

## Seminar with the OECD experts

*How to implement Social Impact Bonds (SIB) in Poland?*

*International experiences and Polish proposal for the method of implementation*

### **Background:**

The purpose of the seminar is to provide the practical information about how to implement SIBs in Poland using international experiences. The seminar is addressed to the potential applicants interested in the implementation of SIB within the call for proposals planned to be launched by the Ministry of Economic Development.

The participants of the seminar shall have an opportunity to find out what are the practical aspects of setting up and implementing the SIBs, what are the advantages and potential threats and what are the milestones of the whole process.
