

## Call for Tenders RFQ\_308

### **Digital Workplace Platform Development and Maintenance Partners**

#### **Summary**

The Nuclear Energy Agency (NEA) is an intergovernmental agency (of approximately 125 staff working with a community of some 2 000 experts and policy makers around the world) which operates in the framework of the Organisation for Economic Co-operation and Development (OECD), headquartered in Paris, France. It facilitates co-operation among countries with advanced nuclear technology infrastructures to seek excellence in nuclear safety, technology, science, related environmental and economic matters, and law.

The purpose of this Call for Tenders is to solicit high quality, cost-effective proposals in order to select partners for Digital Workplace Platform Development and Maintenance activities. The selected vendors would eventually be signing framework contracts to perform the relevant work.

The OECD will use its e-Sourcing portal to conduct this procurement exercise. Interested bidders should register with the e-Sourcing portal in order to access the associated documents and further information. Instructions on how to register on the e-Sourcing portal can be found using the following link and accessing the “Supplier Guide” on the homepage.
