SAVE THE DATE

7th OECD Forum on Green Finance and Investment

8-9 October 2020, Paris or virtual conference (TBC)

The OECD Centre on Green Finance and Investment sends its sincere wishes to all its stakeholders to stay safe and healthy during these unprecedented and challenging times. Looking forward, we would like to announce our plans to hold the 7th OECD Forum on Green Finance and Investment on 8-9 October 2020. We hope the COVID-19 situation will have improved enough by then to hold the Forum in-person, and to welcome participants to the OECD Headquarters in Paris. However, we will be prepared to convene the Forum as a virtual event if needed to ensure the safety of all participants. In either scenario, the Forum will be held on 8-9 October, so please save the date. We are closely monitoring global developments around the current public health emergency and will communicate further details in due course.

As the annual flagship event of the OECD Centre on Green Finance and Investment, the Forum gathers senior policy makers and key public and private actors from around the world for action oriented discussions. The Forum addresses a range of green, sustainable finance issues, and efforts to achieve a paradigm shift towards a more environmentally sustainable financial system and development model, to protect human wellbeing and the planet. More than ever, those discussions will be critical in the path towards recovery of the COVID-19 crisis. The 6th Forum, held on 29-30 October 2020 at the OECD, welcomed more than 700 participants from 78 countries and gathered 100 high-level speakers. High-Level speakers during previous editions of the Forum included Mr. Al Gore, former Vice President of the United States of America; Ms. Yuriko Koike, Governor of Tokyo; Ms. Brune Poirson, Secretary of State, attached to the Ministre d’État, Ministry for the Ecological and Inclusive Transition, France; Mr. Satoru Morishita, Vice-Minister, Global Environmental Affairs, Ministry of the Environment, Japan; and Ms. Rachel Kyte, Chief Executive Officer, Sustainable Energy for All.

We invite you to consult the Centre’s website that provides the latest OECD publications and insights on green finance and investment topics at http://www.oecd.org/cgfi/. Please do not hesitate to share your feedback. The draft agenda for the Forum is under development and will be shared well in advance of the event.

The OECD Centre on Green Finance and Investment

Established in 2016, the Centre’s mission is to help catalyse and support the transition to a green, low-emissions and climate-resilient economy through the development of effective policies, institutions and instruments for green finance and investment. The Centre develops rigorous, innovative and compelling analysis and practical recommendations, organises high-impact events, and engages effectively in wider policy debates and arenas to support the rapid scaling-up of green investment and finance.
