

THE GLOBAL PARTNERSHIP FOR EFFECTIVE DEVELOPMENT CO-OPERATION

HIGH-LEVEL MEETING OF THE OECD DEVELOPMENT ASSISTANCE COMMITTEE

The Global Partnership for Effective Development Co-operation (Global Partnership) is an inclusive multi-stakeholder partnership aiming to maximize the effectiveness of all forms of co-operation for development for the shared benefit of people, planet, prosperity and peace. The Partnership promotes mutual accountability to hold each other responsible for more effective development co-operation. Its efforts contribute to the achievement of the 2030 Agenda for Sustainable Development. Created in 2011 at the Fourth High-Level Forum on Aid Effectiveness in Busan, Republic of Korea, the Partnership brings together, on an equal footing, development actors from governments, multilateral/bilateral institutions; civil society; academia; parliaments; local governments; regional organisations; trade unions; the business sector; and philanthropy.

The Global Partnership sustains political momentum for more effective development co-operation by taking action in line with the shared principles of **country ownership, focus on results, inclusive partnerships, and transparency and accountability.**

Based on evidence and emerging issues, the Global Partnership will focus its next two years of work on:

| **Enhancing support to effective development co-operation at country level**, supporting countries in mainstreaming effectiveness principles and ensuring country-led evidence informs policy debate at all levels.

| **Unlocking the potential of Effectiveness and Monitor Progress for 2030**, mapping ways to boost the effectiveness of all actors while also updating the Global Partnership monitoring framework to reflect the implementation challenges of the 2030 Agenda.

| **Sharing knowledge and scaling up innovative development solutions**, at a faster pace, driven by champion countries, partners and non-state actors, and serve as “go-to” platform for knowledge exchange.

| **Scaling up private sector engagement leveraged through development co-operation**, to attract inclusive business investments that generate shared value for business and development outcomes, and help development partners adapt their practices and instruments to enhance the effectiveness of private sector engagement.

| **Learning from different modalities of development co-operation**, enhancing exchanges between North-South, South-South and Triangular co-operation partners, drawing together options to scale up impact and learn from each other.

| **Sustaining political momentum**, by strengthening high-level political engagement, advocacy, public communication and strategic use of data and evidence.

To engage in the Partnership, **please contact us:**
