ABOUT

My name is Hubert and I am an Energy Markets Analyst in AFRY. Before starting this job, I attended the InnoEnergy Masters School, where I studied Energy Transition in Cracow, Poland and Lisbon, Portugal. In my free time, I like doing sports, reading books about personal development and learning foreign languages. I am thrilled to be a part of OECD Youthwise!

“Governments should incentivise young people to build up enough financial resources to enter the housing market.”
