*The number of exchanges jurisdictions have undertaken each year reflect successful data transmissions as well as instances where, notwithstanding that the necessary legal frameworks are in place, no data was reported by the Financial Institutions with respect to particular exchange partners. The total number of exchanges can fluctuate for a variety of reasons. They often increase due to new jurisdictions participating in the AEOI Standard, the expansion of exchange networks and delayed exchanges (which can be attributable to a prior year). They can also decrease, such as when delays occur or when technical difficulties arise (in the sending or receiving jurisdiction), which can lead to the rejection of files exchanged. Where delays occur, or technical difficulties arise, jurisdictions are expected to address the issues and send/re-send the information.

2: JURISDICTIONS THAT HAVE NOT YET EXCHANGED INFORMATION BECAUSE THEIR LEGAL IMPLEMENTATION IS ONGOING

Jurisdiction	Year of commitment to first AEOI exchanges	Status
1. Jordan ^c	2023	Domestic and international legal frameworks not fully in place
2. Montenegro °	2023	Domestic and international legal frameworks not fully in place
3. Trinidad and Tobago	2018	Domestic and international legal frameworks not fully in place

Notes:

The United States has undertaken automatic information exchanges pursuant to FATCA from 2015 and entered into intergovernmental agreements (IGAs) with other jurisdictions to do so. The Model 1A IGAs entered into by the United States acknowledge the need for the United States to achieve equivalent levels of reciprocal automatic information exchange with partner jurisdictions. They also include a political commitment to pursue the adoption of regulations and to advocate and support relevant legislation to achieve such equivalent levels of reciprocal automatic exchange.

^a These jurisdictions are developing countries that were not asked to commit to implementing the AEOI Standard to a particular timeline but did so voluntarily.

^b Developed countries that joined the Global Forum after the commitment process was conducted in 2014. They were therefore asked to commit to a particular timeline upon joining.

^c This jurisdiction was identified through the Global Forum process aimed at identifying jurisdictions of relevance for the implementation of the AEOI Standard and subsequently voluntarily committed to implement the AEOI Standard.

^d As established through the peer review process, there are no Reporting Financial Institutions (RFIs) located in these jurisdictions.

e Albania voluntarily committed to commence exchanges in 2021 but did so in 2020.

^f This jurisdiction is delayed in undertaking exchanges. It is expected to carry out the exchanges in the near future.

⁹ Costa Rica temporarily suspended exchanges while it reviewed its confidentiality and data safeguard arrangements. It re-started the transmission of data in 2023, including data that was due to have been exchanged in 2022.

^h Kuwait has temporarily suspended exchanges while it reviews its confidentiality and data safeguard arrangements.

ⁱ Antigua and Barbuda conducted exchanges in 2023 but the number is yet to be verified.
