13th Meeting of the OECD Water Governance Initiative

9-10 January 2020

OECD Conference Centre (Room CC12), Paris, France

About the OECD Water Governance Initiative

The [OECD Water Governance Initiative](#) (WGI) is an **international multi-stakeholder network** of 100+ delegates from public, private and not-for-profit sectors gathering twice a year in a **Policy Forum** to share experience on reforms, projects, lessons and good practices in support of better governance in the water sector.

The WGI, which was created in March 2013, has the following objectives:

- Provide a **multi-stakeholder technical platform** to share knowledge, experience and best practices on water governance across levels of government;
- **Advise governments** in taking the needed steps for effective water reforms through peer-to-peer dialogue and stakeholder engagement across public, private and non-profit sectors;
- Provide a **consultation mechanism** to raise the profile of governance in the Global Water Agenda;
- Support the **implementation of the OECD Principles on Water Governance** in interested member and non-member countries by scaling up best practices and using the indicators' framework for self-assessment; and
- **Foster continuity on governance** from the 8th World Water Forum (Brasilia, 2018) to the 9th Forum (Dakar, 2021).

Objectives of the 13th WGI Meeting

- Launch the OECD Report "Water Governance in Argentina".
- Discuss WGI contribution to Global Agendas (World Water Forum, SDGs and COP 25 amongst others)
- Discuss progress in SDG 6 monitoring and learn from broader OECD work on the SDGs
- Discuss interim findings on "Water governance in African cities" and "Water Governance in Asia"
- Peer-review the policy dialogue on "Water Governance in Peru" and findings on governing water infrastructure in Brazil
- Share knowledge and experience on recent water governance reforms and research
- Advance WGI working groups on Capacity Development and Indicators

Working languages and interpretation

The working language will be in English, and there will be simultaneous interpretation to French.
