Overview

- About the OECD guidance
- Objectives of the training
- About the Harvard case method
- Presentation of material

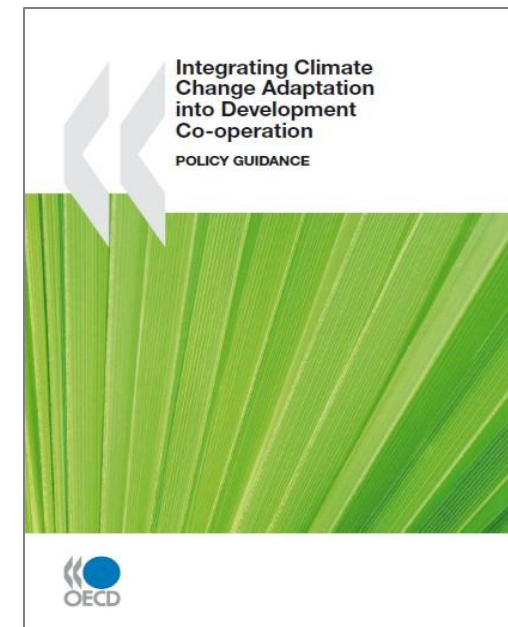

OECD policy guidance on Integrating Climate Change into Development Co-operation (1)

- **Jointly developed by Environment & Development Cooperation Committees at the OECD in 2009**
- **Targeted at policy makers and practitioners in donor countries and developing countries**
- **In line with *Paris Declaration on Aid Effectiveness*, to align support with the strategies, institutions and procedures of partner countries**

OECD policy guidance:

- **Audience – aimed at agencies and developing countries, takes the perspective of developing countries, in line with Paris Declaration principles.**
- **Format – two part guidebook:**
 - 1) the challenge,
 - 2) mainstreaming guidance into a) national, b) sector, c) project and d) local level policy processes.

OECD policy guidance on Integrating Climate Change into Development Co-operation (2)

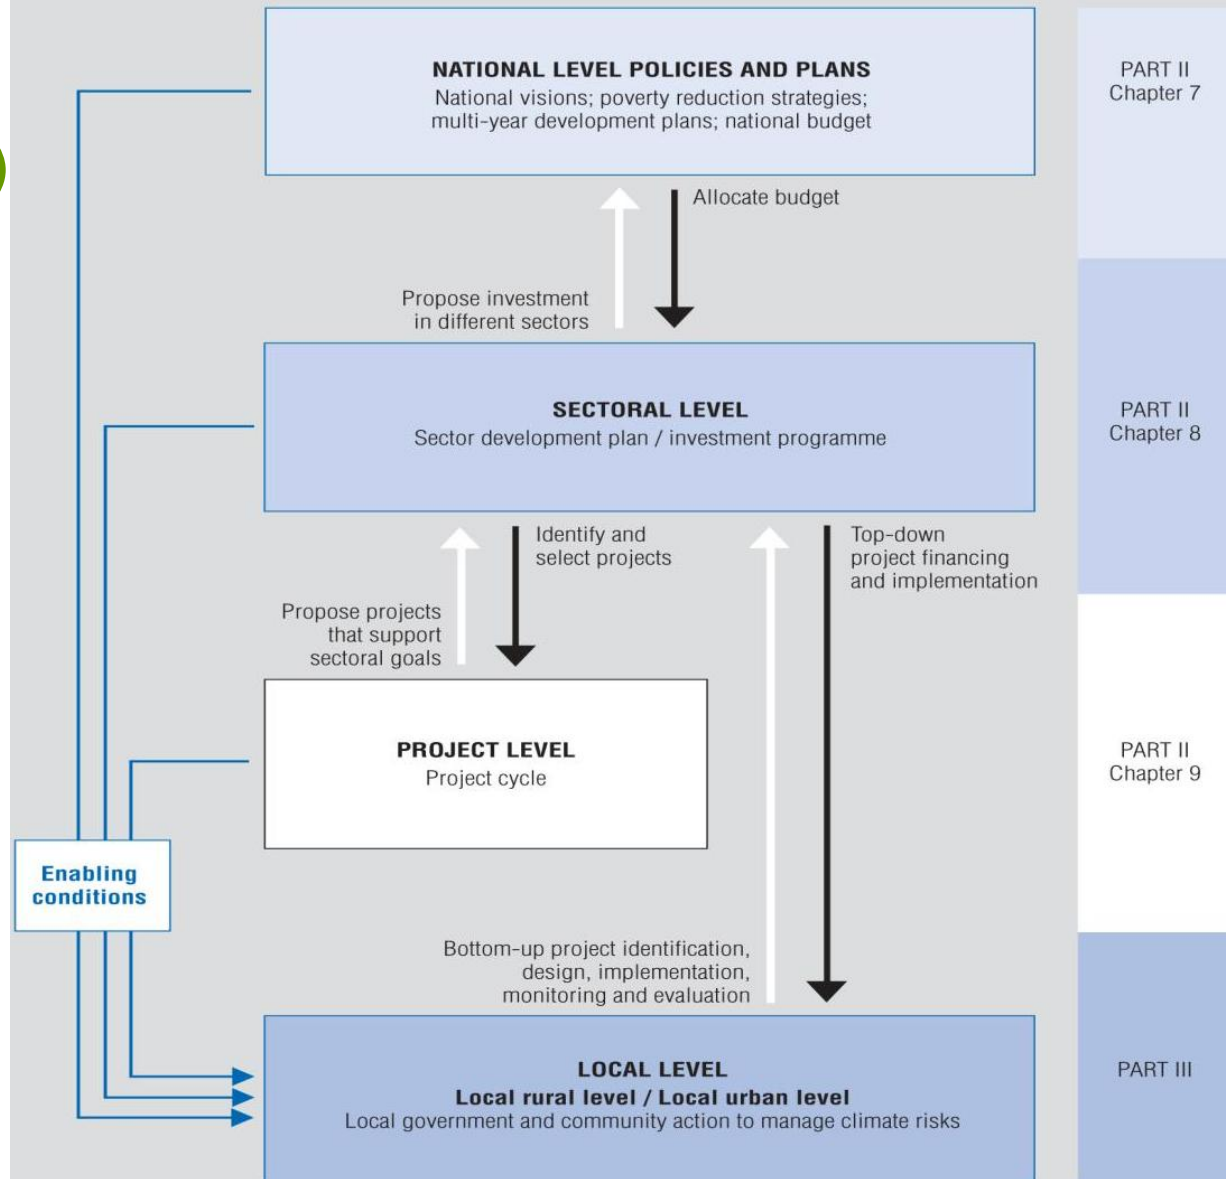

Objectives

- **Promote understanding of climate change and its impacts**
- **Define appropriate entry points for integrating adaptation to climate change into development co-operation activities**
- **Assist developing country partners in their effort to reduce their vulnerability**

OECD guidance (3)

Source: OECD policy guidance

The training

- **Aim: to enhance capacities among development practitioners in taking action on climate change adaptation**
- **Developed by GIZ Climate Change Task Force on request of OECD Climate Task Team**
 - with support from BMZ
 - in close cooperation with OECD and cooperating experts
- **Test training phase: October 2009 – June 2010**
- **Pilot phase: July 2010 – January 2011**

Learning objectives of the training

- **Understand what climate change is, and how it is interlinked with development co-operation**
- **Understand entry points for ‘adaptation’ in policymaking, planning and programming**
- **Learn about systematic steps aiming at defining concrete adaptation options at national, sector, local and project level, and according necessary institutional capacities to carry out a change process**
- **Learn about relevant climate information**

The modules

- M 1 – Apply a climate lens
- M 2 – Interpret climate data
- M 3 – Assess vulnerability
- M 4 – Identify adaptation options
- M 5 – Select adaptation measures
- M 6 – Develop an M&E-framework
- M 7 – Develop institutional capacity
- M 8 – Local climate stresses, vulnerability, resilience
- M 9 – Take action at local level and beyond
- M 10 – Integrate adaptation into the project cycle
- Action Learning Exercises

**Additional to
Guidance**

**4-step
approach**

Harvard case method

What?

- Intensive examination and discussion of a particular case of practical relevance to trainees
- In this training: fictitious case 'Zanadu'

How?

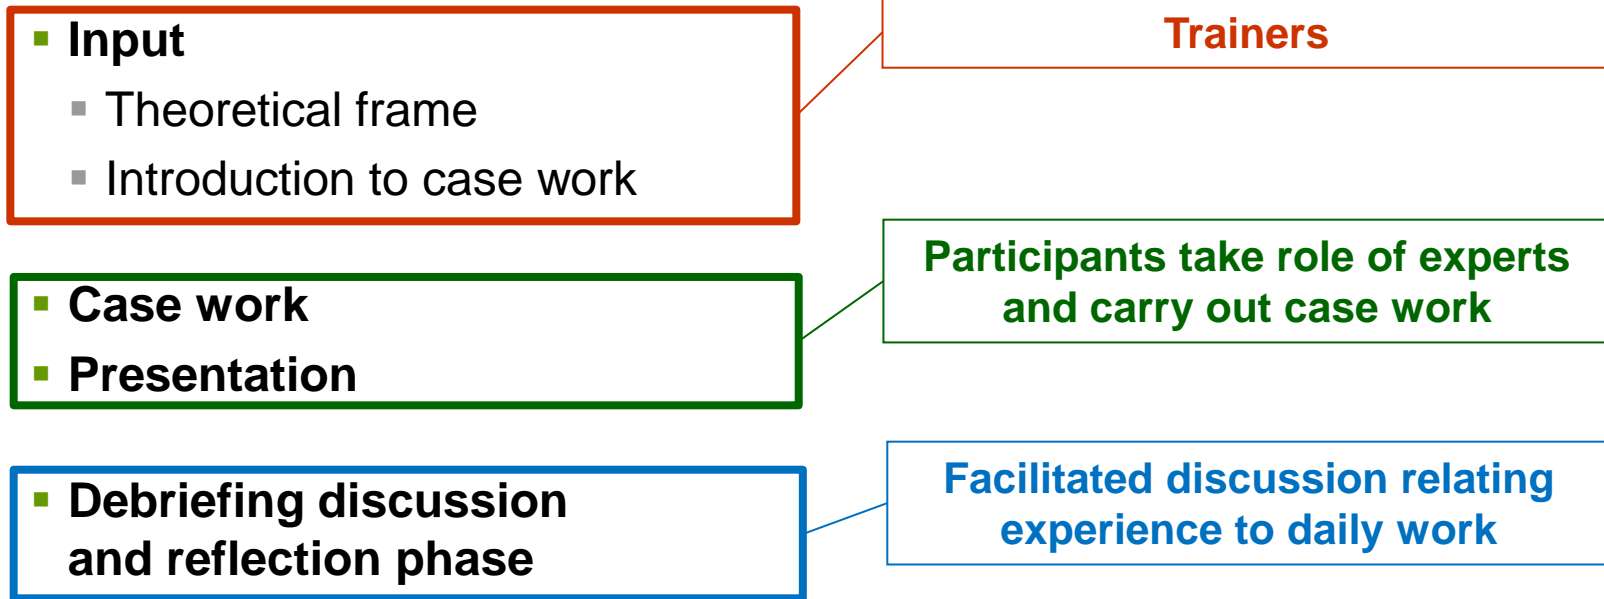

- Participants explore the given case and develop conclusions independently
- trainers offer support on demand

Why?

- Supports learning success through practice-oriented interactive exercises
- Encourages to act and make decisions under uncertainty

The training sequence per module

Material for training

- **Training Manual** gives all necessary information for each module's case work
 - Context: baseline situation, problems faced, challenges arising, institutional set-up, etc.
 - Instructions to case work: detailed instructions on role of case work experts and which information should be used
 - Your task: step by step instruction how to do the case work
 - Information display (exhibits, boxes, tables etc.)
 - Matrixes to guide your work
- **Handouts**
 - provide learning points
 - provide references
 - will be distributed after each module

Agenda
