**ADVANCING WOMEN IN PRIVATE
SECTOR LEADERSHIP: A G20/OECD
REVIEW OF PROGRESS**

This event will highlight the results of recent and ongoing collaboration between the OECD and the G20 Private Sector Alliance for the Empowerment and Progression of Women's Economic Representation (EMPOWER Alliance), which led to the recent publication of the report [Policies and Practices to Promote Women in Leadership Roles in the Private Sector](#).

It will also provide the first public presentation of the preliminary findings on women in leadership from the forthcoming 2021 OECD Corporate Governance Factbook. The findings draw upon updated comparative data across all OECD and G20 members on progress in implementing policies and practices related to women's participation on corporate boards and in senior management.

This event is organised in co-ordination with the G20 Italian Presidency, which will hold a G20 Ministerial Conference in August that will build on this and other OECD/G20 collaboration to promote progress on women in leadership to promote women's empowerment.
