Session 3: METHODOLOGICAL ISSUES AND APPROACHES TO CALCULATE INTER-COUNTRY AGRICULTURAL TFP

Measuring TFP in the EU28: methodological and data challenges

Koen MONDELAERS, Socio-Economic Analyst, DG Agriculture and Rural Development, Unit E2 Agricultural modelling and outlook, European Commission, Brussels, Belgium.

The presentation focuses on the methodology currently in use for TFP-calculation at Member State, EU-15, EU-N13 and EU-28 level. Main calculation and data related challenges are explored and a comparison is made with the approaches advocated by OECD and other leading institutes.
