

Table of Contents

<i>Executive Summary</i>	9
Chapter 1. The Future of International Migration: Introduction and Overview	17
Rationale, purpose and approach	18
The future evolution of “pull” factors in OECD countries	19
The future evolution of “push” factors in emerging and developing countries	21
Spotlight on migration prospects in individual regions and countries	23
Scenarios to 2030	40
Overall findings and policy challenges	43
Bibliography	48
Chapter 2. Immigration “Pull” Factors in OECD Countries over the Long Term	51
Introduction	52
The current situation	54
Immigration pull factors	59
Pull factors through 2030	62
Future migration levels and composition	117
Other migration scenarios	121
Conclusion	123
Bibliography	130
Chapter 3. Migration “Push” Factors in Non-OECD Countries over the Long Term	139
Introduction	140
The current situation with respect to flows and stocks of migrants in the OECD	141
Key “push” factors in various non-OECD regions and their likely development to 2025-2030	144
Conclusion	183
Bibliography	187

Chapter 4. Scenarios for the Global Economy and Implications for Migration	193
Introduction	194
The underlying patterns of change	196
The five scenarios	201
Scenario narratives and implications	207
Conclusion: Core impacts on migration flows	219
Bibliography	232
Annex 4.A1. Scenario Planning Methodology	235
Annex 4.A2. The Five Baseline Scenarios: Breakdown by Key Parameters	237
Annex 4.A3. Pull Factors: Potential Impact Under Each Scenario	247
Annex 4.A4. Push Factors: Potential Impact Under Each Scenario	255
Annex 4.A5. Wild Cards and Their Implications for Migration and Migration Policy ..	267
Annex 4.A6. Sources for Pull and Push Factor Core Data	273
 Annex A. The Future of International Migration to OECD Countries: Members of the Steering Group	 277
 Annex B. The Future of International Migration to OECD Countries: Contributing Authors	 281
 Boxes	
Box 2.1. Theories of migration	60
Box 3.1. Migration costs and returns to migration	147
Box 3.2. The welfare magnet effect	151
Box 3.3. Pro-poor growth, poverty traps and migration	155
Box 3.4. Student migration in India	162
Box 3.5. Constrained domestic school supply model	164
Box 3.6. Brain drain	166
Box 3.7. Remittance in Pakistan	175
Box 3.8. Migration and weather variability	180
 Figures	
Figure 1.1. Projected China population by age group (in millions)	28
Figure 1.2. Projected Indonesia population by age group	30
Figure 1.3. The demographic dividend in the MENA: Demographic competition and burden at 25 years	34
Figure 2.1. Future migration and compositional pull factors ranked by assigning economic differentials half weight	119

Figure 3.1. Net migration rates, traditional immigration and emigration OECD countries, 1956-2003	142
Figure 3.2. Foreign-born population in the OECD countries (European and non-European), by region of origin (in millions)	143
Figure 3.3. Projected real GDP growth, 2008-2030	144
Figure 3.4. Per capita income convergence trends of developing regions with high-income countries, 2005-2030	146
Figure 3.5. Projected real GDP (current USD), by country	148
Figure 3.6. Physicians	149
Figure 3.7. Nursing and midwifery personnel	149
Figure 3.8. Welfare magnet effect	161
Figure 3.9. Expected variation of the size of the working age population, 2005-2030	158
Figure 3.10. Population projection of Russia and Turkey	159
Figure 3.11. Projected Chinese population, by age cohort	161
Figure 3.12. Enrolments in tertiary education: Constant scenario	165
Figure 3.13. Proportion of emigrants to OECD countries with a tertiary level of education by country of origin	166
Figure 3.14. Enrolments in tertiary education: American scenario	168
Figure 3.15. Enrolments in tertiary education: ICPD scenario	169
Figure 3.16. Enrolments in tertiary education: Global trends scenario	170
Figure 3.17. Workers' remittance transfers, 2006	173
Figure 3.18. Total remittances selected countries (in million USD)	175
Figure 3.19. Projected coastal flooding in 2070-2080	179
Figure 4.1. The five scenarios	203

Tables

Table 1.1. Expected relative importance of factors in future migrations to the OECD	27
Table 1.2. Main factors affecting migration: Future trends and human rights of migrants in Latin American countries	37
Table 2.1. Trends in total and temporary inflows of foreign population	53
Table 2.2. Trends in net migration	55
Table 2.3. Sources of the adult foreign-born population, 2000	57
Table 2.4. Projected average yearly economic growth, 2000-2040	64
Table 2.5. Differences in per capita GDP, 2000 and 2040	67
Table 2.6. Projected total and working-age population	71
Table 2.7. Population dependency ratios (population age 15-64 relative to children and the elderly)	73
Table 2.8. Projected foreign-born population assuming constant rates of emigration from major source countries, 2030	81
Table 2.9. Labour force participation rates	85
Table 2.10. Average years of total and healthy post-retirement	88
