A workshop on Development Assistance and Technology Co-operation for Cleaner Industrial Production in Developing Countries, organised by the OECD, will be held in Hanover, Germany, on 28th-30th September 1994 to review and discuss how donors can help to promote cleaner industrial production in developing countries.

Plenary meetings and working groups will focus in particular on concrete and specific action in support of cleaner production, including better access to information on cleaner technologies, capacity development, enhancing the role of the private sector and improving the financing of cleaner technology promotion through mobilising domestic resources as well as bilateral and multilateral development assistance.

Participants will include representatives of governments, the private sector, non-governmental organisations and the academic and research community from OECD and developing countries as well as international organisations.

Journalists may obtain further information by contacting Mr. Dirk von Felbert, Development Co-operation Directorate (tel. 45.24.76.91) or Mrs Elaine Geyer-Allély, Environment Directorate (tel. 45.24.79.36), OECD, 2 rue André Pascal, 75775 Paris cedex 16.
