour Force supplement, standalone survey, administrative byproduct data</p>	Set of questions (ICT module) on basic ICT Infrastructure available in the Czech cultural institutions is a part of the questionnaires used for the census surveys carried out by the National Information and Consulting Centre for Culture (NIPOS) that is a state-subsidized organization administered by the Ministry of Culture of the Czech Republic.
<p>Frequency of collection</p>	Annually
<p>Collection history Reference dates and/or periods from the first to the latest collection</p>	2000 survey (only libraries) Ref. period: 31 st December 1999 2001 survey (only libraries) Ref. period: 31 st December 2000 2002 survey – Reference period: 31 st December 2001 2003 survey – Reference period: 31 st December 2002 2004 survey – Reference period: 31 st December 2003
<p>Whether collection is mandatory or voluntary</p>	Mandatory
<p>Scope and coverage of collection Target population in terms of size, industry, population groups etc</p>	Target population: all following cultural institutions (public libraries; museums; galleries; theatres; Castles, palaces and other historical buildings; national monuments) <i>Note: Not all questions were used for each type of cultural institutions</i>
<p>Main classifications used E.g. industry, size, commodity, occupation</p>	Classification of health establishments
<p>Collection methodology E.g. face-to-face, mail, Web, telephone interview</p>	Postal survey
<p>Reporting and Statistical units Enterprise, establishment, household, etc</p>	Health establishments
<p>Sample frame used</p>	Health establishments register
<p>Sampling method E.g. stratified random sampling, cluster sampling</p>	Census
<p>Sample size For the most recent collection</p>	<ul style="list-style-type: none"> • Public libraries – 6 043 • Museums – 331

	<ul style="list-style-type: none"> • Galleries (art museums) – 53 • Theatres - 159 • Historical buildings – 223 • National monuments – 69
Response rate The responding proportion of the live in-scope population, most recent collection	
Methods for dealing with non-response (item and unit) Indicate whether imputations are made for non-response and a short description of methods used.	
Weighting of results Weighting method e.g. by employment, number of enterprises, revenue	
Relative standard errors (or coefficients of variation) on main aggregates For the most recent collection. These can be expressed as a range of values. For a given variable, the RSE or CV is equal to the ratio of the square root of the estimate of the sampling variance to the estimated value. It can be expressed as a fraction or a percentage.	
Known data quality issues with this collection E.g. non-response bias, comparability problems over time, definitional issues, coverage deficiencies, timeliness of frame, high item non-response (identify topics which are particularly problematic).	
Output details Please list (or link to) relevant publications for this collection. You can also email relevant files to the OECD.	<p>A Czech version of the main graphs and tables with main results from Survey (set of questions) on ICT Infrastructure in the Czech Cultural Sector is available free of charge on the following special web page of the Czech statistical Office related to the Information Society Statistics:</p> <p>http://www.czso.cz/csu/redakce.nsf/i/kultura_a_audiovisualni_sektor_e_culture</p> <p>There was also prepared for last OECD WPIIS meeting a set of small brochures “Information Society in the Czech Republic“ that included main statistical data from our surveys about ICT use in different sectors of our society.</p> <p><i>Note: Some basic data (tables and graphs) in English version will be available in November 2005 in the Statistical Yearbook of the Czech Republic 2005 (Chapter 13B. Information Society)</i></p>
