Call for Tenders RFQ_198

International Contractor(s) for the Programme for the International Assessment

of Adult Competencies (PIAAC)

Summary

The Organisation for Economic Cooperation and Development (OECD) is issuing this Call for Tenders with a view to sourcing one or more international contractors to develop and implement the second cycle of the Programme for the International Assessment of Adult Competencies (PIAAC).

The tasks associated with the development and implementation of PIAAC have been grouped in two separate modules:

- Module 1 – Development of the Assessment Frameworks and Instruments and of the Background Questionnaire

- Module 2 – Survey Operations and Project Management

Up to two contracts (one per each module) may be awarded by the OECD to undertake the work. Prospective contractors may bid to undertake either of the two modules, or both of them.

An information session will be held for potential tenderers in Paris on Monday, 26 June 2017, from 2pm to 5pm, Paris time. Please note that this is a provisional date subject to change: any change in the planning of the information session will be communicated to all potential candidates through the messaging system of the Sourcing Portal.

At this session, representatives from the OECD Secretariat will present details of the PIAAC project and outline the specific requirements for the PIAAC tender. Tenderers intending to attend the session should contact Sabrina Leonarduzzi (sabrina.leonarduzzi@oecd.org) by Monday, 19 June 2017, and provide the names of all persons who will attend the session. It will be possible to participate to the information session remotely, through videoconference.

The OECD will use its e-Sourcing portal to conduct this procurement exercise. Interested bidders should register with the e-Sourcing portal in order to access the associated documents and further information.
Instructions on how to register on the e-Sourcing portal can be found using the following link and accessing the "Supplier Guide" on the homepage.
