International Conference

Programme

FOSTERING ENTREPRENEURSHIP:
THE ROLE OF HIGHER EDUCATION

23-24 June 2005

Boscolo Grand Hotel
Trento, Italy

organised by the OECD Centre for Entrepreneurship, SMEs and Local Development and the International Entrepreneurship Forum

Hosted by the OECD LEED Centre for Local Development
Trento, Italy
Rationale

Developing an entrepreneurial culture and supporting innovative new and small firms are high on government agendas. Universities and other organisations in the higher education sector have a key role to play, both through training entrepreneurs and knowledge transfer to industry.

This conference, organised by the OECD Centre for Entrepreneurship, SMEs and Local Development (referred to in the programme as OECD Centre for Entrepreneurship) in collaboration with the International Entrepreneurship Forum, will address the role that higher education institutions can play in fostering entrepreneurship, with a particular focus on Central, East and South-East European countries. It will bring together leading academics and experts, policy makers and the OECD secretariat to analyse the issues and develop policy recommendations.

The debate will focus on two principal themes:

Theme 1: Higher Education and Entrepreneurship Teaching

How can higher education institutes best provide entrepreneurship education and training and hence contribute to the promotion of successful new firm starts and small business management?

Theme 2: Knowledge Transfer from Higher Education to SMEs

How can higher education institutes best promote knowledge transfer to small and medium-sized enterprise (SME) innovation within the regions in which they are located?
08.30 – 09.15  Registration

OPENING SESSION – THE CHALLENGE

Chair: Gianluca Salvatori, Minister for Research and Innovation, Autonomous Province of Trento

09.15 – 09.45  Welcome and opening remarks
