Communications and Social Media Pack

2-3 October | OECD Conference Centre & online
The OECD Forum on Green Finance and Investment is the annual flagship event of the OECD Centre on Green Finance and Investment. Now in its 10th year, the Forum gathers senior policy makers and key public and private actors for action-oriented discussions on green and sustainable finance issues. This year, the Forum will be convened as a series of high-level panels and breakout sessions focused on the theme ‘Accelerating policy action to close the credibility gap’. The Forum’s 10-year anniversary will be a unique opportunity to take stock of the progress so far and foster discussions on shaping policies and instruments that effectively mobilise finance for transformative investments for the well-being of people and the planet.

This pack contains material to support the promotion of the Forum. We encourage you to join the discussion and share our content on your respective social media channels.

Thank you for your support.

Topics to be discussed over the two-day Forum

Monday 2 October

- Accelerating the climate transition of emission-intensive sectors Launch of the OECD report *Mechanisms to Prevent Carbon Lock-in in Transition Finance*
- How can we get the just transition right? From theory to implementation
- Is sustainable finance leaving SMEs behind?
- The use of climate change mitigation scenarios for financial sector target setting, transition planning and alignment assessment
- Mobilising private capital for green hydrogen development in emerging and developing economies
- Financial sector net zero commitments and metrics
- Mobilising finance and investment for clean energy in emerging and developing countries

Tuesday 3 October

- Scaling up finance for adaptation and resilience
- Discussion on the Inclusive Forum on Carbon Mitigation Approaches (IFCMA)
- Towards better management of systemic social and inequality-related risks and impacts
- To what extent can voluntary carbon markets contribute to net zero targets?
- From portfolio to real economy: using Responsible Business Conduct due diligence as a tool for engagement
- Aligning investment treaties with the Paris Agreement
- Assessing water-related risks and impacts
- Assessing biodiversity-related financial risks: the role of central banks and other financial actors
