1. Until 2011, payment for non-market output are distributed between market output and output for own final use.
2. *Taxes on production and imports, receivable* for general government and central government includes the whole amount of VAT revenues collected in the country. Transfers to the EU institutions based on the harmonised VAT assessment bases after exclusion of UK rebate, are recorded by other Member States directly as VAT revenue of the EU institutions (outside general government sector). For Denmark these transfers increase value of *Other current transfers, payable* for general government and central government.
3. Property income is not consolidated.
4. Transaction *Gross capital formation* and *Acquisitions less disposals of non-produced assets* isn't adjusted for UMTS sales.

1. It should also be noted that so far, no consolidation of flows between Member States is done in aggregating to EU levels. This means in particular that the level of exports and imports for the EU (or euro area) includes flows within the EU (or euro area). The external balance however is not affected, because the non-consolidated flows in exports and imports cancel each other out in the balance.

ORGANISATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT

The OECD is a unique forum where governments work together to address the economic, social and environmental challenges of globalisation. The OECD is also at the forefront of efforts to understand and to help governments respond to new developments and concerns, such as corporate governance, the information economy and the challenges of an ageing population. The Organisation provides a setting where governments can compare policy experiences, seek answers to common problems, identify good practice and work to co-ordinate domestic and international policies.

The OECD member countries are: Australia, Austria, Belgium, Canada, Chile, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea, Latvia, Lithuania, Luxembourg, Mexico, the Netherlands, New Zealand, Norway, Poland, Portugal, the Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Turkey, the United Kingdom and the United States. The European Union takes part in the work of the OECD.

OECD Publishing disseminates widely the results of the Organisation's statistics gathering and research on economic, social and environmental issues, as well as the conventions, guidelines and standards agreed by its members.
