Database Specific

Purpose

The "Reference Series" dataset comprises the data series that are the most frequently used as denominators for the calculation of ratios and indicators. An initial list of Reference

SEARCH AND DISCOVER:

Search for complex statistical data across OECD databases with a few clicks, or discover data in new thematic views.

VIEW AND CUSTOMISE:

View default tables and customise them to suit your needs.

MIX AND MERGE:

Assemble data from various databases and create customised tables.

ACCESS AND UNDERSTAND:

Access metadata to get a clear explanation of the sources, definitions and other information related to the figures.

Using OECD.Stat

Find the data!

Full-text search quickly locates series across databases, data dimensions and metadata.

Find in the theme panel the exact names of databases and datasets.

Browse the theme panel and drill down in a theme.

Advanced Features

- Unique *Merge Query* feature allows cross-database comparisons along common dimensions
- Visualise data easily as a line chart, bar chart or pie chart, including animation
- Efficient handling of large datasets; e.g. trade statistics by commodity and social expenditure data
- Save queries for re-use (requires system login)
- Generous download size of up to 1,000,000 data cells

Usability

- View multilingual tables in French or English
- Switch interface language between French and English
- Compatible with MS IE 7, 8, Mozilla-based browsers; Safari 3.x, Opera 9.x and Google Chrome and higher

5. Final consumption expenditure of households

Change data selection: Country [36 / 44] Transaction [23 / 72] Measure

Data extracted on 08 Jul 2011 15:40 UTC (GMT) from OECD.Stat

Country Italy Measure C: National currency, current prices, millions Frequency Annual

Time 1986 1987 1988 1989 1990

Transaction

Data Characteristics

[-] Unit of measure used

In national currency, in current prices and constant prices (national base year, previous year prices and OECD base year i.e. 2000). Expressed in millions.

For the Euro area countries, the data in national currency for all years are calculated using the fixed conversion rates against the euro.

Population & Scope

Statistical population

It presents the final consumption expenditure of households broken down by the COICOP (Classification of Individual Consumption According to Purpose) classification and by durability.

It has been prepared from statistics reported to the OECD by Member countries in their

Understand the data!

Each table opens with a movable and collapsible metadata window.

Access comprehensive metadata from database to cell level and series footnotes by clicking the red “i”.

Established in 1961 and based in Paris, France, the Organisation for Economic Co-operation and Development (OECD) unites the expertise and experience of the world's leading economies to address the economic, social, environmental and governance challenges of the globalising world.

The Organisation provides a setting where governments compare policy experiences, seek answers to common problems, identify good practice and coordinate domestic and international policies. Drawing upon the specialist knowledge of experts from its 34 member countries and 100 partner countries, the OECD is in a unique position to offer reliable **data** and insightful **analysis** on a very wide range of topics.

Member Countries: Australia • Austria • Belgium • Canada • Chile • Czech Republic • Denmark • Estonia • Finland • France • Germany • Greece • Hungary • Iceland • Ireland • Israel • Italy • Japan • Korea • Luxembourg • Mexico • Netherlands • New Zealand • Norway • Poland • Portugal • Slovak Republic • Slovenia • Spain • Sweden • Switzerland • Turkey • United Kingdom • United States.

About OECD iLibrary

www.oecd-ilibrary.org

OECD iLibrary is OECD's global knowledge base presenting all OECD Books, Papers and Statistics and the gateway to OECD's **analysis** and **data**.

OECD iLibrary users at subscribing institutions are able to conduct searches, retrieve listings of publications meeting their search criteria, and choose to download selected titles in various formats, or selected statistical data in spreadsheet format. Access is available for titles published from January 1998 onwards. OECD iLibrary is available 24 hours a day, 7 days a week and provides unlimited multi-user access controlled by IP address/range and/or login via username and password.

Several thousand institutions worldwide make selected OECD content available to their users through OECD iLibrary and about 1,000 universities, think tanks, and governmental agencies are making all books, papers, and statistical databases (or a combination thereof) available to more than 15 million users.
