

Population (in million)

Megatrends affecting water management

- Food insecurity
- Climate change
- Global shocks
- Urbanisation
- Demographic changes
- Economic development

Water risks

- Competition over water allocation
- Water borne diseases
- Droughts
- Access to water and sanitation
- Water pollution
- Ageing or missing infrastructure
- Floods

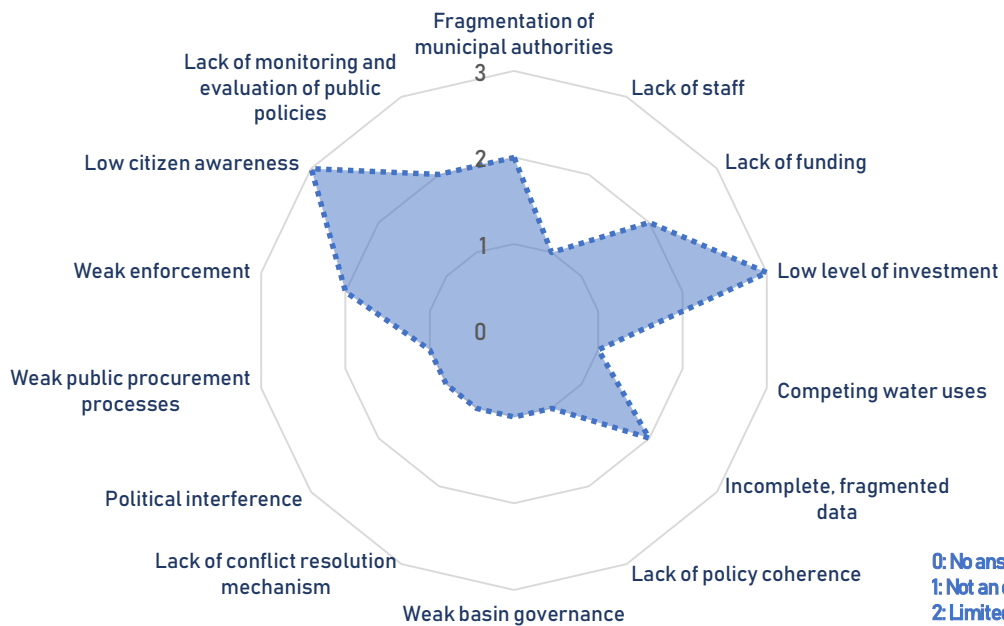

Policy areas influencing urban water management

- Transportation
- Tourism
- Manufacturing industry
- Agriculture
- Energy
- Building codes and housing
- Public health
- Solid waste
- Land use and spatial planning

Obstacles to water governance

0: No answer
 1: Not an obstacle
 2: Limited obstacles
 3: Major obstacles

National and local policy frameworks

National level

- Dedicated national water and sanitation policy indicating goals duties and resources
- Recognition of the UN right to Water and Sanitation

Local level

- Social measures on water and/or sanitation for vulnerable categories

- Absence of a dedicated water and sanitation policy
- Minimum amount of water guaranteed to the population

Transparency and accountability mechanisms

- No information available

Forward-looking strategies
