Bali, Indonesia

#oecdsea
WHAT IS THE CONTEXT?
At the 2013 OECD Ministerial Meeting, the OECD Council agreed to establish a comprehensive Southeast Asia Regional Programme.

The Regional Programme aims to support the regional economic integration process and national reform priorities in Southeast Asia. Building on existing structures, it will provide a platform for exchange of good practices and mutual learning between policy makers in Southeast Asia and OECD countries.

In the first phase of the Regional Programme, work will focus on nine key policy areas: Tax, Investment, Regulatory Reform, Small and Medium-Sized Enterprises (SMEs), Connectivity and the Role of Public-Private Partnerships (PPPs) for Infrastructure Development, Education and Skills, Trade, Innovation and Gender.

The Regional Programme will be launched at the May 2014 OECD Ministerial Meeting. Ahead of this launch the 2014 OECD Southeast Asia Regional Forum will be an important opportunity to hear the perspectives from countries in the region on how the Regional Programme can be most useful to them. It will address policy themes relevant for both the ongoing regional integration process and the domestic reform agendas of SEA countries. The Forum, via its theme Regional Competitiveness for Sustained Growth in the SEA region will contribute to the objective of establishing the ASEAN Economic Community by 2015.

WHO WILL BE THERE?
The 2014 OECD Southeast Asia Regional Forum will bring together high-level officials and experts from Southeast Asia and OECD countries, as well as representatives from international organisations, civil society and business partners.

The ASEAN SME Policy Index will be launched.

26 March 2014: The Forum
The main Forum day will be structured around two high level panels.
