What are the
most important
driving forces for
trade in these
service sectors?

In what sense, if any, are foreign suppliers at a disadvantage to local suppliers?

The answer here should be
none!

*the global voice of

What are the
most important
policy barriers to
providing
services in
foreign markets?

*the global voice of

Are trade barriers
complementary
so that one may
render many
other
impediments
irrelevant?

*the global voice of

From production
of goods to
leaving the
country – what
are the obstacles
to trade?
