APPENDIX 3

LIST OF WASTES SUBJECT TO THE GREEN CONTROL PROCEDURE

Regardless of whether or not wastes are included on this list, they may not be subject to the Green control procedure if they are contaminated by other materials to an extent which (a) increases the risks associated with the wastes sufficiently to render them appropriate for submission to the amber control procedure, when taking into account the criteria in Appendix 6, or (b) prevents the recovery of the wastes in an environmentally sound manner.

PART I:

For the purposes of this Decision:

a) Any reference to list A in Annex IX of the Basel Convention shall be understood as a reference to Appendix 4 of this Decision.

a bis) Any reference to Annex I or III of the Basel Convention shall be understood as a reference to Appendix 1 or 2 of this Decision, respectively.

b) In Basel entry B1020 the term “bulk finished form” includes all metallic non-dispersible forms of the scrap listed therein.

c) Pending approval by the Basel Convention, Basel entry B1030 shall read: “Residues containing refractory metals”.

d) The part of Basel entry B1100 that refers to “Slags from copper processing” etc does not apply and OECD entry GB040 in Part II applies instead.

e) Basel entry B1110 does not apply and OECD entries GC010 and GC020 in Part II apply instead.

f) Basel entry B2050 does not apply and OECD entry GG040 in Part II applies instead.

g) The reference in Basel entry B3010 to fluorinated polymer wastes shall be deemed to include polymers and co-polymers of fluorinated ethylene (PTFE).

g) Basel entry B3011 does not apply as no consensus has been reached among OECD Member countries to incorporate this entry into this Decision.7 Also, no consensus has been reached among OECD Member countries on whether or not the prior Basel entry B30108 continues to apply in this Decision. As a result of this situation, each Member country retains its right to control the plastic waste covered by Basel entry B3011 in conformity with its domestic legislation and international law. Member countries should inform the OECD Secretariat about their controls for plastic waste covered by Basel entry B3011 by 15 January 2021, as well as about any future changes of such controls, in a timely manner. The OECD Secretariat should publish the information received on the OECD website.
**PART II:**

The following wastes will also be subject to the Green control procedure:

**Metal Bearing Wastes Arising from Melting, Smelting and Refining of Metals**

**GB040** 7112  Slags from precious metals and copper processing for further refining
262030
262090

**Other Wastes Containing Metals**

**GC010**  
Electrical assemblies consisting only of metals or alloys.

**GC020**  
Electronic scrap (e.g. printed circuit boards, electronic components, wire, etc.) and reclaimed electronic components suitable for base and precious metal recovery.

**GC030**  ex 890800  
Vessels and other floating structures for breaking up, properly emptied of any cargo and other materials arising from the operation of the vessel which may have been classified as a dangerous substance or waste

**GC050**  
Spent Fluid Catalytic Cracking (FCC) Catalysts (e.g.: aluminium oxide, zeolites)

**Glass Waste in Non-dispersible Form**

**GE020**  ex 7001  
Glass Fibre Waste

**Ceramic Wastes in Non-Dispersible Form**

**GF010**  
Ceramic wastes which have been fired after shaping, including ceramic vessels (before and/or after use)

**Other Wastes Containing Principally Inorganic Constituents, Which May Contain Metals and Organic Materials**

**GG030**  ex 2621  
Bottom ash and slag tap from coal fired power plants

**GG040**  ex 2621  
Coal fired power plants fly ash

**Solid Plastic Wastes**

**GH013**  
Polymers of vinyl chloride
ex 390410-40

**Wastes Arising from Tanning and Fellmongery Operations and Leather Use**

APPENDIX 4

LIST OF WASTES SUBJECT TO THE AMBER CONTROL PROCEDURE

PART I:

Wastes listed in Annexes II and VIII of the Basel Convention.

For the purposes of this Decision:

a) Any reference to list B in Annex VIII of the Basel Convention to list B shall be understood as a reference to Appendix 3 of this Decision.

a bis) Any reference to Annex I or III of the Basel Convention shall be understood as a reference to Appendix 1 or 2 of this Decision, respectively.

b) In Basel entry A1010, the term “excluding such wastes specifically listed on List B (Annex IX)” is a reference both to Basel entry B1020 and the note on B1020 in Appendix 3 to this Decision, Part I (b).

c) Basel entries A1180 and A2060 do not apply and OECD entries GC010, GC020 and GG040 in Appendix 3 Part II apply instead when appropriate. Member countries may control these wastes differently in accordance with Chapter II B 6 of this Decision concerning wastes not listed in Appendices 3 or 4, and the chapeau of Appendix 3.

d) Basel entry A4050 includes spent potlinings from aluminium smelting because they contain Y33 inorganic cyanides. If the cyanides have been destroyed, spent potlinings are assigned to Part II entry AB120 because they contain Y32, inorganic fluorine compounds excluding calcium fluoride.

e) Basel entry A3210 does not apply and AC300 in Part II applies instead.

f) Basel entry Y48\textsuperscript{10} does not apply as no consensus has been reached among OECD Member countries to incorporate this entry into this Decision.\textsuperscript{11} As a result of this situation, each Member country retains its right to control the plastic waste covered by Basel entry Y48 in conformity with its domestic legislation and international law. Member countries should inform the OECD Secretariat about their controls for plastic waste covered by Basel entry Y48 by 15 January 2021, as well as about any future changes of such controls, in a timely manner. The OECD Secretariat should publish the information received on the OECD website.

PART II:

The following wastes will also be subject to the Amber control procedure:

Metal Bearing Wastes

treatment of plastics

AD120  ex 391400  Ion exchange resins
ex 3915

AD150  Naturally occurring organic material used as a filter medium (such as biofilters)

Wastes Containing Principally Inorganic Constituents, Which May Contain Metals and Organic Materials

RB020  ex 6815  Ceramic based fibres of physico-chemical characteristics similar to those of asbest

6  “Non-dispersible” does not include any wastes in the form of powder, sludge, dust or solid items containing encased hazardous waste liquids.

7  The appropriate OECD body should review whether consensus could be reached to incorporate this entry or an alternative into the Decision before the end of 2024.

8  The text of prior entry B3010 is provided below:

Solid plastic waste:
The following plastic or mixed plastic materials, provided they are not mixed with other wastes and are prepared to a specification:
• Scrap plastic of non-halogenated polymers and co-polymers, including but not limited to the following*
  - ethylene
  - styrene
  - polypropylene
  - polyethylene terephthalate
  - acrylonitrile
  - butadiene
  - polyacetals
  - polyamides
  - polybutylene terephthalate
  - polycarbonates
  - polyethers
  - polyphenylene sulphides
  - acrylic polymers
  - alkanes C10–C13 (plasticiser)
  - polyurethane (not containing CFCs)
- polysiloxanes
- polymethyl methacrylate
- polyvinyl alcohol
- polyvinyl butyral
- polyvinyl acetate

- cured waste resins or condensation products including the following:
  - urea formaldehyde resins
  - phenol formaldehyde resins
  - melamine formaldehyde resins
  - epoxy resins
  - alkyd resins
  - polyamides

- the following fluorinated polymer wastes **
  - perfluoroethylene/propylene (FEP)
  - perfluoro alkyl alkane
  - tetrafluoroethylene/perfluoro vinyl ether (PFA)
  - tetrafluoroethylene/perfluoro methyl vinyl ether (MFA)
  - polyvinylidene fluoride (PVDF)
  - polyvinylfluoride (PVF)

* It is understood that such scraps are completely polymerized.

** - post-consumer wastes are excluded from this entry
- Wastes shall not be mixed
- Problems arising from open-burning practices to be considered

9. No consensus has been reached among OECD Member countries to incorporate Basel entry Y48 into this Decision. Also, no consensus has been reached among OECD Member countries on whether or not GH013 continues to apply in this Decision. As a result of this situation, each Member country retains its right to control waste of polymers of vinyl chloride in conformity with its domestic legislation and international law.

11. The appropriate OECD body should review whether consensus could be reached to incorporate this entry or an alternative into the Decision before the end of 2024.

12. This listing includes wastes in the form of ash, residue, slag, dross, skimming, scaling, dust, powder, sludge and cake, unless a material is expressly listed elsewhere.

13. This listing includes wastes in the form of ash, residue, slag, dross, skimming, scaling, dust, powder, sludge and cake, unless a material is expressly listed elsewhere.
