

# GLOBAL COALITION SURVEY: TAKING STOCK OF THE USE AND DISSEMINATION OF THE OECD PRINCIPLES

# Survey Sample

---

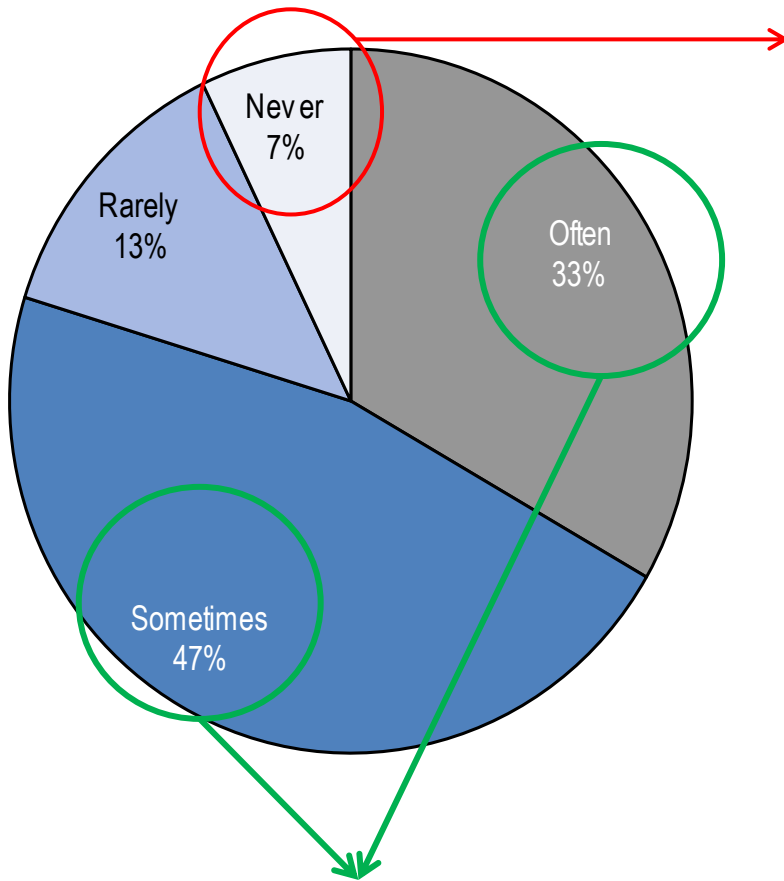

- Survey administered from 15-24 January 2018
- 85 respondents
- 50% of response rate
- 30 countries (25 OECD countries and 5 non-OECD economies)
- All sectors, including private companies, service providers, civil society, governments, academia, international organisations, and water user organisations

PART 1  
USE OF THE OECD  
PRINCIPLES TO GUIDE  
ACTIVITIES AND PRACTICES

# 1. Frequency in using the OECD Principles on Water Governance to guide activities and practices

**Low rate of responses** does not allow for a thorough assessment of “why”.

However, several reasons were reported:

- including **poor understanding** of the principles
- encountering **capacity challenges** (staff, time or funding)
- **weak alignment** of the principles with their organisational priorities;
- **prior implementation** of the principles

Altogether **80% of respondents** use **Often** or **Sometimes** the Principles!

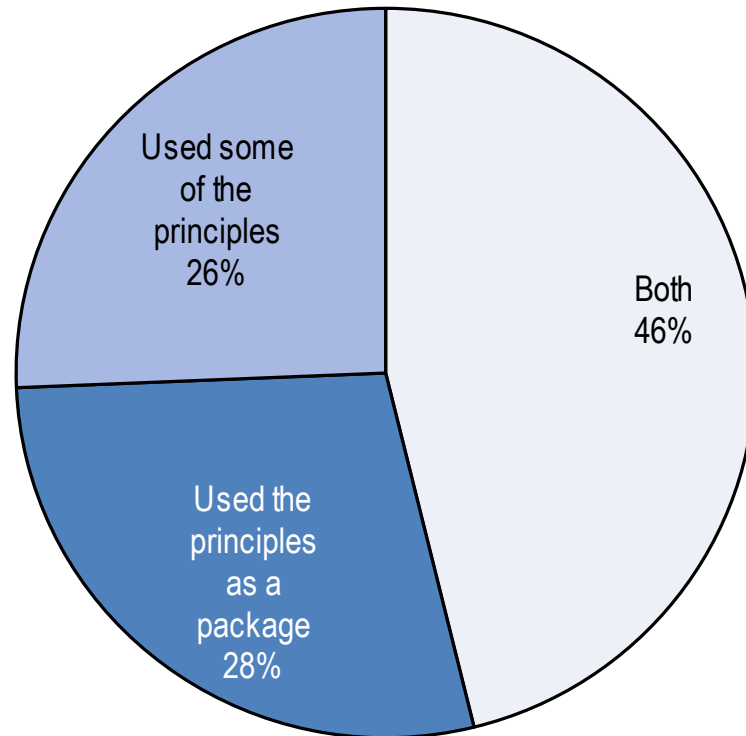

## 2. Activities making use of the OECD Principles on Water Governance

### 3. Modality of use of the OECD Principles

---

From the survey, it is **difficult to identify** whether some principles were more used than others, as they were applied depending on the purpose of the activity and usefulness in specific contexts.

# PART 2 DISSEMINATION OF THE OECD PRINCIPLES

## 4. Frequency of dissemination of the OECD Principles

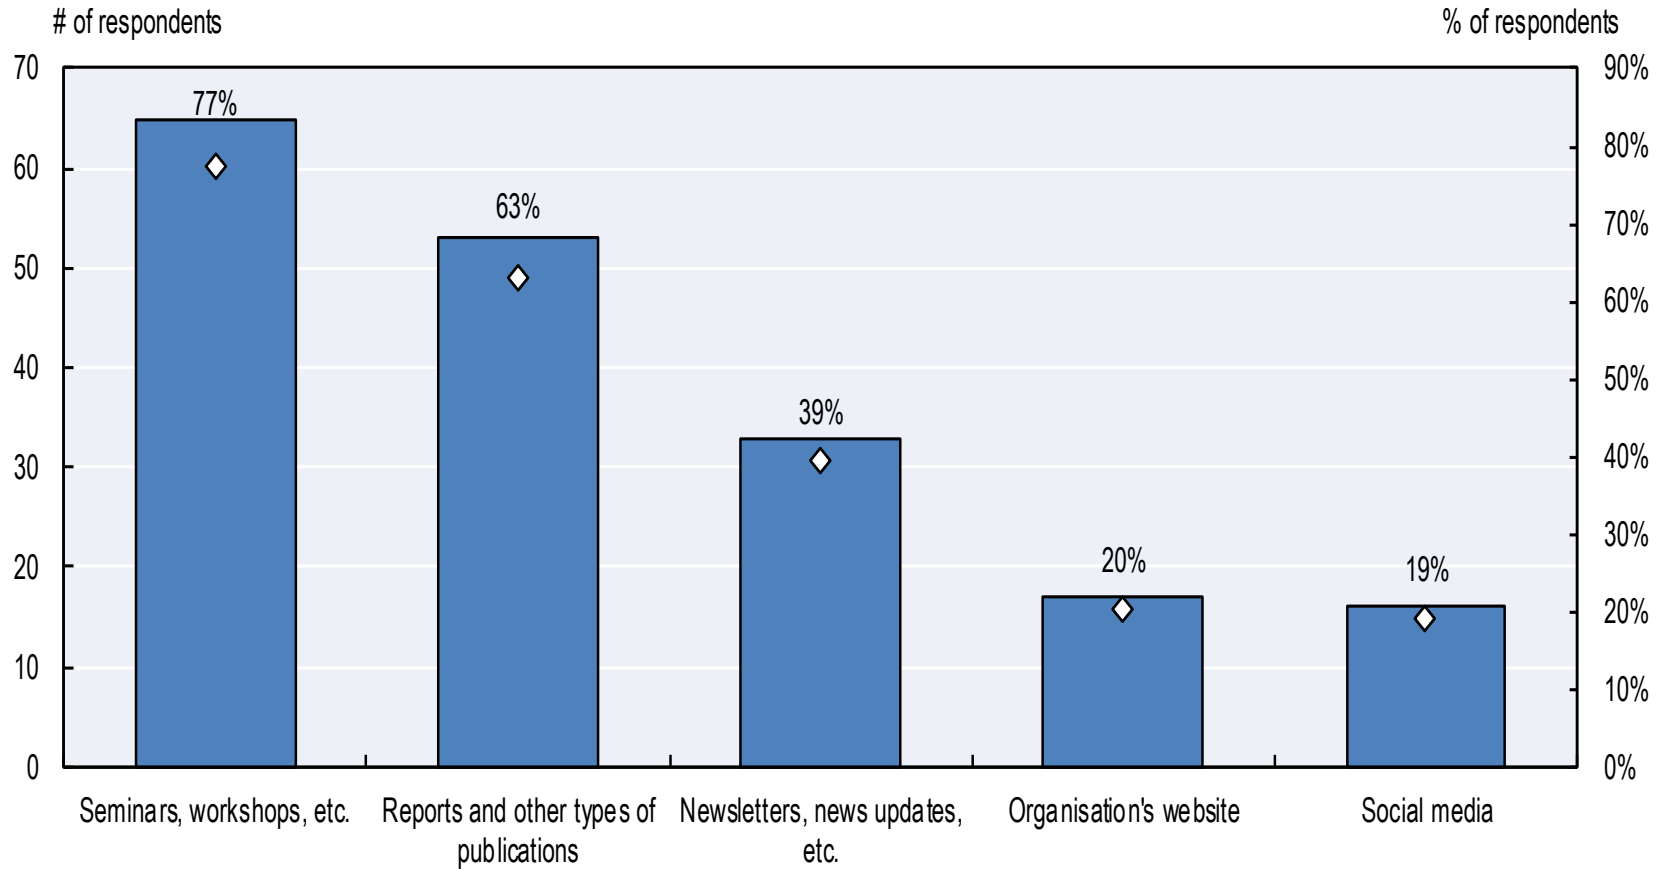

Altogether **78% of respondents** disseminate **Often or Sometimes** the Principles!

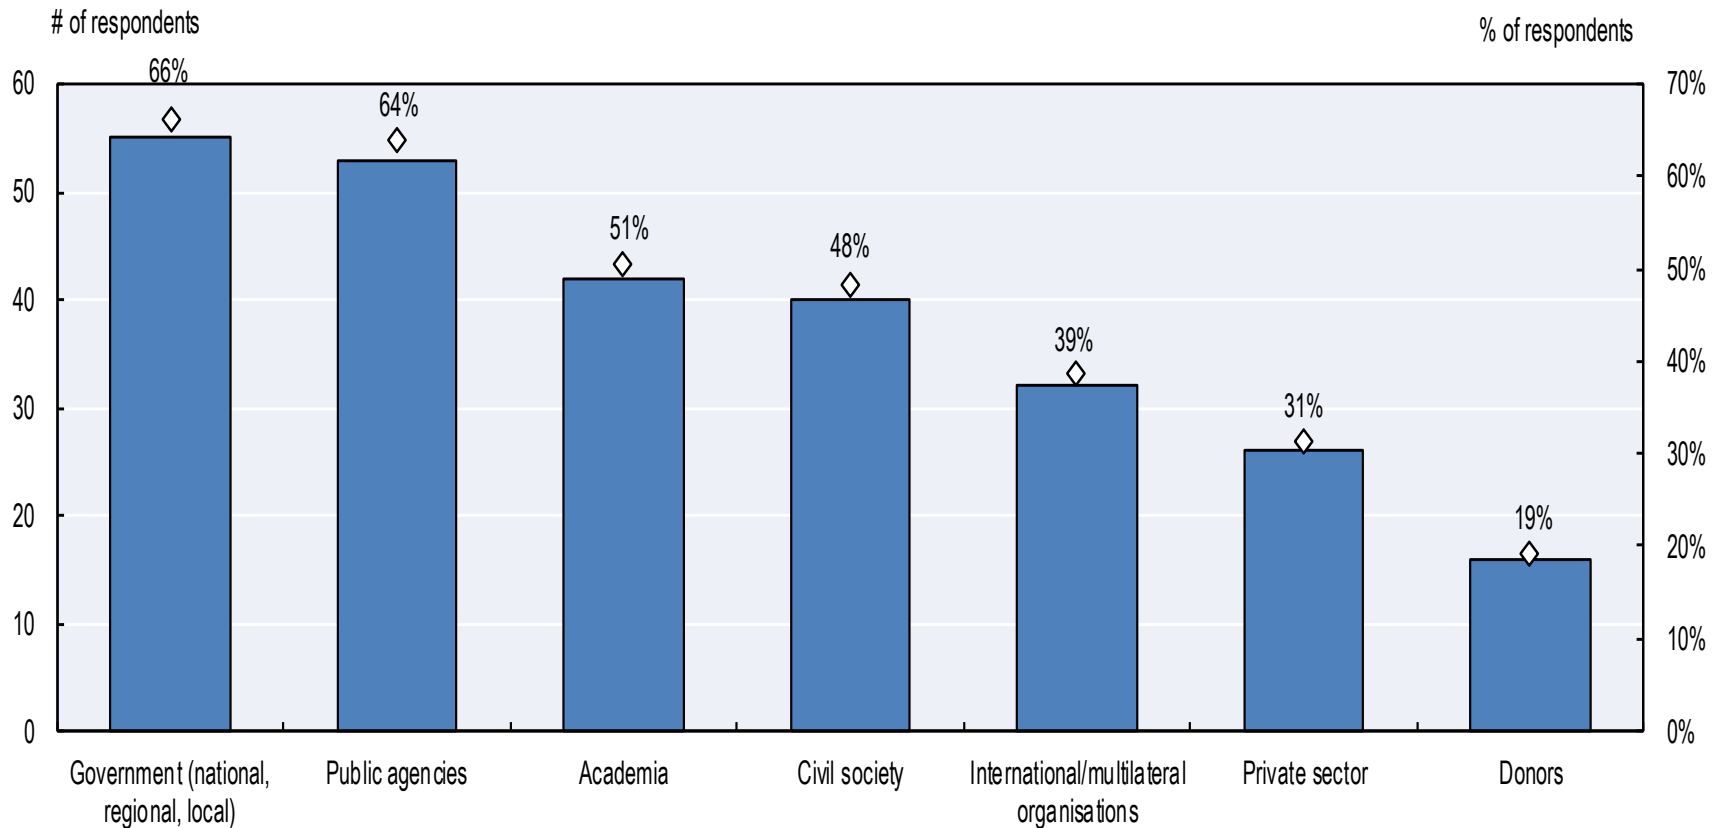

# 5. Communication channels to disseminate the OECD Principles

## 6. Targeted stakeholders for the dissemination of the OECD Principles

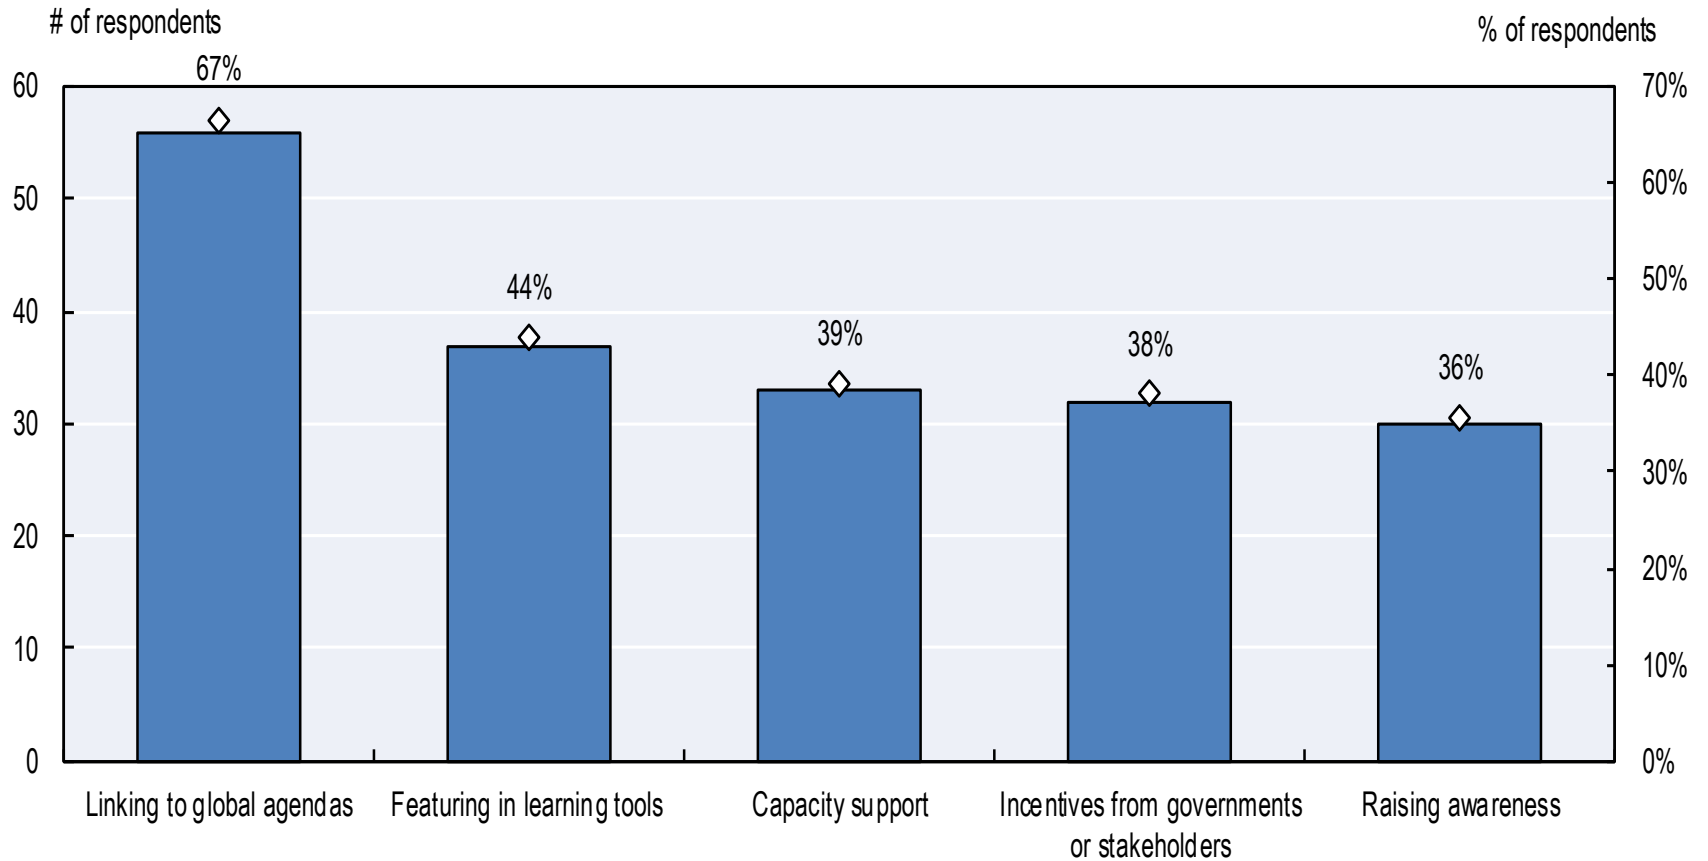

PART 3  
PERCEIVED NEEDS TO MAKE  
BETTER USE OF THE OECD  
PRINCIPLES
