Innovation Conference

20-21 NOVEMBER 2017

INNOVATION IN GOVERNMENT: THE NEW NORMAL

The conference will highlight insights from the OECD Observatory of Public Sector Innovation's (OPSI) work with countries that are transforming their operations and improving the lives of their people through innovation. It will bring together government leaders, public servants, and innovative partners in industry and civil society to connect, share experiences, and collaborate.

Pre-Register at <http://oe.cd/opsiconference>

Transforming government

Rebuilding the systems, cultures, and technology approaches for a 21st century government

Innovation methods & tools

Investigating frameworks, skills, and methods to unlock creativity and innovation, and embed them in the day-to-day work of public servants

Innovation for development

Innovating for sustainable development across the globe

Re-imagining boundaries

Re-imagining the new role of government and moving beyond the four walls of the bureaucracy
