

German approach and experiences to increase Policy Coherence for Sustainable Development:

Key messages:

- **Coalition Treaty: 2030 Agenda for Sustainable Development** „as guiding principle for German Policy”
- **National Sustainability Strategy** = frame for implementing the SDGs in Germany and for achieving greater policy coherence for sustainable development (including institutional set-up for improved coordination)
- Particular focus on taking into account **global impacts of domestic actions** (social and ecological Footprint) = indicators on sustainable production and consumption; LDC imports

Sustainability Management Systems (Institutions)
