Foreword

The OECD Review of Fisheries: Country Statistics 2015 *contains fisheries statistics and overview tables for OECD countries and non-member economies that participate in the OECD Committee for Fisheries.*

The data cover the years 2007 to 2014. Information provided concern fishing fleet, employment in fisheries, fish landings, production from aquaculture, recreational fisheries, government financial transfers, and trade in fish and fish products.

*The data are collected by the OECD using the methodologies established by the Coordinating Working Party on Fishery Statistics (CWP) (*www.fao.org/fishery/cwp/search/en*). This inter-agency body, created in 1960 to develop common procedures for the collation of statistics, provides technical advice on fishery statistical matters and facilitates the publication of methodological and reference documents. Its Handbook of Fishery Statistical Standards comprises definitions of the various concepts used in fishery statistics, with the exception of Government Financial Transfers which is unique to the OECD. All other statistics are based on CWP definitions.*

The OECD is the only organisation to collect and disseminate data concerning Government Financial Transfers (GFT). These transfers are defined as the monetary value of government interventions associated with fisheries policies and cover transfers from central, regional and local governments. GFT are indicators of financial support paid to the fisheries sector by government and are classified under one of these three headings:

1. *Direct payments by government to fishers, which are primarily directed at increasing the income of fishers.*
2. *Cost reducing transfers, which are aimed at reducing the costs of fixed capital and variable inputs.*
3. *General services, which are transfers paid by government not necessarily received directly by fishers, but which nevertheless reduce the costs faced by fishers.*

For more information on GFT, see OECD (2006), Financial Support to Fisheries: Implications for Sustainable Development, *OECD Publishing, available at* http://dx.doi.org/10.1787/9789264036642-en.

Analytical work by OECD on fisheries is carried out by the Committee for Fisheries and covers a wide range of issues related to fisheries and aquaculture management, resource conservation, trade and green growth. For additional information on the work of the OECD on fisheries, see www.oecd.org/agriculture/fisheries/.

ORGANISATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT

The OECD is a unique forum where governments work together to address the economic, social and environmental challenges of globalisation. The OECD is also at the forefront of efforts to understand and to help governments respond to new developments and concerns, such as corporate governance, the information economy and the challenges of an ageing population. The Organisation provides a setting where governments can compare policy experiences, seek answers to common problems, identify good practice and work to co-ordinate domestic and international policies.

The OECD member countries are: Australia, Austria, Belgium, Canada, Chile, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea, Luxembourg, Mexico, the Netherlands, New Zealand, Norway, Poland, Portugal, the Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Turkey, the United Kingdom and the United States. The European Union takes part in the work of the OECD.

OECD Publishing disseminates widely the results of the Organisation's statistics gathering and research on economic, social and environmental issues, as well as the conventions, guidelines and standards agreed by its members.

OECD Review of Fisheries
COUNTRY STATISTICS

Fisheries (capture fisheries and aquaculture) supply the world each year with millions of tonnes of fish (including, notably, fish, molluscs and crustaceans). Fisheries as well as ancillary activities also provide livelihoods and income. The fishery sector contributes to development and growth in many countries, playing an important role for food security, poverty reduction, employment and trade.

This publication contains statistics on fisheries from 2007 to 2014. Data provided concern fishing fleet capacity, employment in fisheries, fish landings, aquaculture production, recreational fisheries, government financial transfers, and imports and exports of fish.

OECD COUNTRIES COVERED

Australia, Belgium, Canada, Chile, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea, Luxembourg, Mexico, Netherlands, New Zealand, Norway, Poland, Portugal, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Turkey, United Kingdom, United States.

NON-MEMBER ECONOMIES COVERED

Argentina, People's Republic of China, Colombia, Indonesia, Latvia, Lithuania, Peru, Russian Federation, South Africa, Chinese Taipei, Thailand.

DATA ALSO AVAILABLE ON LINE

The electronic data product provides longer time series: data from 1980 onwards are included. The complete database is also available on line at ***http://dx.doi.org/10.1787/agr-fish-data-en***.
