VISIT TO THE OECD BY NORWEGIAN PARLIAMENTARIANS

The Standing Committee on Finance of the Norwegian Parliament made its regular visit to the OECD from 17 to 19th January 1994. A broad range of subjects linked to the work of the Committee was on the agenda, including a presentation and discussion of the OECD Unemployment/Employment study, general economic developments, the Norwegian economy, economic instruments in environment policy, OECD work on shipbuilding, trade and developments in Central and Eastern Europe and Russia. Due to the severity of the problem of unemployment, a substantial amount of time was devoted to matters related to the unemployment situation in the OECD area.

The Standing Committee on Finance consists of twenty members and is chaired by Mr. Karl Eirik Schjott-Pedersen from the Labour Party.
