

# Virtual RCC–FAS Seminar in Russia

## Enforcement cooperation in cross-border cases

 Online

 27-29 October 2020

### Seminar objectives

Globalisation and the digital economy, as well as the increasing significance of emerging economies and the proliferation of competition regimes, have increased the complexity of cross-border competition law enforcement cooperation. Several initiatives by international organisations (e.g. OECD Recommendation on International Co-operation on Competition Investigations and Proceedings, ICN-led Framework to Promote Fair and Effective Agency Process and UNCTAD Guiding Policies and Procedures under Section F of the UN Set on Competition) aim to explore the ways in which costs can be reduced, inconsistencies can be avoided and procedural fairness can be guaranteed in parallel proceedings. This seminar will explore best practices for formal and informal enforcement cooperation.
