

# Aid in Support of Gender Equality and Women's Empowerment

## DONOR CHARTS

March 2016

Statistics based on DAC Members' reporting on the Gender Equality Policy Marker, 2013-2014

Creditor Reporting System database

# DEFINITION

## THE GENDER EQUALITY POLICY MARKER

### DEFINITION

An activity should be classified as gender equality focused (score Principal or Significant) if:

It is intended to advance gender equality and women's empowerment or reduce discrimination and inequalities based on sex.

### CRITERIA FOR ELIGIBILITY

Gender equality is explicitly promoted in activity documentation through specific measures which:

- a) Reduce social, economic or political power inequalities between women and men, girls and boys, ensure that women benefit equally with men from the activity, or compensate for past discrimination; or
- b) Develop or strengthen gender equality or anti-discrimination policies, legislation or institutions.

This approach requires analysing gender inequalities either separately or as an integral part of agencies' standard procedures.

### EXAMPLES OF TYPICAL ACTIVITIES

☐ Examples of activities that could be marked as principal objective:

- legal literacy for women and girls;
- male networks against gender violence;
- a social safety net project which focuses specifically on assisting women and girls as a particularly disadvantaged group in a society;
- capacity building of Ministries of Finance and Planning to incorporate gender equality objectives in national poverty reduction or comparable strategies.

Such activities can target women specifically, men specifically or both women and men.

☐ Examples of activities that could be marked as significant objective:

- activity which has as its principal objective to provide drinking water to a district or community while at the same time ensuring that women and girls have safe and easy access to the facilities;
- a social safety net project which focuses on the community as a whole and ensures that women and girls benefit equally with men and boys.

**N.B.** Support to women's equality organisations and institutions (**CRS sector code 15170**) scores, by definition, principal objective.

---

# OVERVIEW

## Gender Equality Focus of DAC Members' Aid by Sector Average annual value of commitments in 2013-2014 constant 2013 USD 33.9 billion

**Coverage** – All DAC members report on the gender equality focus of their aid. As from 2010 data, the calculation of allocable aid is no longer based on sectors but on types of aid. This new methodology slightly extends the scope of aid screened, mainly with the inclusion of humanitarian aid. The calculation includes the following types of aid: sector budget support, core support to NGOs, support to specific funds managed by international organisations, pooled funding, projects, donor country personnel and other technical assistance, and scholarships in donor country. The term *bilateral allocable aid* in this publication refers to this new methodology.

This chart is based on commitment data, which best reflect current policies by donors. A two-year average is given, as the focus and volume of commitments vary from year to year. DAC members use a 'marker' to identify activities that have gender equality as a principal or significant objective. Reporting has strongly improved over the years, and although some members encounter difficulties in applying the methodology, the currently available data nevertheless give a reliable indication of the extent to which those donors that report address gender equality in their aid programmes.

## AID AT A GLANCE - DONORS' CHARTS

The following charts (2013-2014) summarise statistics on **aid focused on gender equality and women's empowerment** extended by each DAC member. Information shown includes the gender equality policy marker coverage, the top ten recipients and a sector breakdown of aid focused on gender equality and women's empowerment.

**Guidance for the interpretation of the charts:** The first element to take into account when analysing the data for one country or when comparing data between countries is the **COVERAGE RATIO**, i.e. the proportion of aid which is screened. A high percentage of gender equality focused aid **ALONE** does not mean that aid is well aligned with the gender equality policy objective, such a conclusion would only be valid for a donor with 100% coverage. When comparing data between donors, both coverage ratio and % of aid focused on gender equality and women's empowerment have to be considered. (A number of members do not screen contributions that are by nature likely to fall under the "not targeted" category, e.g. imputed student costs. Therefore, a high amount in the category "not screened" generally increases the percentage of gender equality focused aid significantly.)

*Note: An activity can target gender equality as a "principal objective" or "significant objective". Principal means gender equality was an explicit objective of the activity and fundamental in its design. Significant means gender equality was an important, but secondary objective of the activity. Not targeted means that the activity was screened for promoting gender equality, but was found to not be targeted to it.*

# Aid in Support of Gender Equality and Women's Empowerment 2013-2014 <sup>(1)</sup>

## Australia

Investment in gender equality and women's empowerment is vital for improving economic, social and political conditions in developing countries within the framework of sustainable development. A focus on gender equality and women's empowerment in development co-operation is a means for enhancing the total effectiveness of aid (2).

An activity can target gender equality as a "principal objective" or "significant objective". Principal means gender equality was an explicit objective of the activity and fundamental in its design. Significant means gender equality was an important, but secondary, objective of the activity. Not targeted means that the activity was screened for promoting gender equality, but was not found to have targeted it.

Not all activities have been screened against the gender marker: the coverage ratio for bilateral allocable activities is **88%**.

# Aid in Support of Gender Equality and Women's Empowerment 2013-2014 <sup>(1)</sup>

## Finland

Investment in gender equality and women's empowerment is vital for improving economic, social and political conditions in developing countries within the framework of sustainable development. A focus on gender equality and women's empowerment in development co-operation is a means for enhancing the total effectiveness of aid (2).

An activity can target gender equality as a "principal objective" or "significant objective". Principal means gender equality was an explicit objective of the activity and fundamental in its design. Significant means gender equality was an important, but secondary, objective of the activity. Not targeted means that the activity was screened for promoting gender equality, but was not found to have targeted it.

All activities have been screened against the gender marker: the gender coverage ratio is thus **100%**.

# Aid in Support of Gender Equality and Women's Empowerment 2013-2014 <sup>(1)</sup>

## New Zealand

Investment in gender equality and women's empowerment is vital for improving economic, social and political conditions in developing countries within the framework of sustainable development. A focus on gender equality and women's empowerment in development co-operation is a means for enhancing the total effectiveness of aid (2).

An activity can target gender equality as a "principal objective" or "significant objective". Principal means gender equality was an explicit objective of the activity and fundamental in its design. Significant means gender equality was an important, but secondary, objective of the activity. Not targeted means that the activity was screened for promoting gender equality, but was not found to have targeted it.

All activities have been screened against the gender marker: the gender coverage ratio is thus **100%**.

(3) % of bilateral allocable aid excluding activities not screened against the gender equality marker.

**Note:** Statistics on gender focus exclude bilateral non-allocable aid since several members do not apply the gender marker on these forms of aid. This category includes programme assistance (e.g. general budget support...), debt relief and in-donor expenses.

# Aid in Support of Gender Equality and Women's Empowerment 2013-2014 <sup>(1)</sup>

## United States

Investment in gender equality and women's empowerment is vital for improving economic, social and political conditions in developing countries within the framework of sustainable development. A focus on gender equality and women's empowerment in development co-operation is a means for enhancing the total effectiveness of aid (2).

An activity can target gender equality as a "principal objective" or "significant objective". Principal means gender equality was an explicit objective of the activity and fundamental in its design. Significant means gender equality was an important, but secondary, objective of the activity. Not targeted means that the activity was screened for promoting gender equality, but was not found to have targeted it.

All activities have been screened against the gender marker: the gender coverage ratio is thus **100%**.

### Gender equality focus of donor's aid programme

### Sector breakdown

#### Percentage of gender equality focused aid by sector

#### Gender equality focus of sectors 2013 USD million

### Top ten recipients

#### Gender equality focus in aid to top ten recipients 2013 USD million

	Total aid	Total bilateral allocable aid	Gender equality focused aid (3)
Afghanistan	2,278	2,278	35%
Jordan	954	766	10%
West Bank and Gaza Strip	924	924	10%
Pakistan	887	887	27%
Kenya	813	813	23%
South Sudan	771	771	26%
Syrian Arab Republic	761	761	0%
Ethiopia	682	682	24%
Nigeria	524	524	27%
Tanzania	496	496	24%

#### Top ten recipients of gender equality focused aid 2013 USD million

	Total bilateral allocable aid	Gender equality focused aid (3)	
Afghanistan	2,278	799	35%
Pakistan	887	240	27%
South Sudan	771	200	26%
Kenya	813	191	23%
Ethiopia	682	162	24%
Nigeria	524	141	27%
Colombia	393	122	31%
Tanzania	496	121	24%
Democratic Republic of the Congo	384	112	29%
Liberia	353	110	31%
