Sustainable Development*

9:20-13:00 Plenary
(coffee break at the discretion of the Chair)

Questions for Discussion

Round Table participants are invited to consider the following questions:

1. What are the next steps for institutional investors and investee corporations to overcome barriers to implementing the TCFD recommendations on climate-related financial disclosures and ensure they are effective? How can institutional investors adopt ambitious yet achievable climate-aligned investment strategies and how can organisations such as the OECD support progress?
2. a. Should regulators and institutional investors support mandatory climate disclosure schemes?
b. If so, how can regulators work towards an international agreement on mandatory climate disclosure?
3. Beyond climate disclosure requirements, what other regulations and policies influence the integration of climate factors by institutional investors? How can regulators co-operate across policy areas, and with institutional investors, to address outstanding policy misalignments?
