

# The Economics and Governance of Circular Economy in Cities

## Why?

**Demographic growth**  
9.7 billion by 2050

**Urbanisation**  
By 2050  
70% of the world population will be urban

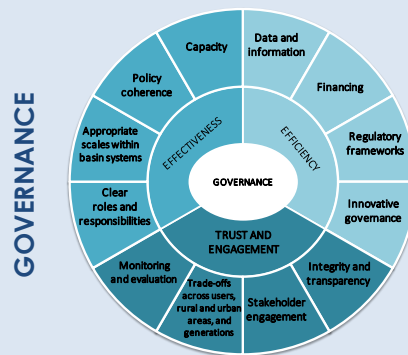

**Climate change**  
Availability and quality of natural resources at risks

**Economic growth**  
By 2030, 6.7 \$ trillion per year of investment needs in infrastructure

## What?

## Who?

### CITIES

- PROMOTERS**
- ✓ Identify priorities
  - ✓ Promote projects
  - ✓ Engage stakeholders

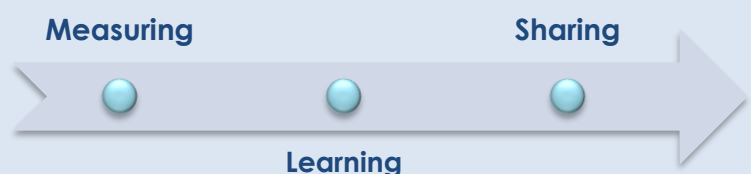

- FACILITATORS**
- ✓ Facilitate contacts
  - ✓ Provide information
  - ✓ Provide soft and hard infrastructure

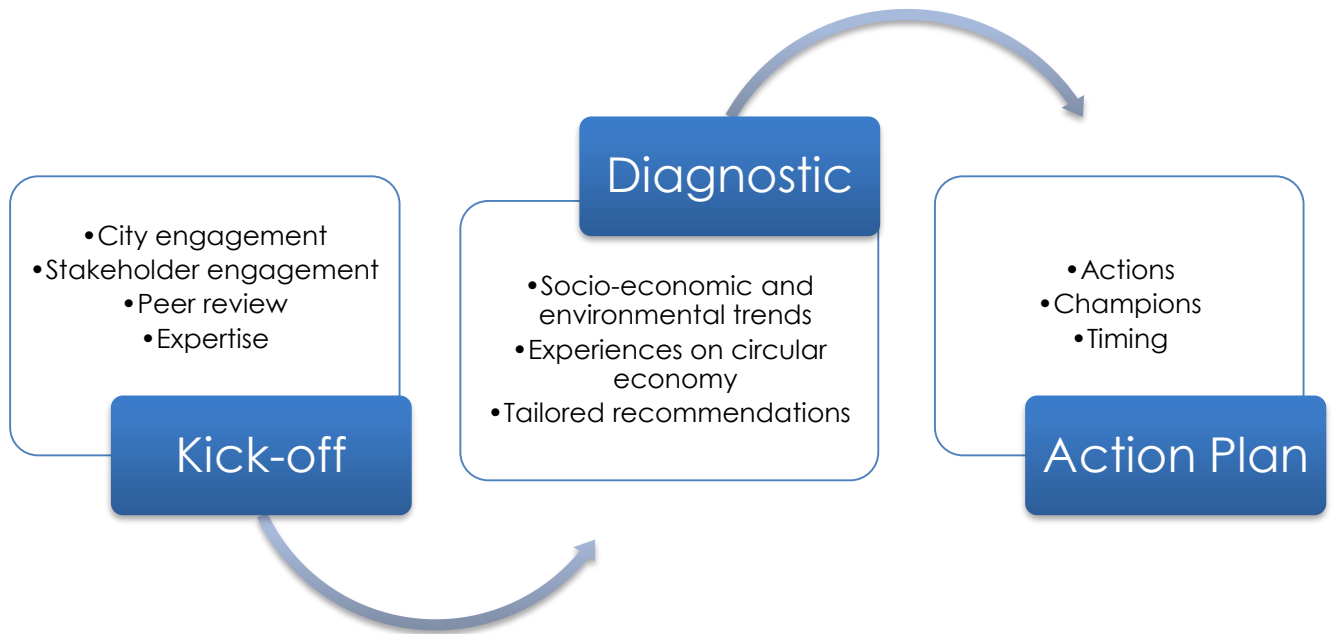

- ENABLERS**
- ✓ Catalyse funds
  - ✓ Promote communication
  - ✓ Build capacities

## How?

# Join us!
