Corrigenda

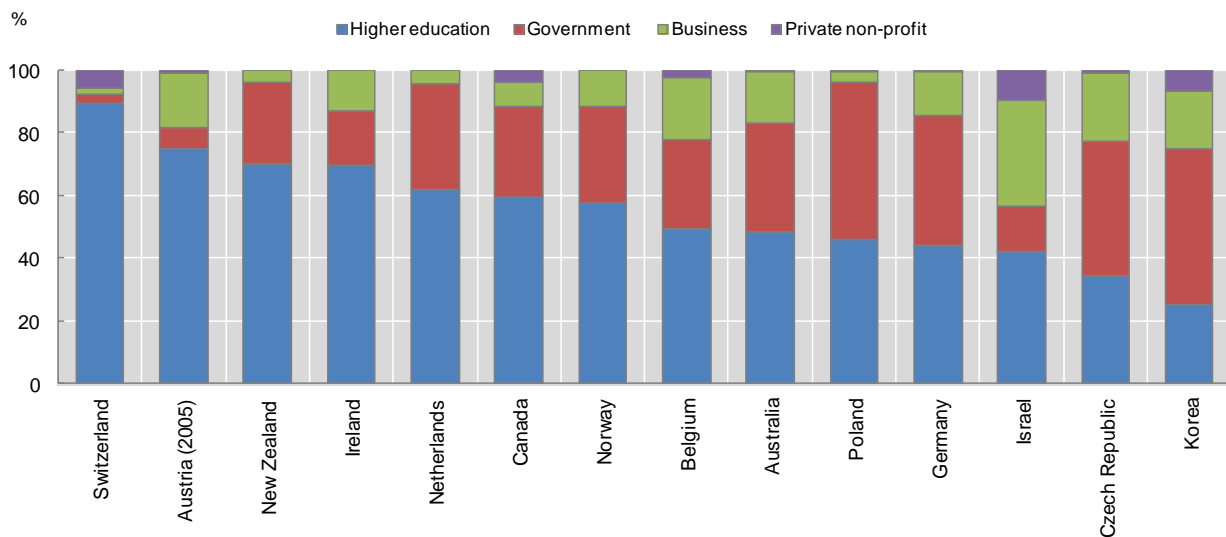

Page 53.

In the figure on **Job-to-job mobility of human resources in science and technology (HRST)**, Australia (2002-07) should read Austria (2002-07).

Page 81.

In the original figure on **Government budget appropriations or outlays for R&D by national sector of performance**, government and business sector series had been inverted for all countries, except Switzerland. The correct figure should read as follows:

Government budget appropriations or outlays for R&D by national sector of performance, 2008

Note: This is an experimental indicator. International comparability is currently limited.

Source: OECD, based on preliminary data from the Microdata project on public R&D funding, 2009. See chapter notes.
