In the OECD classification the term “taxes” is confined to compulsory unrequited payments to general government. Taxes are unrequited in the sense that benefits provided by government to taxpayers are not normally in proportion to their payments. Non-tax revenues are all other government revenues that are not classified as taxes.

The LAC average refers to the Revenue Statistics in Latin America and the Caribbean 2018 publication. oe.cd/revenue-statistics-in-latin-america-and-the-caribbean
