The Future Governance of the International Public Sector Accounting Standards Board (IPSASB)

IPSASB Governance Review Group - Recommendations
Background

The International Public Sector Accounting Standards Board (IPSASB) Governance Review Group (the “Review Group”) was formed to (i) assess the current governance and oversight arrangements for the IPSASB’s standard-setting and other pronouncements (ii) make recommendations to strengthen these structures and processes, and (iii) thereby enhance the perceived relevance, quality and legitimacy of those standards and promote their adoption.¹

Based on the responses to a public consultation that was conducted from January 17, to April 30, 2014² and discussions held at the time of its meetings on May 31, 2013 and September 22, 2014 in Paris, the International Public Sector Accounting Standards Board (IPSASB) Governance Review Group (the “Review Group”) has formed a set of recommendations regarding the future governance of the International Public Sector Accounting Standards (IPSAS).

Recommendations of the Review Group

In order to strengthen the governance arrangements of the IPSASB in a timely, cost-effective, and expeditious manner, the Review Group recommends that:

1. The IPSASB should continue to operate under the auspices of the International Federation of Accountants (IFAC).

2. A single governance body, the Public Interest Committee (the “Committee”), should be established to ensure that the public interest is served by the standard setting activities of the IPSASB.

3. The Committee should be independent from IFAC and distinct from the existing governance bodies overseeing the IFAC’s private sector standard-setting activities – that is the Public Interest Oversight Board (PIOB) and Monitoring Group (MG).

4. The Committee’s objectives should be to review and advise the IFAC and IPSASB on the (i) terms of reference of the IPSASB; (ii) arrangements for nomination and appointment of IPSAB members; and (iii) procedures and processes for formulation of the IPSASB’s strategy and work plan and development of IPSASs to ensure that all are consistent with the

public interest. The Committee should not have a direct role in the development, adoption, and implementation of accounting standards.

5. The Committee should conduct a first review of the IPSASB terms of reference, nomination procedures, and standard-setting arrangements no later than the first semester of 2015, and provide advice to the IFAC and IPSASB on any potential improvements.

6. The Committee should meet at least annually thereafter to review progress against their recommendations and provide further guidance where necessary.

7. The initial membership of the Committee should include individuals with expertise in public sector financial reporting, and professional engagement in organizations that have an interest in promoting high-quality and internationally comparable financial information. Members should not accept any honoraria or other compensation for any work done in this capacity. Members should serve for a limited period, which should not exceed 3 years and be renewable for an additional 3 years. Additional members or observers, including other international and national bodies, may be admitted by consensus of the existing Committee members, taking into account the need to ensure balanced representation.

8. The functioning of the Committee should be defined in public Terms of Reference. Functioning rules should insure at least that (i) the Committee will meet annually and with an appropriate quorum; (ii) a Chairperson will be in charge of organizing the Committee’s meetings and performing secretariat activities – that is keeping minutes of meetings and records of opinions and decision of the Committee – to insure an appropriate transparency of the Committee’s operations.

9. To carry out its activities, the Committee should receive reports from the IFAC and the IPSASB regarding the procedures and processes followed in the appointment of IPSASB members, formulation of the IPSASB strategy and work plan, and development of individual accounting standards.

10. IFAC shall establish a separate Consultative Advisory Group (CAG) for the IPSASB. The role of the CAG should be to enable the IPSASB to receive direct feedback from interested public and private sector institutions, especially those engaged in the preparation, audit, or evaluation of public sector financial statements, on their strategy, work program, and standard-setting activities. The CAG would also provide an opportunity for IFAC and IPSASB to hear from government representatives about the technical issues that may have impeded their adoption of IPSASs.

11. A further public consultation on the improvements to the IPSASB’s governance arrangements shall be undertaken no later than 2020.
In light of the above recommendations, the Review Group proposes that the Committee have the Terms of Reference provided in Appendix A.
