About the OECD Social Economy and Innovation Unit

OECD began work on social entrepreneurship over 25 years ago. The OECD assists national, regional and local governments in designing and implementing strategies to support the SSE and social enterprises by providing them with tailored and evidence-based policy recommendations. The work supports the OECD's Local Employment and Economic Development (LEED) Programme.

For more information, visit our website: www.oecd.org/cfe/leed/social-economy/
