

Table of contents

Executive Summary	9
Chapter 1. Post-school transitions for young adults with disabilities.....	15
Introduction.....	16
The context	16
Access to tertiary education: a path towards inclusion	18
The challenging transition to tertiary education	22
Build integrated systems to safeguard the transition process	31
Conclusion	33
References.....	34
Chapter 2. Access to tertiary education is still challenging	39
Introduction.....	40
A lack of reliable statistical data.....	40
Easier access to tertiary education	41
Inclusion policies increase acceptance of disability	44
Mobilise financial means to promote inclusion	46
Promoting equity: a responsibility of educational institutions.....	47
Empower high school students and high schools to ensure inclusion	50
Mobilisation of tertiary education institutions and their students	54
Promote an education system that focuses on every student’s success	59
The move towards integrated transition systems	65
Conclusion	74
References.....	75
Chapter 3. Institutional strategies to support students with disabilities	79
Introduction.....	80
The bumpy road to tertiary education	80
Students with disabilities have fewer chances of success in tertiary education.....	92
Secondary and tertiary education institutions need more support	100
Conclusion	101
References.....	103
Chapter 4. The difficult transition from education to employment.....	105
Introduction.....	106
Better access to mainstream education but limited employment impact	106
Strengthening linkages between upper secondary school and the labour market.....	111
Developing synergies by combining academic success with inclusion	115
Conclusion	123
References.....	124
Chapter 5. Conclusions and Recommendations	127

Annex: Methodology	135
Guidelines for the country background reports.....	135
Country visits.....	139
Figures	
Figure 1.1. Education level of persons with disabilities and of the total population in Ireland (2006).....	19
Figure 1.2. Education level of persons with disabilities and of the total population in the Czech Republic (2007).....	20
Figure 1.3. Employment rate by education level for persons aged 16-30 years in Norway (2006)	21
Figure 1.4. Employment rate for persons with disabilities and for the total population aged 20-34 years in Ireland and in Denmark (2006).....	21
Figure 1.5. Support structure for upper secondary students with special education needs in Norway	26
