

CZECH REPUBLIC

Category 1 Cross-national Category A - Students in educational system with mental handicaps (in special schools, special classes, regular schools) that need reduced education or special educational plans. We also include here children that are severely mentally retarded in auxiliary schools, where they take education in very reduced educational plans.

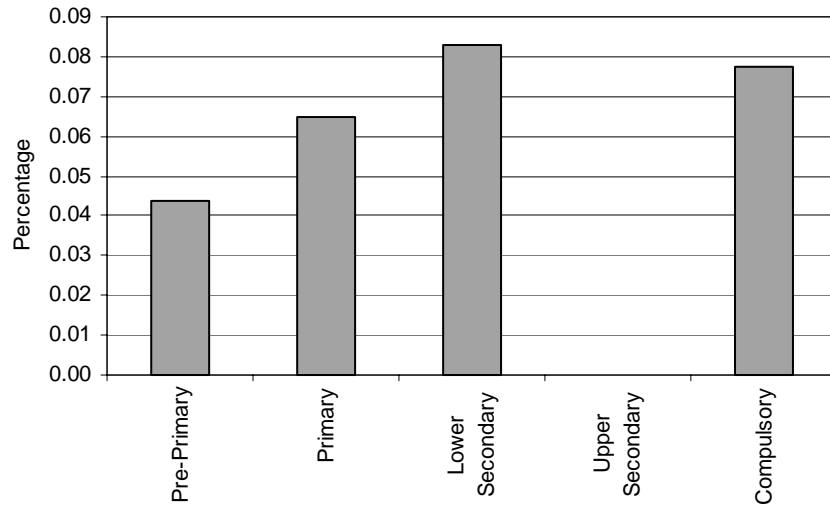

Proportion of students who are mentally retarded by phases of education in special schools, special classes and regular classes

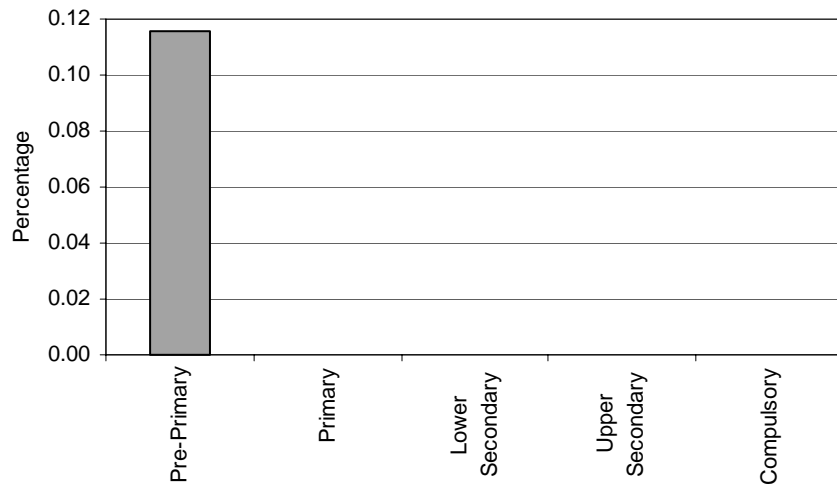

Special Schools - Category 1. Total percentage of mentally retarded students falling within the resources definition, by phase of education

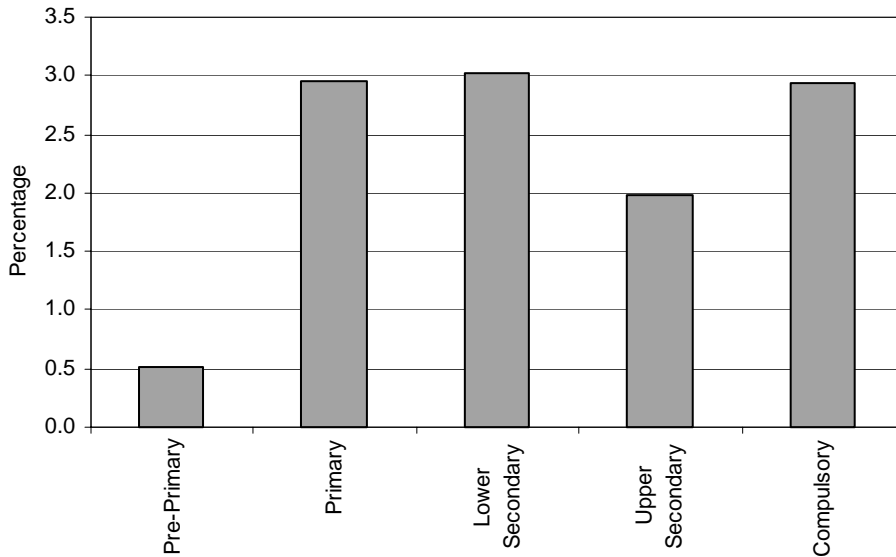

Special Classes - Category 1. Total percentage of mentally retarded students falling within the resources definition, by phase of education

Regular Classes - Category 1. Total percentage of mentally retarded students falling within the resources definition, by phase of education

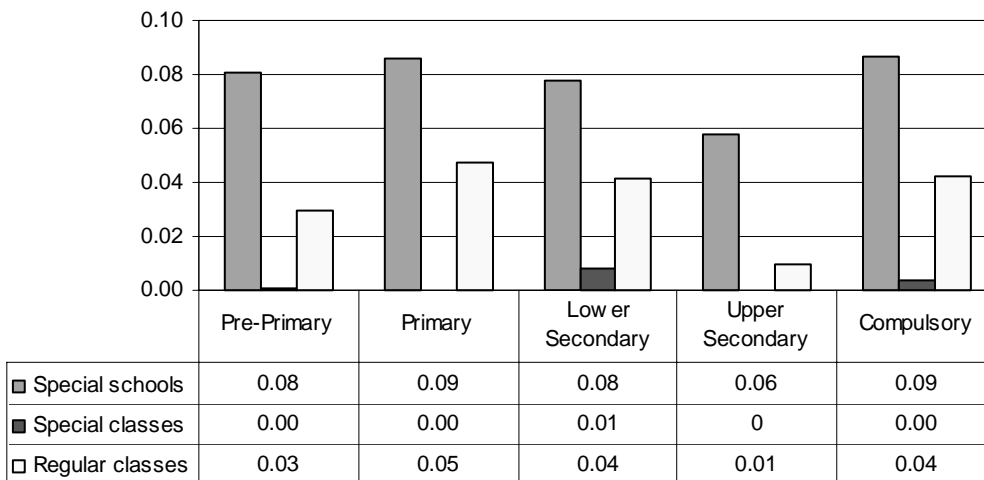

Total - Category 1. Total percentage of mentally retarded students falling within the resources definition

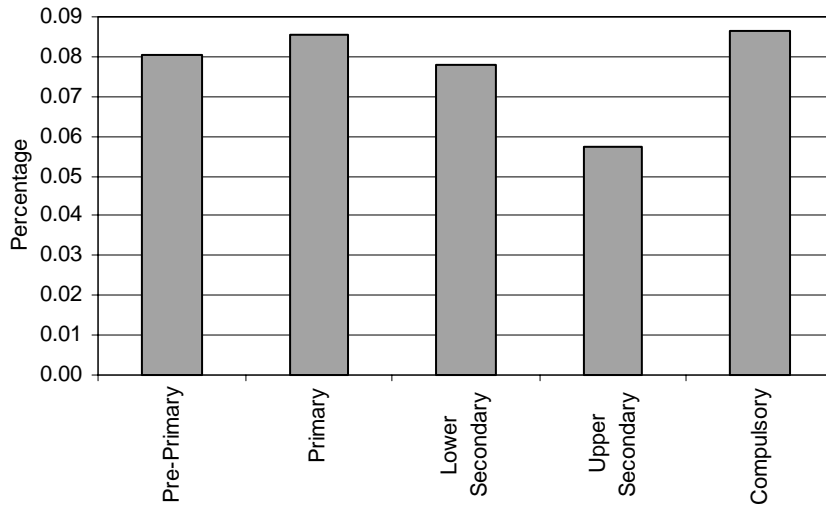

Category 2 Cross-national Category A - Students with all hearing handicaps – deaf and partially hearing – that need special educational approach (in special schools, special classes, regular schools).

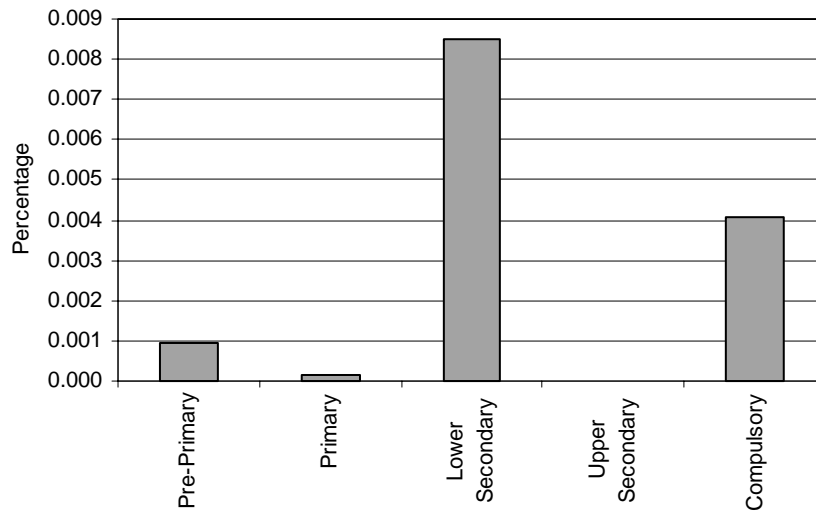

Proportion of students with hearing handicaps by phases of education in special schools, special classes and regular classes

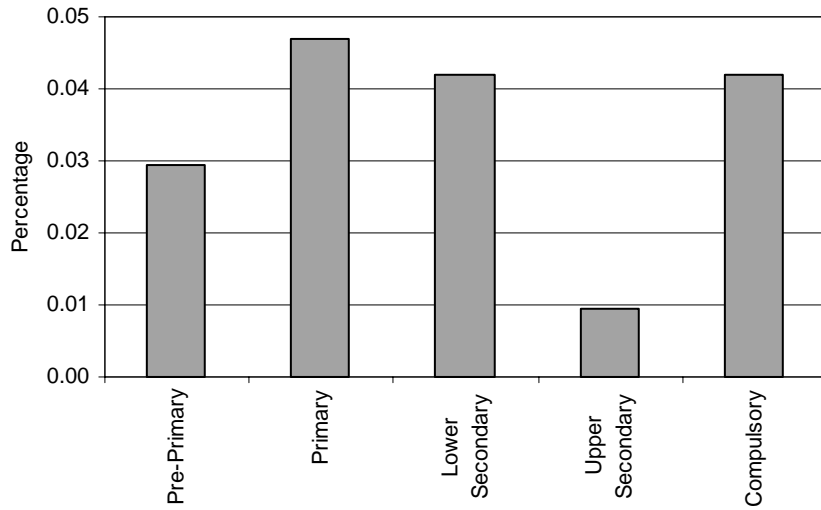

Special Schools - Category 2. Total percentage of students with hearing handicaps falling within the resources definition, by phase of education

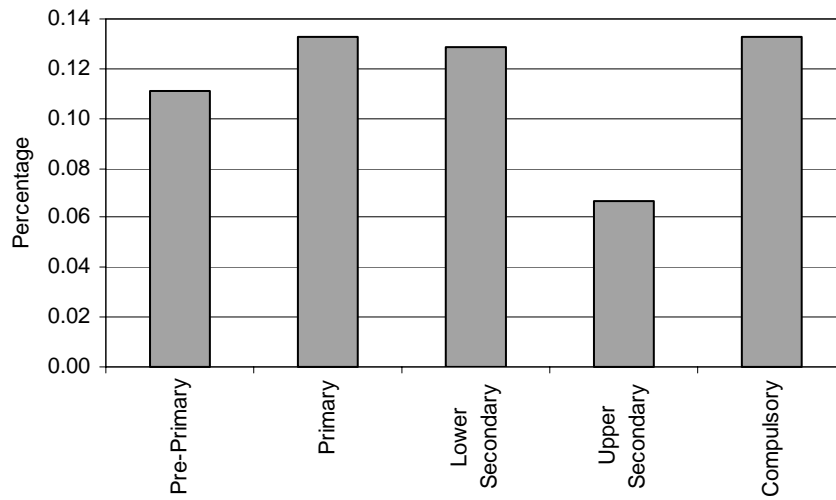

Special Classes - Category 2. Total percentage of students with hearing handicaps falling within the resources definition, by phase of education

Regular Classes - Category 2. Total percentage of students with hearing handicaps falling within the resources definition, by phase of education

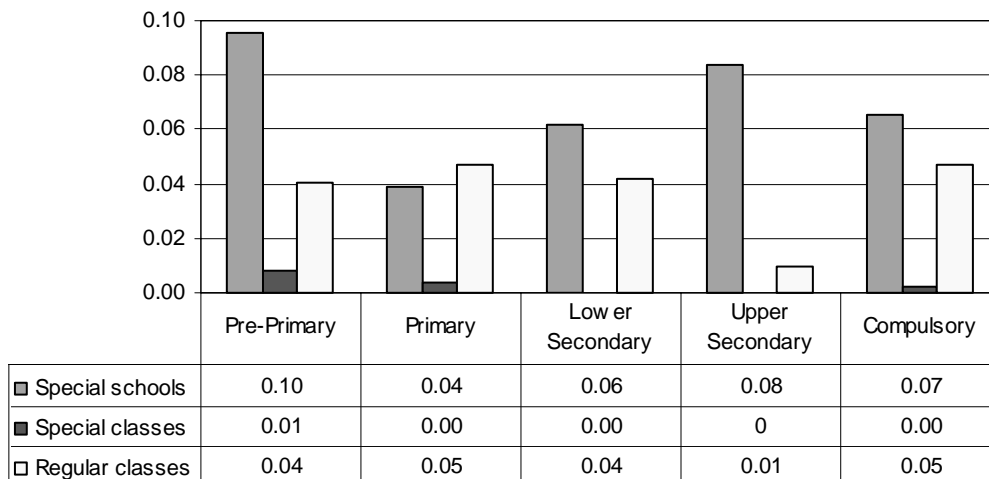

Total - Category 2. Total percentage of students with hearing handicaps falling within the resources definition

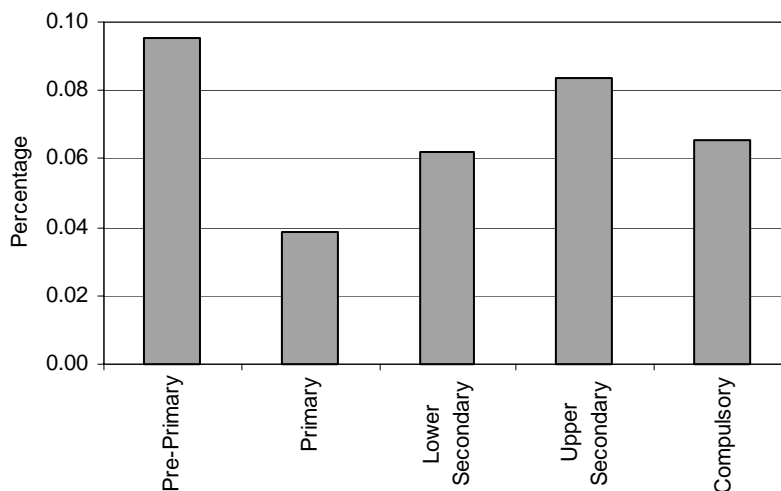

Category 3 Cross-national Category A - Students with all sight handicaps – blind and partially sighted – that need special educational approach (in special schools, special classes, regular schools).

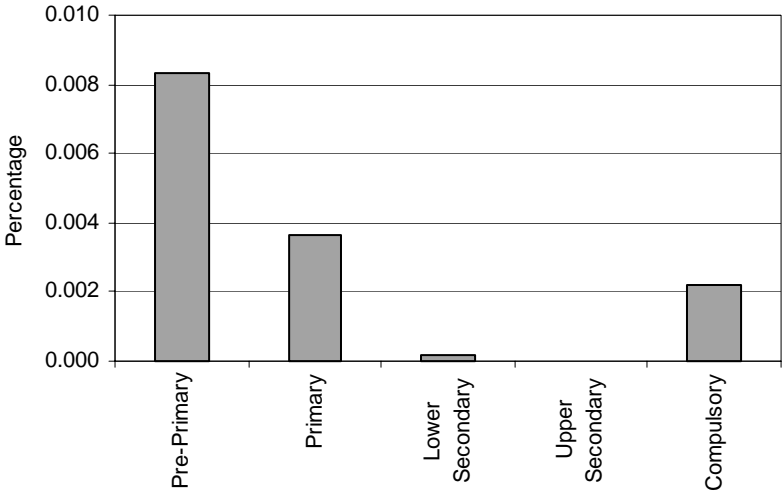

Proportion of students with slight handicaps by phases of education in special schools, special classes and regular classes

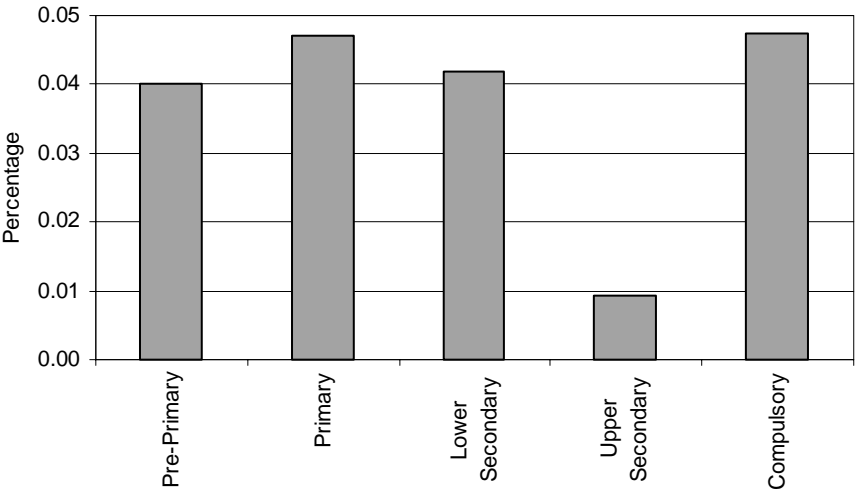

Special Schools - Category 3. Total percentage of students with slight handicaps falling within the resources definition, by phase of education

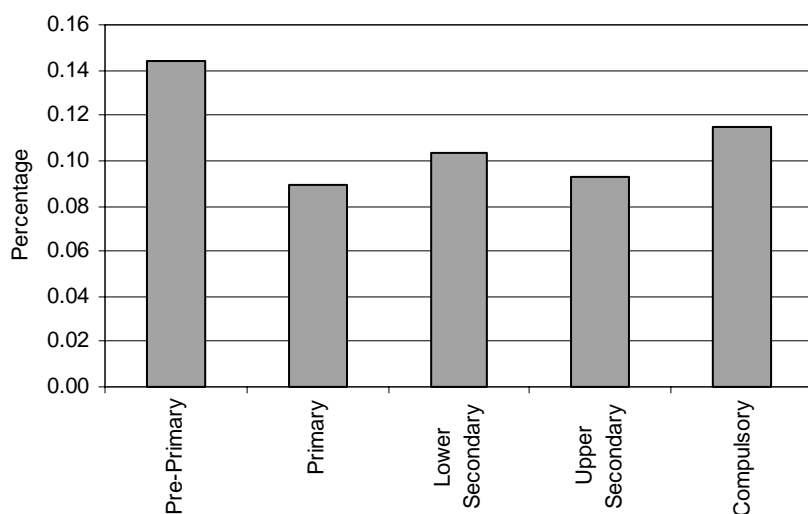

Special Classes - Category 3. Total percentage of students with slight handicaps falling within the resources definition, by phase of education

Regular Classes - Category 3. Total percentage of students with slight handicaps falling within the resources definition, by phase of education

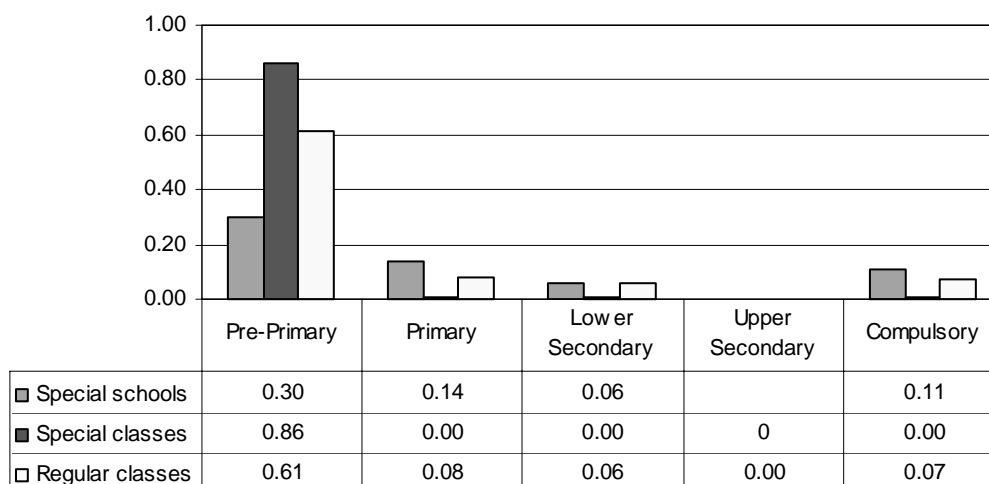

Total - Category 3. Total percentage of students with slight handicaps falling within the resources definition

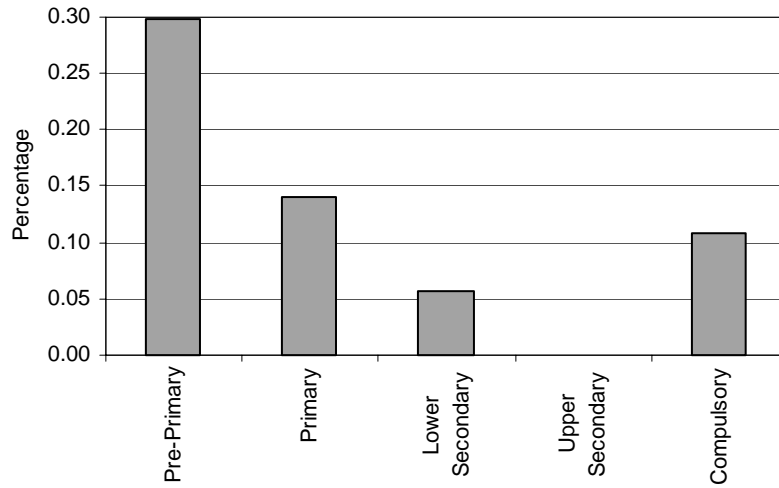

Category 4 Cross-national Category A - Students with all speech handicaps that need special educational approach (in special schools, special classes, regular schools).

Proportion of students with speech handicaps by phases of education in special schools, special classes and regular classes

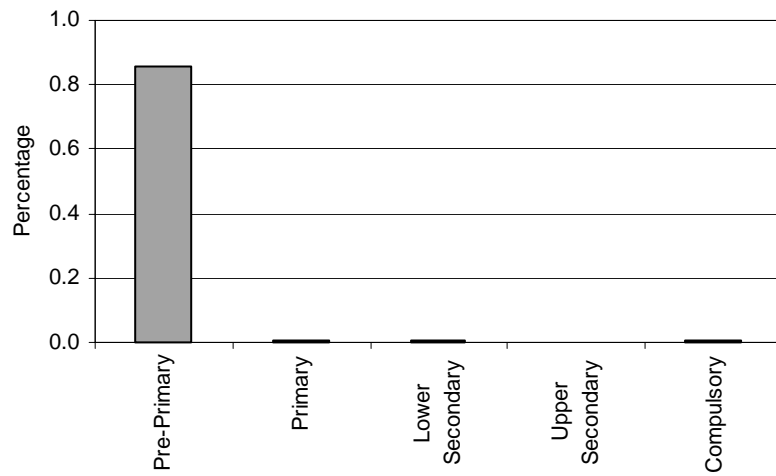

Note: Special schools data in upper secondary education are not applicable.

Special Schools - Category 4. Total percentage of students with speech handicaps falling within the resources definition, by phase of education

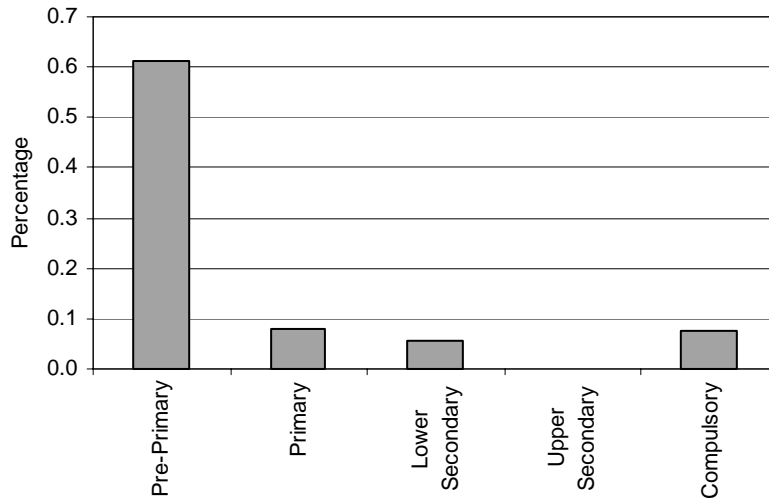

Note: Special schools data in upper secondary education are not applicable.

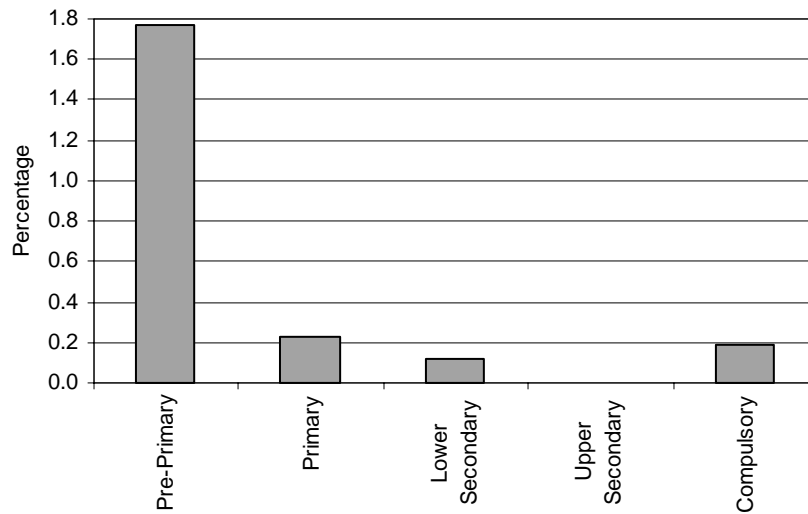

Special Classes - Category 4. Total percentage of students with speech handicaps falling within the resources definition, by phase of education

Regular Classes - Category 4. Total percentage of students with speech handicaps falling within the resources definition, by phase of education

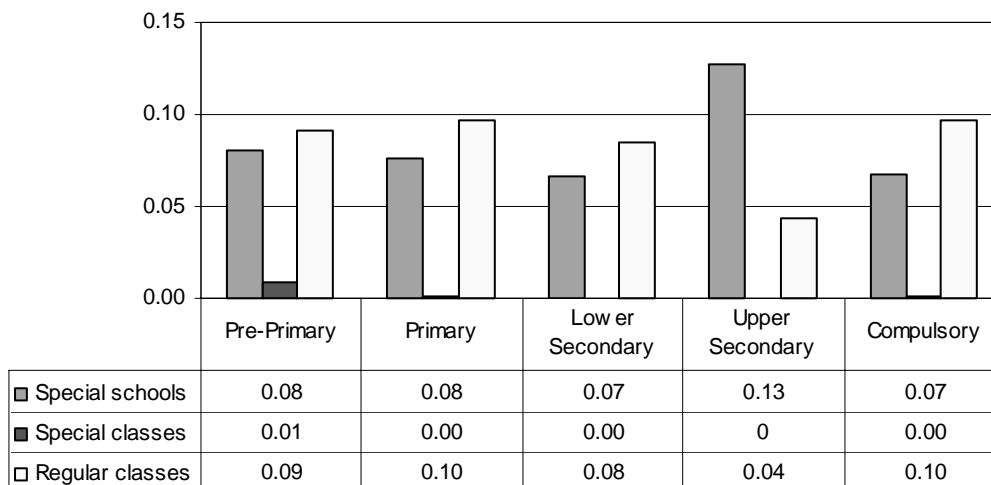

Total - Category 4. Total percentage of students with speech handicaps falling within the resources definition

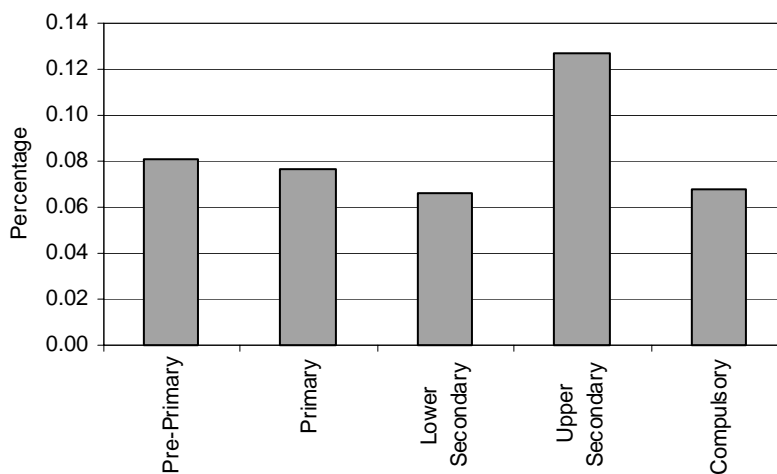

Note: Special schools data in upper secondary education are not applicable.

Category 5 Cross-national Category A - Students with all physical handicaps that need special educational approach (in special schools, special classes, regular schools).

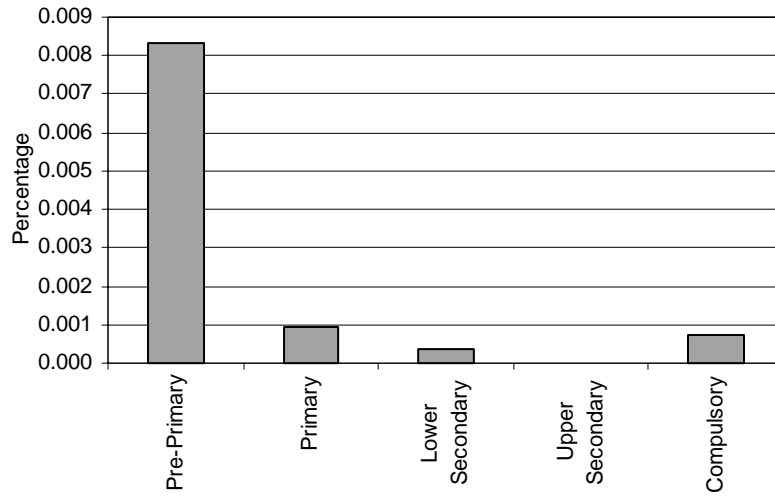

Proportion of students with physical handicaps by phases of education in special schools, special classes and regular classes

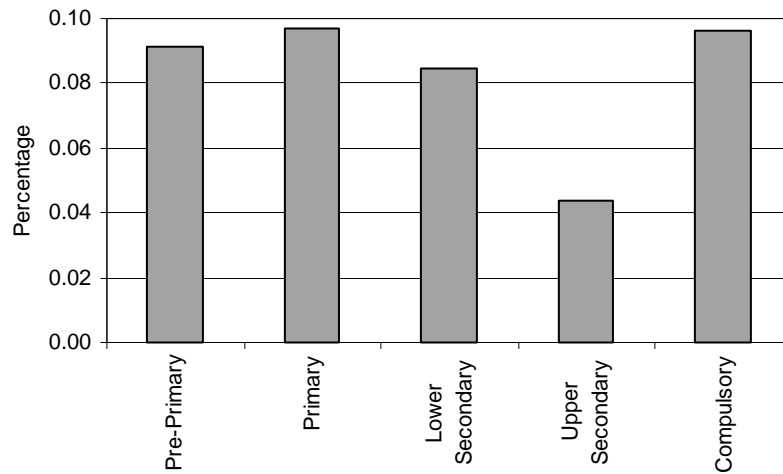

Special Schools - Category 5. Total percentage of students with physical handicaps falling within the resources definition, by phase of education

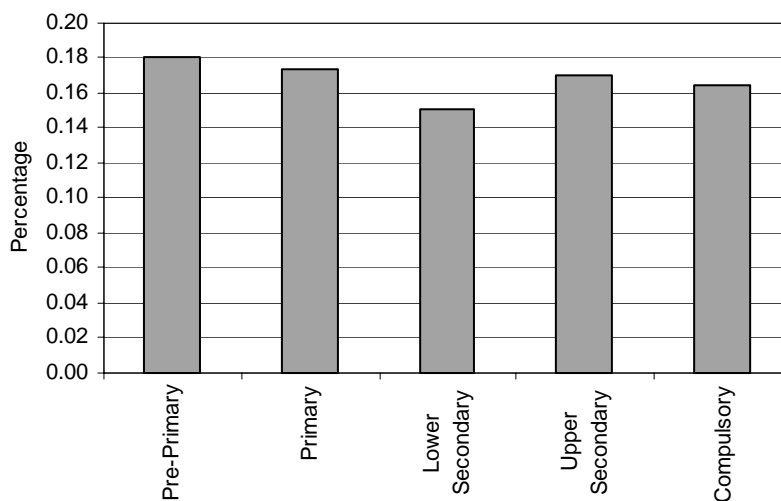

Special Classes - Category 5. Total percentage of students with physical handicaps falling within the resources definition, by phase of education

Regular Classes - Category 5. Total percentage of students with physical handicaps falling within the resources definition, by phase of education

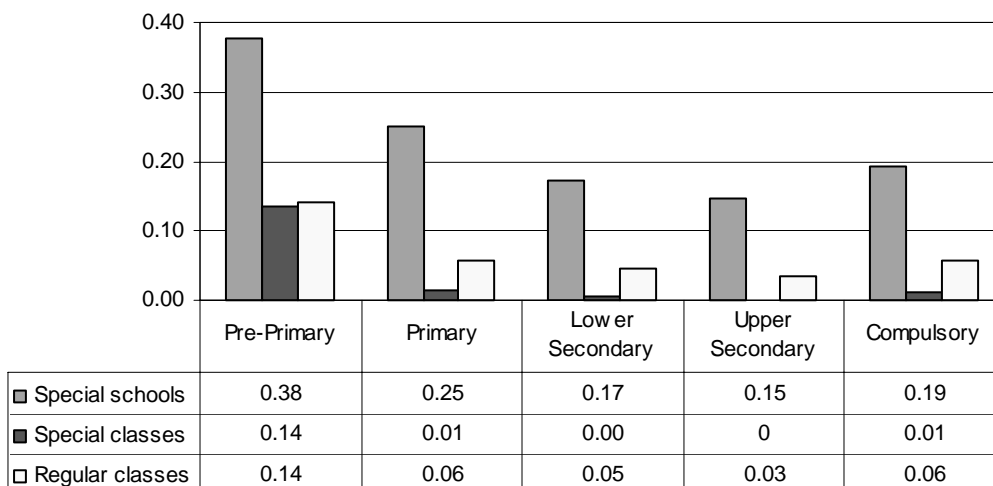

Total - Category 5. Total percentage of students with physical handicaps falling within the resources definition

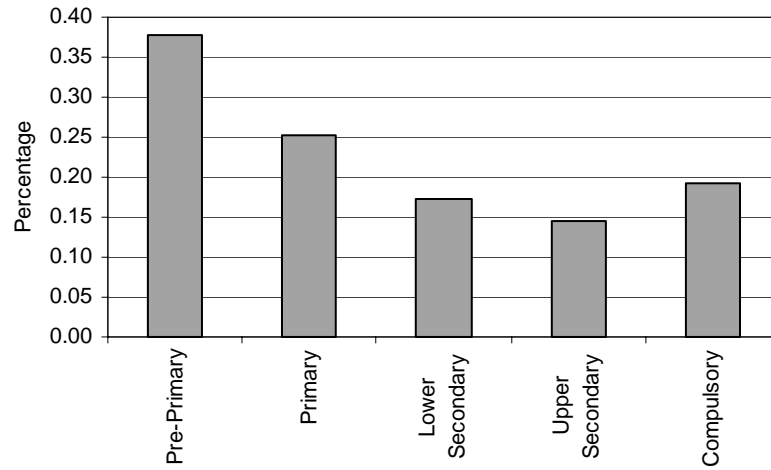

Category 6 Cross-national Category A - Students with all combinations of handicaps that need special educational approach.

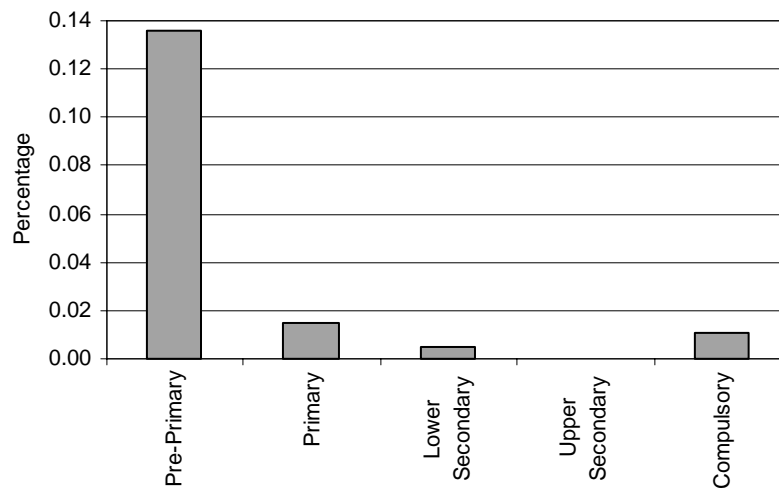

Proportion of students with multiple handicaps by phases of education in special schools, special classes and regular classes

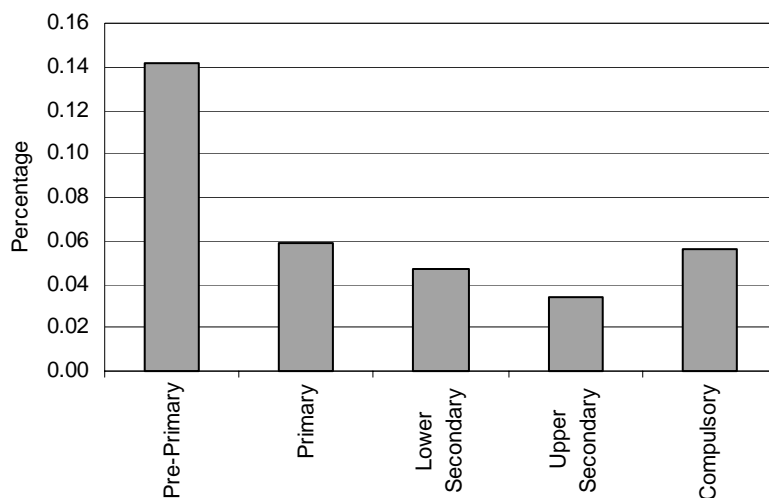

Special Schools - Category 6. Total percentage of students with multiple handicaps falling within the resources definition, by phase of education

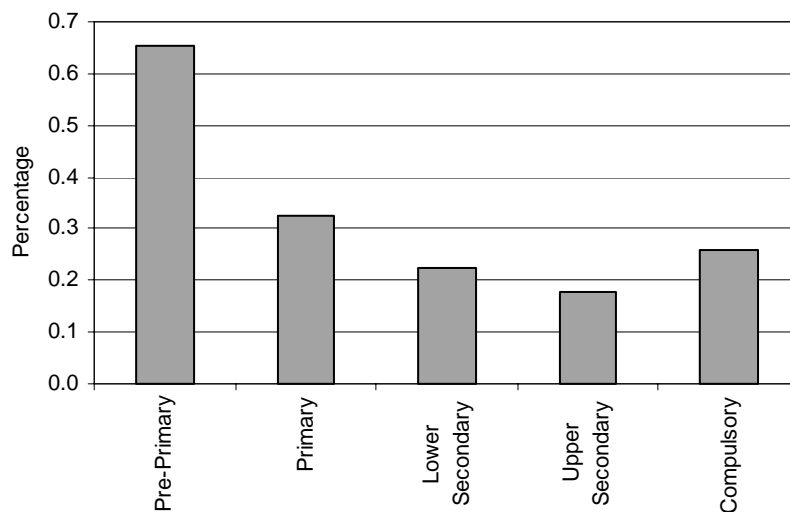

Special Classes - Category 6. Total percentage of students with multiple handicaps falling within the resources definition, by phase of education

Regular Classes - Category 6. Total percentage of students with multiple handicaps falling within the resources definition, by phase of education

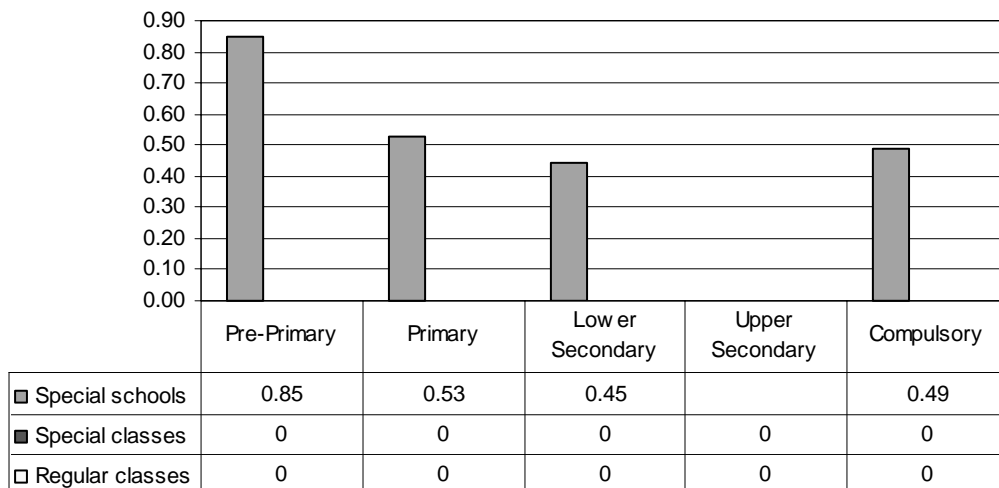

Total - Category 6. Total percentage of students with multiple handicaps falling within the resources definition

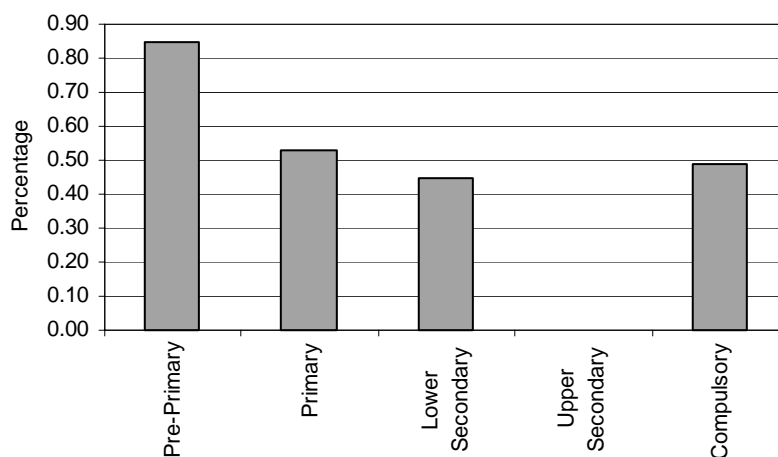

Category 7 Cross-national Category B - Students in hospitals (and attending schools in hospitals), students in medical institutions.

Proportion of sick students lying in hospital by phases of education in special schools, special classes and regular classes

Note: Special schools data in upper secondary education are not applicable.

Special Schools - Category 7. Total percentage of sick students lying in hospital falling within the resources definition, by phase of education

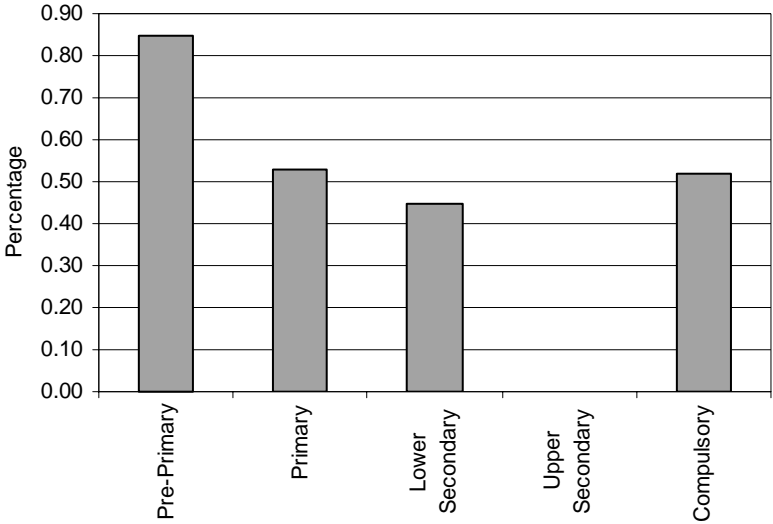

Note: Special schools data in upper secondary education are not applicable.

Special Classes – Category 7. Students in hospitals
NIL

Regular Classes – Category 7. Students in hospitals

NIL

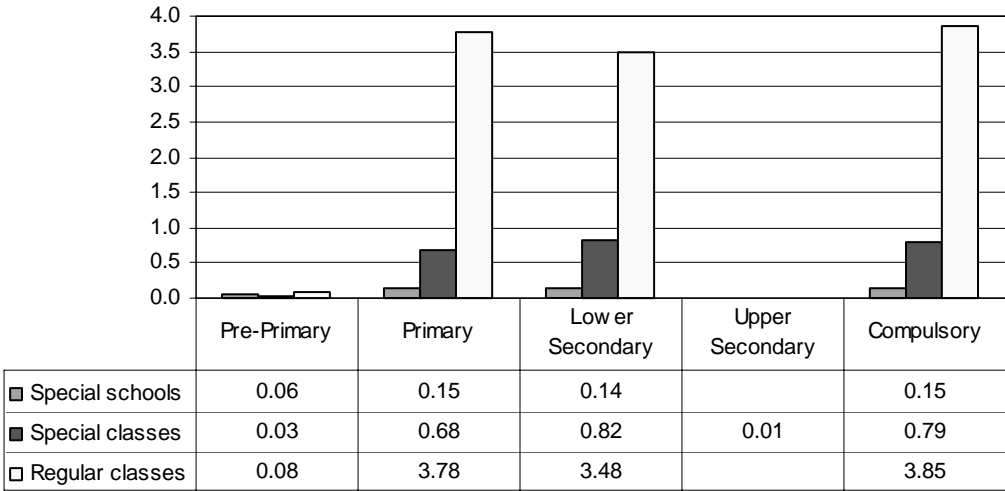

Total - Category 7. Total percentage of sick students lying in hospital falling within the resources definition

Note: Special schools data in upper secondary education are not applicable.

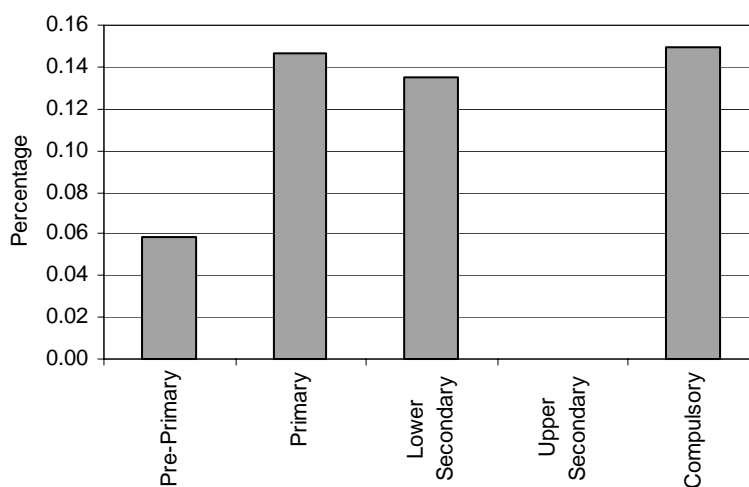

Category 8 Cross-national Category B - Students with all development, behaviour and learning problems (including disgraphics, dyslexic children, etc.) that need special educational approach.

Proportion of students with development behaviour and learning problems by phases of education in special schools, special classes and regular classes

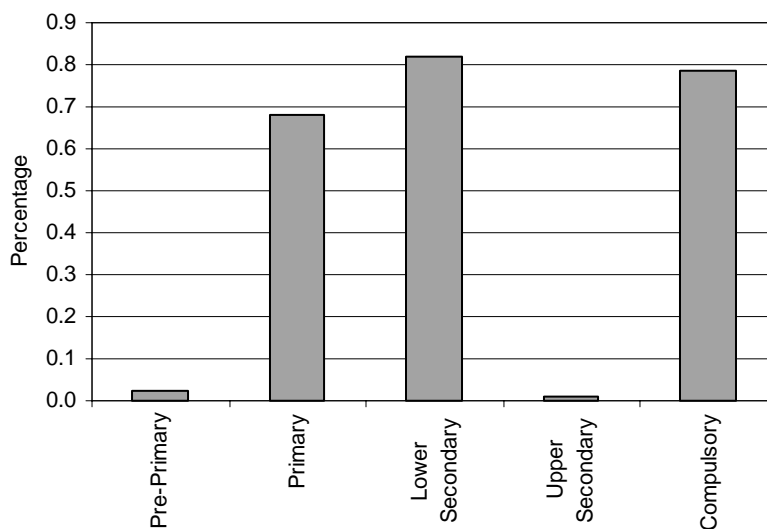

Note: Special schools data in upper secondary education are not applicable. Regular classes data in upper secondary education are missing.

Special Schools - Category 8. Total percentage of students with development behaviour and learning problems falling within the resources definition, by phase of education

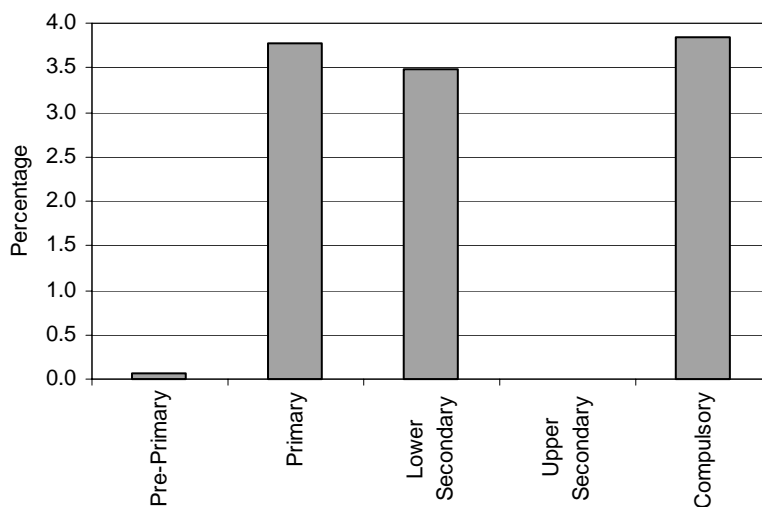

Note: Special schools data in upper secondary education are not applicable.

Special Classes - Category 8. Total percentage of students with development behaviour and learning problems falling within the resources definition, by phase of education

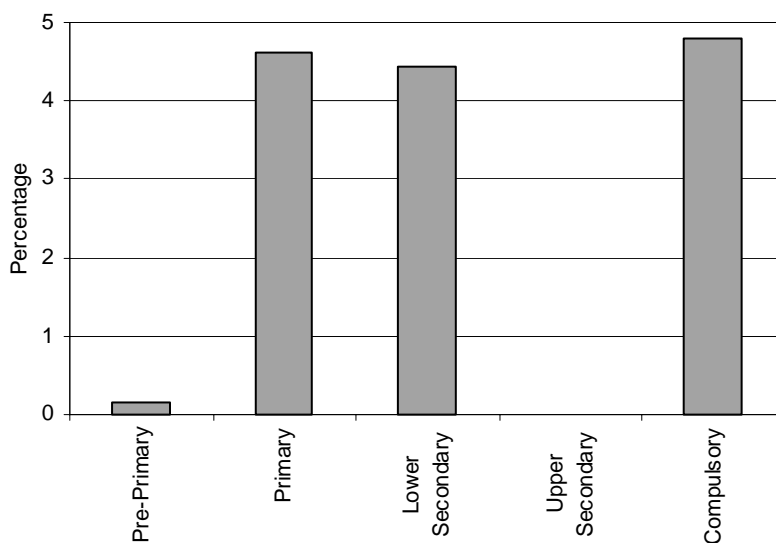

Regular Classes - Category 8. Total percentage of students with development behaviour and learning problems falling within the resources definition, by phase of education

Note: Regular classes data in upper secondary education are missing.

Total - Category 8. Total percentage of students with development behaviour and learning problems falling within the resources definition

Note: Special schools data in upper secondary education are not applicable.
Regular classes data in upper secondary education are missing.

Category 9 Cross-national Category A - All other handicapped children (that are not defined in the other categories).

Special Schools – Category 9. Other handicaps
NOT APPLICABLE

Special Classes – Category 9 Other handicaps

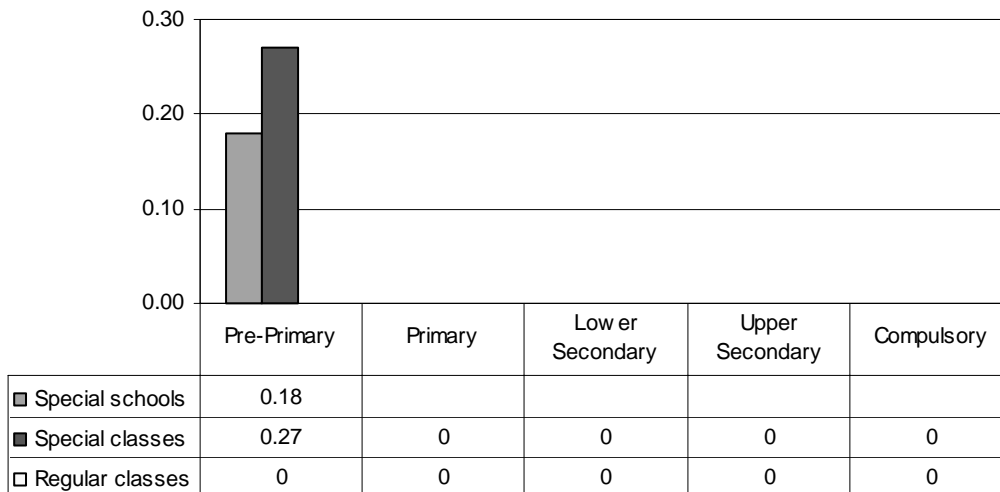

NIL

Regular Classes – Category 9. Other handicaps

NIL

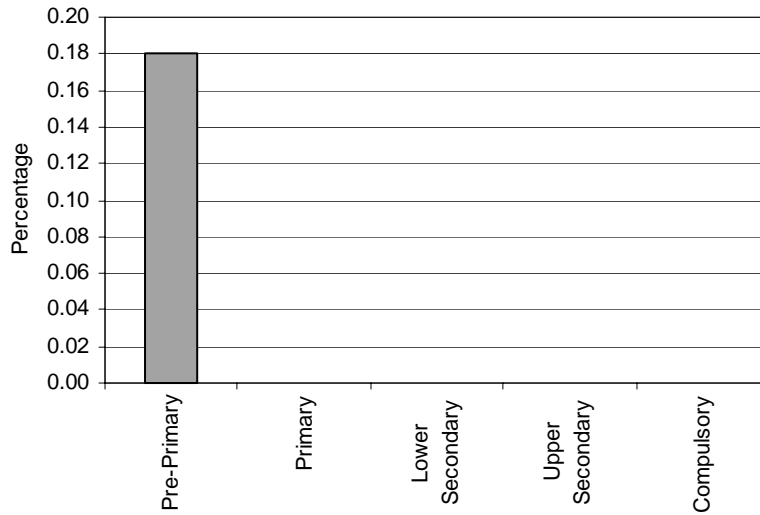

Category 10 Cross-national Category A - Children with weakened health in kindergartens that need special educational approach.

Proportion of students with weakened health by phases of education in special schools, special classes and regular classes

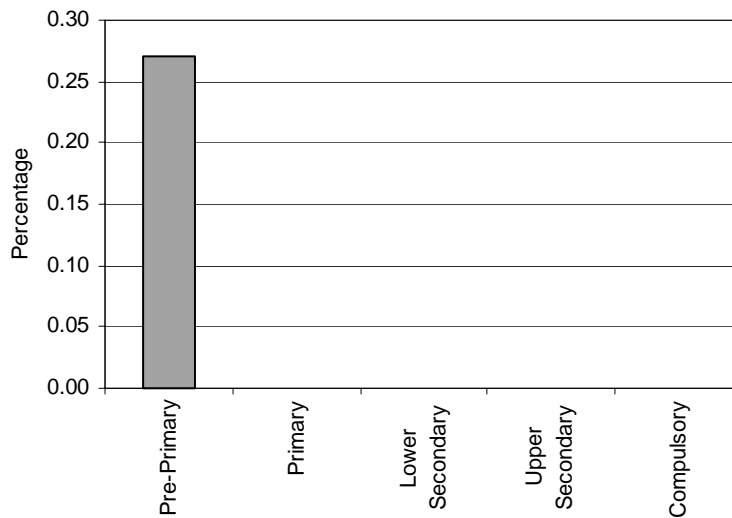

Note: Special schools data in primary, lower secondary, upper secondary and compulsory education are not applicable.

Special Schools - Category 10. Total percentage of children with weakened health within the resources definition, by phase of education (Kindergarten only)

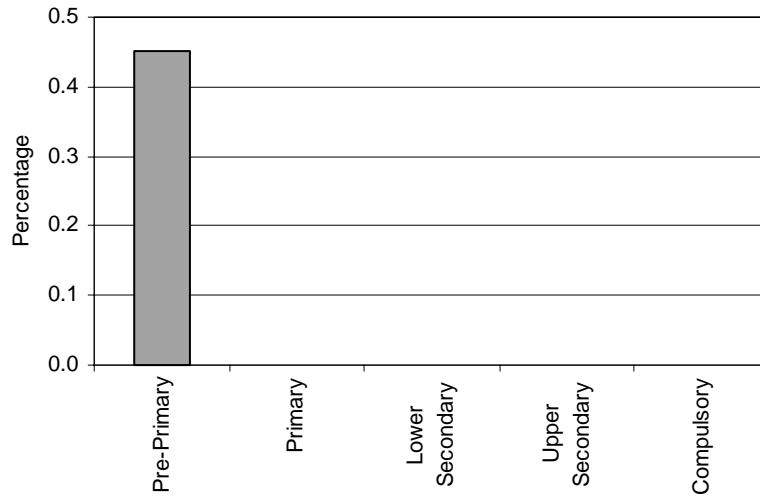

Note: Special schools data in primary, lower secondary, upper secondary and compulsory education are not applicable.

Special Classes - Category 10. Total percentage of children with weakened health within the resources definition, by phase of education (Kindergarten only)

Regular Classes – Category 10. With weakened health
NIL

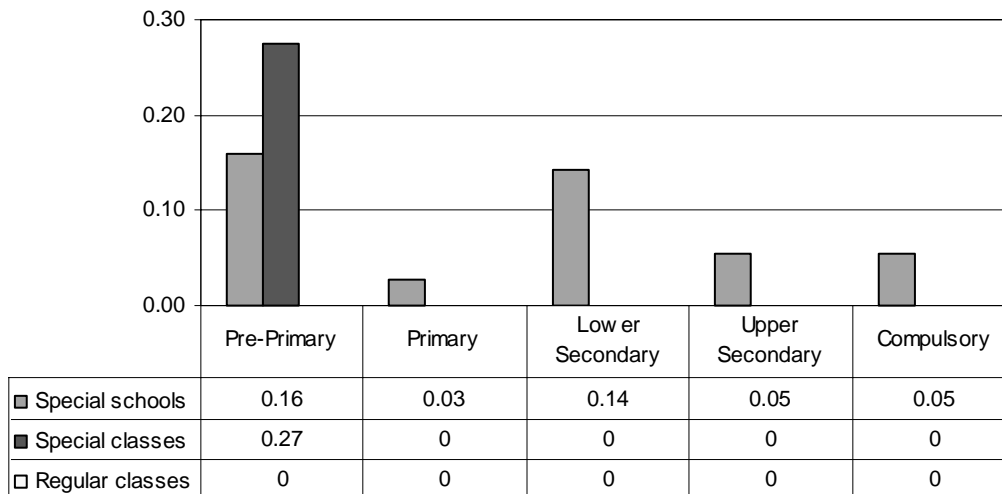

Total - Category 10. Total percentage of children with weakened health within the resources definition (Kindergarten only)

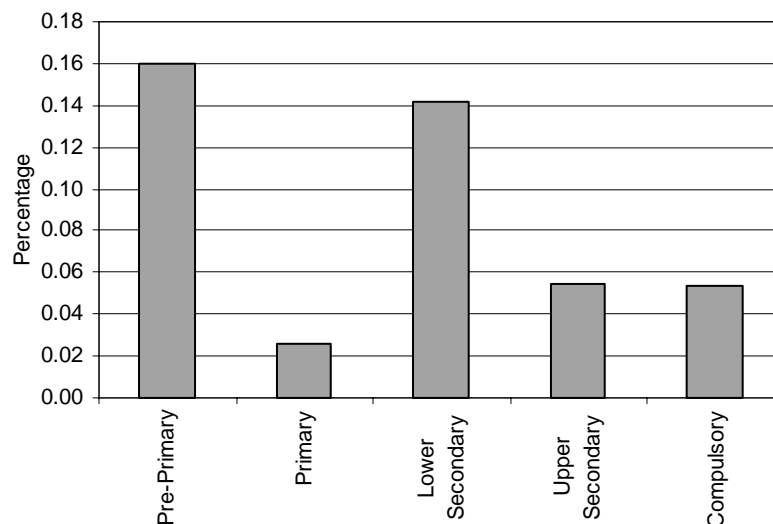

Note: Special schools data in primary, lower secondary, upper secondary and compulsory education are not applicable.

Category 11 Cross-national Category C - Children in special classes for socially-disadvantaged children in regular schools, students from reformatory educational institution for children and youth.

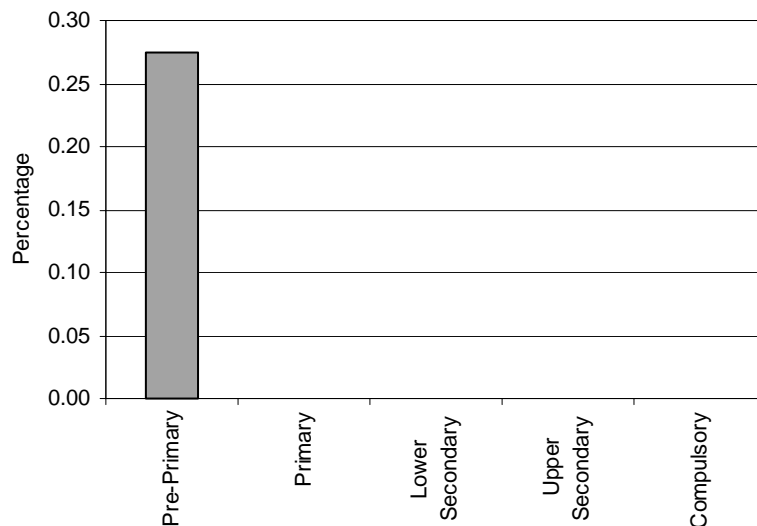

Proportion of socially disadvantaged children, preparatory classes in regular schools by phases of education in special schools, special classes and regular classes

Special Schools - Category 11. Total percentage of socially disadvantaged children, preparatory classes in regular schools within the resources definition, by phase of education

Special Classes - Category 11. Total percentage of socially disadvantaged children, preparatory classes in regular schools within the resources definition, by phase of education

Regular Classes – Category 11. Socially disadvantaged children, preparatory classes in regular schools

NIL

Total - Category 11. Total percentage of socially disadvantaged children, preparatory classes in regular schools within the resources definition
